Recollections Of My Life:

Recollections of My Life as a Woman Diane di Prima, 2002-03-26 In *Recollections of My Life as a Woman* Diane di Prima explores the first three decades of her extraordinary life Born into a conservative Italian American family di Prima grew up in Brooklyn but broke away from her roots to follow through on a lifelong commitment to become a poet first made when she was in high school Immersing herself in Manhattan s early 1950s Bohemia di Prima quickly emerged as a renowned poet an influential editor and a single mother at a time when this was unheard of Vividly chronicling the intense creative cauldron of those years she recounts her revolutionary relationships and sexuality and how her experimentation led her to define herself as a woman What emerges is a fascinating narrative about the courage and triumph of the imagination and how one woman discovered her role in the world *Recollections of My Life and Times. An Autobiography by ... J. Morgan ... With Selections from His Journal. Edited by His Son [T. Morgan].* James MORGAN (of Belfast.), 1874

spanning much of the twentieth century It began at a time before radios were found in most American homes and before the advent of talking pictures His interest in science was born at an early age sparked by his mother as she introduced him to the stars in a dark Utah sky Early experiences and training were much the same as for any other boy at the time But with the beginning of war in Europe and the U S response by instituting universal conscription the draft he realized the importance of education in fulfilling his military obligation and enlisted in a Navy training program Navy service took him to Chicago and Southern California and eventually to little known Peleliu Island in the Western Pacific a foretaste of a life of frequent travel to follow World War II was followed all too soon by the retreat of the Soviet Union behind an Iron Curtain of secrecy a massive buildup of conventional forces and armed occupation of neighboring countries It became essential to know when they succeeded in building the atomic bomb This book is a first hand account in non technical terms of some of the ways in which this was accomplished This was followed by attempts to ban the bomb or at least to ban nuclear testing The author was fortunate to be near the center of U S efforts in many of these attempts and the book describes important activities and events that ultimately led to achieving the lesser of these goals
