Social Policy and Practice in Canada Alvin Finkel, 2012-05-09 *Social Policy and Practice in Canada* A History traces the history of social policy in Canada from the period of First Nations control to the present day exploring the various ways in which residents of the area known today as Canada have organized themselves to deal with or to ignore the needs of the ill the poor the elderly and the young This book is the first synthesis on social policy in Canada to provide a critical perspective on the evolution of social policy in the country While earlier work has treated each new social program as a major advance and reacted with shock to neoliberalism s attack on social programs Alvin Finkel demonstrates that right wing and left wing forces have always battled to shape social policy in Canada He argues that the notion of a welfare state consensus in the period after 1945 is misleading and that the social programs developed before the neoliberal counteroffensive were far less radical than they are sometimes depicted *Social Policy and Practice in Canada* A History begins by exploring the non state mechanisms employed by First Nations to insure the well being of their members It then deals with the role of the Church in New France and of voluntary organizations in British North America in helping the unfortunate After examining why voluntary organizations gradually gave way to state controlled programs the book assesses the evolution of social policy in Canada in a variety of areas including health care treatment of the elderly child care housing and poverty

Subversive Action Nilan Yu, Deena Mandell, 2015-12-10 Subversive Action presents cases that explore the use of extralegal action undertaken in pursuit of human rights and social justice and locate that action with reference to the boundaries of social work Definitions of social work often include goals of social change social justice empowerment and the liberation of people but social work texts make little mention of extralegal actions Mainstream conceptions of social work usually consider it to fall within the framework of particular legal and societal contexts As such it is presented with boundaries for legitimate action even as it espouses principles that may require it to challenge these boundaries How does one do social work in legal and societal contexts that challenge these principles with institutional and state mandated exclusion and discrimination Should social workers simply act within the bounds of the law in line with their professional sanction and mandate Do their actions qualify as social work if they are beyond the limits of the law The essays in this volume by authors from around the world raise these questions by providing a basis for reflection about the claims we make in social work embodied in discourses on social justice and human rights
