Poetry and Truth in Robert Browning's The Ring and the Book William Earl Buckler,1985-01-01 **The Poetry of Robert Browning** Britta Martens,2016-01-01 Robert Browning's pre eminent status amongst Victorian poets has endured despite the recent broadening of the literary canon He is the main practitioner of the period's most important poetic genre the dramatic monologue while his engagement with many aspects of nineteenth century culture makes him a key figure in the wider field of Victorian studies This stimulating introduction to Browning criticism provides an overview of the major responses to the poet's work over the last two hundred years It offers an insightful guide to criticism from various theoretical perspectives elucidating Browning's participation in Victorian debates about aesthetics history politics religion gender and psychology

Virginal Sexuality and Textuality in Victorian Literature Lloyd Davis,1993-01-01 This book examines the figure of the virgin a symbol central to many aspects of society and sexuality in nineteenth century England and its effects on the Victorian literary imagination Studying the virgin as a social sexual and literary phenomenon the volume contributes to current critical accounts of the relations among the body and language gender and discourse These essays explore the ways in which virginity is not a natural ideal but a complex cultural and literary sign The authors rethink the virginal as a textual counter example to the idealization of natural sexuality

Browning, Victorian Poetics and the Romantic Legacy Dr Britta Martens,2013-05-28 Taking an original approach to Robert Browning's poetics Britta Martens focuses on a corpus of relatively neglected poems in Browning's own voice in which he reflects on his poetry his self conceptualization and his place in the poetic tradition She analyzes his work in relation to Romanticism Victorian reactions to the Romantic legacy and wider nineteenth century changes in poetic taste to argue that in these poems as in his more frequently studied dramatic monologues Browning deploys varied dramatic methods of self representation often critically and ironically exposing the biases and limitations of the seemingly authoritative speaker Browning The poems thus become devices for Browning's detached evaluation of his own and of others poetics an evaluation never fully explicit but presented with elusive economy for the astute reader to interpret The confrontation between the personal authorial voice and the dramatic voice in these poems provides revealing insights into the poet's highly self conscious conflicted and sustained engagement with the Romantic tradition and the diversely challenging reader expectations that he faces in a post Romantic age As the Victorian most rigorous in his rejection of Romantic self expression Browning is a key transitional figure between the sharply antagonistic periods of Romanticism and Modernism He is also as Martens persuasively demonstrates a poet of complex contradictions and an illuminating case study for addressing the perennial issues of voice authorial authority and self reference

Victorian Religious Discourse J. Nixon,2004-08-20 This collection of essays attempts to address the disparate historical and critical ways religion informs the literature and culture of nineteenth century England showing how a representative group of major Victorians negotiated its impact The collection attempts to present Victorian religious

discourse not as monologic but as dialogic if not protean It seeks to make available new understandings of nineteenth century British literature as well as to elucidate the extent to which religious discourse is vested in Victorian cultural thoughts and practice

Masculinity in Four Victorian Epics

Clinton Machann,2016-05-06 Offering provocative readings of Tennyson s Idylls of the King Barrett Browning s Aurora Leigh Clough s Amours de Voyage and Browning s The Ring and the Book Clinton Machann brings to bear the ideas and methods of literary Darwinism to shed light on the central issue of masculinity in the Victorian epic This critical approach enables Machann to take advantage of important research in evolutionary psychology cognitive science anthropology among other scientific fields and to bring the concept of human nature into his discussions of the poems The importance of the Victorian long poem as a literary genre is reviewed in the introduction followed by transformative close readings of the poems that engage with questions of gender particularly representations of masculinity and the prevalence of male violence Machann contextualizes his reading within the poets views on social philosophical and religious issues arguing that the impulses drives and tendencies of human nature as well as the historical and cultural context influenced the writing and thus must inform the interpretation of the Victorian epic

The Ring and the Book Robert

Browning,2001-08-27 In June 1860 Browning purchased an old yellow book from a bookstall in Florence The book contained legal briefs pamphlets and letters relating to a case that had been tried in 1698 involving a child bride a disguised priest a triple murder four hangings and the beheading of a nobleman Browning resolved to use it as the source for a poem The result The Ring and the Book is certainly one of the most important long poems of the Victorian era and is arguably Browning s greatest work Basing their edition on the 1888 89 version of the poem Altick and Collins include the last corrections Browning intended before his death In addition to a substantial introduction this Broadview Literary Texts edition also includes selections from Browning s correspondence and contemporary reviews and reactions to the work

Science, Language, and Reform in Victorian Poetry Barbara Barrow,2019-05-29 Barrow s timely book is the first to examine the link between Victorian poetry the study of language and political reform Focusing on a range of literary scientific and political texts Barrow demonstrates that nineteenth century debates about language played a key role in shaping emergent ideas about popular sovereignty While Victorian scientists studied the origins of speech the history of dialects and the barrier between human and animal language poets such as Elizabeth Barrett Browning Alfred Tennyson and Thomas Hardy drew on this research to explore social unrest the expansion of the electorate and the ever widening boundaries of empire Science Language and Reform in Victorian Poetry recovers unacknowledged links between poetry philology and political culture and contributes to recent movements in literary studies that combine historicist and formalist approaches
