Recollections of Full Years (Abridged, Annotated) Helen Herron Taft, 2016-11-02

As ambitious as her husband William Howard Taft, Helen Herron may be the most underrated of all our First Ladies. She encouraged Taft in all his political accomplishments, and he may not have become president without her. He preferred the judiciary and eventually became Chief Justice of the Supreme Court. Helen Nellie Taft was the first wife of a president to ride down Pennsylvania Avenue with her husband on inauguration day and the only woman who was wife of both a president and a chief justice. She is best known for working with the wife of the Japanese Ambassador to import and plant more than 3,000 cherry trees around the Washington Tidal Basin. Witty, intelligent, open-minded, and curious about the world, she is even today beloved in the Philippines, where her husband served as head of the civil government in 1900. She and her husband courted criticism for including Filipinos in social affairs.

Quarterly Bulletin Berkshire Athenaeum and Museum,1913 **The American Review of Reviews** Albert Shaw,1914 **American Monthly Review of Reviews** Albert Shaw,1909 *Remaking the Presidency* Peri E. Arnold,2009-09-03 In a period of American history marked by congressional primacy presidential passivity and hostility to governmental action Theodore Roosevelt and Woodrow Wilson became iconic presidents through activist leadership Peri Arnold a leading presidential scholar goes beyond the biographers to explain what really set Roosevelt apart from his

predecessor William McKinley how Wilson differed from his successor Warren G Harding and how we might better understand the forgettable William Howard Taft in between This is the first comparative study of the three Progressive Era presidents examining the context in which they served the evolving institutional role of the presidency and the personal characteristics of each man Arnold explains why Roosevelt and Wilson pursued activist roles how they gained the means for effective leadership in a role that had not previously supported it and how each of the three negotiated the choppy crosscurrents of changing institutions and politics with entirely different outcomes Arnold delineates the American political scene at the turn of the twentieth century one characterized by a weakening of party organizations the rise of interest groups and print media and increasing demands for reform He shows how the Progressive Era presidents marked a transition from the nineteenth century's checks and balances to the twentieth's expansive presidential role even though demands for executive leadership were at odds with the presidency's means to take independent action Each of these presidents was uniquely challenged to experiment with the office's new potential for political independence from party and Congress and Arnold explains how each had to justify their authority for such experimentation He also shows how their actions were reflected in specific policy case studies the Northern Trust and naval modernization under Roosevelt tariff reform and the Pinchot Ballinger debate over conservation under Taft and the Federal Reserve and Federal Trade Commission under Wilson Ultimately Arnold shows how the period's ferment affected both the presidency and its incumbents and how they in turn affected progressive politics More important he helps us better understand two presidents who continue to inspire politicians of differing stripes and relates their leadership styles to the modern development of the presidency

Bossey , The half century covered by Raoul Bossey's diaries and memoirs was one of major upheaval in the world particularly in Eastern Europe A keen and witty observer Bossey faithfully recorded the reactions of informed people to the then unfolding international events His recollections begin in 1918 when Bossey entered the Romanian diplomatic service as a lowly attach and began his climb through the ranks cabinet chief of the minister of foreign affairs to political director of the prime minister's office to secretary general of the Romanian regency By the early 1940s he achieved what was at that time the most important posting for a Romanian diplomat envoy to Berlin

Presidential Wives Paul F. Boller, 1998 At once funny and poignant dramatic and illuminating this anecdotal history covers every First Lady from Martha Washington to Hillary Rodham Clinton A marvelously entertaining work Newsday

Helen Taft Lewis L. Gould, 2010-08-24 In this fascinating study Lewis L. Gould has brought a shadowy first lady into the light and restored her to a rightful place as a patron of music Helen Herron Taft came to the White House intent on establishing Washington D C as the nation's cultural capital A stroke in May 1909 made her a semi invalid impaired her speech and disrupted her agenda Historians have written her off as a shrewish figure who pushed her portly husband into the presidency Gould challenges this outdated narrative with new information on Helen Taft's campaign to bring the best of

classical music to the White House during her four years. He draws on prodigious research about the musicians who performed there including violinist Fritz Kreisler, pianist Fannie Bloomfield Zeisler and contralto Ernestine Schumann Heink and reveals for the first time how Nellie Taft enlisted a diverse array of top notch artists for her musicales recitals and social events. The result is a major contribution to a better understanding of the White House as a cultural center at the turn of the last century. Beyond her musical agenda, Helen Taft enhanced the appearance of Washington with the planting of the cherry trees from Japan that now bloom each spring. Gould also delves with insight into Mrs Taft's role in the politics of her husband's administration. He provides the most complete recounting into her part in the dismissal of Henry White as ambassador to France, a key moment in the emergence of her husband's split with Theodore Roosevelt. He discusses the nature of her stroke based on letters from her husband and her doctors and reveals how Mrs Taft, her daughter Helen and the journalist Eleanor Egan crafted the first ever memoir of any first lady. Drawing on memoirs and manuscripts not used before, Gould re-creates memorable occasions at the Taft White House when dramatist Ruth Draper delivered her monologues, Charles Coburn staged Shakespeare on the White House lawn and Lady Augusta Gregory of the Irish Players dropped by. Gould's path breaking study of Helen Taft is a significant addition to the literature on first ladies and a tribute to a complex and brave woman who overcame illness and adversity to leave her own special imprint on the history of the White House. *Twenty Years'*

Recollections of an Irish Police Magistrate Frank Thorpe Porter, 1880 *Brentano's Book Chat*, 1914 **Landon Carter's Uneasy Kingdom** Rhys Isaac, 2005-09-29 In this long awaited work Isaac mines the diary of a Revolutionary War era Virginia planter and many other sources to reconstruct his interior world as it plunged into turmoil. *First Ladies* Betty Boyd Caroli, 1995-09-28 As we move toward the year 2000 Americans continue to debate the job of First Lady. How much power does the position actually hold? How publicly should that power be wielded? *First Ladies* tells the story of this curious institution and the evolution of these women's role from ceremonial backdrop to substantive world figure. This expanded edition brings us up to the present examining the legacies of our three most recent First Ladies. Nancy Reagan credited with raising the job to that of Associate President, Barbara Bush who took a more traditional approach and Hillary Rodham Clinton widely billed as changing the job completely. Covering all thirty nine women from Martha Washington to Hillary Rodham Clinton and including the daughters, daughters in law and sisters of presidents who sometimes served as First Ladies, Betty Boyd Caroli explores the background, marriage and accomplishments and failures in office of each woman. This remarkably diverse lot included Abigail Adams whose remembrance the ladies became a twentieth century feminist refrain, Edith Wilson who alone controlled access to the President when he suffered a stroke, Jane Pierce who prayed her husband would lose the election, Helen Taft who insisted on living in the White House although her husband would have preferred a judgeship and Pat Nixon who perfected what some have called the robot image. They ranged in age from early 20's to late 60's, some received superb educations for their time while others had little or no schooling. Including the courageous and adventurous

the emotionally unstable the ambitious and the reserved these women often did not fit the traditional expectations of a presidential helpmate Depicting how these women used the magic wand given to them Caroli reveals not only how each First Lady altered the role but also how the role changed in response to American culture Because of their prominence these women left remarkably complete records and their stories offer us an insider s view not only of their lives as holders of what sociologists now call derivative power but also of the history of American women in general
