pledged to entire abstinence are so connected in these associations with other denominations that their number cannot be stated very definitely from the reports which we have received however we may safely say that in the communities where the missionaries labor the number of pledges cannot be less than 105 000 The red men of the West have been greatly blessed by our enterprise In their conscious weakness before the terrible destroyer they have enacted the most stringent laws against its introduction But yet they are its constant victims Writes a missionary among them Many hundreds of the Choctaws have perished by means of strong drink furnished them in all cases by white men The Choctaws have never had a distillery They are indebted to their white neighbors for the existence of intoxicating drinks And such men open little grog shops along the State Lines near the Indian reservation and keep large supplies of whisky and other kinds of ardent spirits Since I came to this country in December 1835 nearly forty persons have perished from spirits obtained along the Line on a distance of thirty miles Some have been drowned some frozen to death some rode with violence against the limbs of trees and were killed some of the number were killed while fighting with pine knots knives or clubs The tale is a shocking one There is much yet to do in this work among the Choctaws Who is answerable for all these murders % The crowd of emigrants continually pressing to our shores and welcome they are to the enjoyment of our rich soil and all our social civil literary and religious privileges at present strengthen mightily the power of intemperance

A Most Stirring and Significant Episode H. Paul Thompson, Jr.,2012-10-15 When Atlanta enacted prohibition in 1885 it was the largest city in the United States to do so A Most Stirring and Significant Episode examines the rise of temperance sentiment among freed African Americans that made this vote possible as well as the forces that resulted in its 1887 reversal well before the 18th Amendment to the Constitution created a national prohibition in 1919 H Paul Thompson Jr s research also sheds light on the profoundly religious nature of African American involvement in the temperance movement Contrary to the prevalent depiction of that movement as being one predominantly led by white female activists like Carrie Nation Thompson reveals here that African Americans were central to the rise of prohibition in the south during the 1880s As such A Most Stirring and Significant Episode offers a new take on the proliferation of prohibition and will not only speak to scholars of prohibition in the US and beyond but also to historians of religion and the African American experience

The Political Power of Bad Ideas Mark Lawrence Schrad,2010-03-24 In *The Political Power of Bad Ideas* Mark Schrad uses one of the greatest oddities

of modern history the broad diffusion throughout the Western world of alcohol control legislation in the early twentieth century to make a powerful argument about how bad policy ideas achieve international success His could an idea that was widely recognized by experts as bad before adoption and which ultimately failed everywhere come to be adopted throughout the world To answer the question Schrad utilizes an institutionalist approach and focuses in particular on the United States Sweden and Russia the USSR Conventional wisdom based largely on the U S experience blames evangelical zealots for the success of the temperance movement Yet as Schrad shows ten countries along with numerous colonial possessions enacted prohibition laws In virtually every case the consequences were disastrous and in every country the law was ultimately repealed Schrad concentrates on the dynamic interaction of ideas and political institutions tracing the process through which concepts of dubious merit gain momentum and achieve credibility as they wend their way through institutional structures He also shows that national policy and institutional environments count the policy may have been broadly adopted but countries dealt with the issue in different ways While *The Political Power of Bad Ideas* focuses on one legendary episode its argument about how and why bad policies achieve legitimacy applies far more broadly It also extends beyond the simplistic notion that ideas matter to show how they influence institutional contexts and interact with a nation s political actors institutions and policy dynamics
