Reconstituting The Global Liberal Order Legitimacy And Regulation:

Reconstituting the Global Liberal Order Kanishka Jayasuriya, 2006-02-01 The events of September 11 2001 were a significant watershed in the emerging global order However the nature and consequences of this changing global order remain unclear This book argues that this new order is as much the result of issues relating to the evolving methods and forms of governance as of the new role and position of the United States in the world system Using an innovative framework derived from the work of Carl Schmitt Kanishka Jayasuriya explores the nexus between domestic political and constitutional structures and the global order and examines how the post war framework of international liberalism is crumbling under the new pressures of globalization As well as looking at the implications of 9 11 for the global order this new study relates the events of 9 11 to the deep transformations of the post war global order emphasizes the importance of the rise of the new regulatory state examines the new politics of fear in liberal democracies including the US UK and Australia studies the appropriation of the language of the left by conservative forces explores the illiberal outcomes of actions undertaken in the name of liberalism This unique and timely study will be of great interest to students and researchers of international political economy globalization and international political theory

Transnational Activism in the UN and the EU

Jutta Joachim, Birgit Locher, 2008-11-04 Comparing non governmental organizations NGOs in the United Nations and the European Union across a range of different issue areas this volume examines how the choice of venue and institution affects the strategies of NGOs Despite significant differences with respect to their scope membership as well as their institutional rules the authors find that the UN and the EU have surprisingly similar effects on civil society organizations and regulate access in such a way that it significantly constrains the agency of NGOs Highlights include A comprehensive outline of the volume s main research questions situated within the existing literature on the topic Eight case studies of NGO involvement in the UN and the EU across a range of different areas including human rights the environment socio economic and security issues A theoretically grounded summary of case study findings challenging the findings of previous studies regarding the power of NGOs A discussion of the findings s implications for the broader literature as well as for studies relating to the EU and the UN in particular Transnational Activism in the UN and the EU will be of interest to students and scholars of International Relations European Studies and Global Politics Jutta Joachim is Associate Professor of Political Science at the University of Hannover Germany Birgit Locher is a Research Fellow at the Institute of Political Science at the University of Tübingen Germany

Regional Cooperation and International Organizations Norbert Götz, Heidi Haggrén, 2009-01-21 This book looks beyond the nation state and institutions to examine regional cooperation of the Nordic countries in international organizations

The Politics of Conflict Economies Morten Bøås, 2014-08-21 Conflict economies cannot be approached in isolation but must instead be contextualised socially and historically These economies did not emerge in vacuum but are part and parcel of the history of people and place This book explores the informal and illicit extraction and trade of minerals

and other types of natural resources that takes place in the borderlands during periods of conflict This type of extraction and marketing often referred to as conflict trade depends on a weak state and works alongside the structures of the state and its officials The book emphasises that conflicts do not start as competition over natural resources and in turn suggests that the integration of the extraction and marketing of natural resources only starts once fighting is well under way Boas argues that although economic agendas are an integral part of African conflicts the desire to accumulate is not the only motivation Thus in order to present a more comprehensive analysis of conflict we need to take into account political cultural and historical factors in addition to the economic dimensions of conflict This book will be of very strong interest to students and scholars of political economy conflict studies international relations and development

Apology and Reconciliation in International Relations Christopher Daase, Stefan Engert, Michel-André Horelt, Judith Renner, Renate Strassner, 2015-08-27 This book looks into the role and effects of public apologies in international relations It focuses on two major questions why and when do states issue apologies for historic crimes and how and under what conditions are these apologies successful in remedying conflictive relationships In recent years we have witnessed an unseen popularity of apologies with numerous politicians managers and clergymen being eager to apologise and atone for the wrong doings of their countries or institutions Public apologies thus are a new and highly interesting while nevertheless still puzzling phenomenon the precise role and meaning of which in international politics remains to be explored This book sets out to do exactly this Focusing in particular on state apologies it assembles twelve detailed empirical case studies which deal with the two questions raised above In the first part the case studies reconstruct the processes in which state representatives react to calls for public atonement and in the second part the case studies explore the reactions to the apology and evaluate signs for its success or failure All case studies are based on a theoretical framework which is outlined in the introduction to the book and helps develop tentative assumptions about the emergence and the effects of state apologies drawing on different strands of literature such as political science philosophy sociology or psychology This work will be of great interest to students and scholars of conflict reconciliation international relations and transitional justice

The Scourge of Genocide Adam Jones, 2013-06-26 The Scourge of Genocide collects essays reviews and reportage on the subjects of genocide and crimes against humanity by Adam Jones recently selected as one of Fifty Key Thinkers on the Holocaust and Genocide The volume includes a number of previously unpublished essays and explores a range of debates and approaches in comparative genocide studies such as Genocide pedagogy and visual representation Gender and gendercide The role of media and communications in genocide The historiography of genocide studies Subaltern genocide or genocides by the oppressed Strategies of genocide prevention and intervention Covering a broad spectrum of theoretical perspectives as well as case studies from the former Yugoslavia Rwanda Guatemala Afghanistan Iraq and Israel Palestine this book is essential reading for all scholars and students of genocide studies political violence and international relations

Federalism in Asia Harihar Bhattacharyya, 2010-02-25 This

book analyzes the successes and failures of various federal measures adopted in India Pakistan and Malaysia for the political accommodation of diversity Bhattacharyya then assesses their comparative significance for other countries in Asia In particular he examines growing tensions between nation and state building in ethnically plural societies modes of federation building in Asia persistent ethno nationalist tensions in federations and the relationship between federalism and democracy and federalism and decentralization Since ethno nationalist conflict remains unresolved in most countries of Asia this book should of interest to those seeking long term solutions of problems of order and stability in ethnically diverse countries in Asia

The Power of Ideology Alex Roberto Hybel,2013-05-13 Since the Roman Empire leaders have used ideology to organize the masses and instil amongst them a common consciousness and equally to conquer assimilate or repel alternative ideologies Ideology has been used to help create safeguard expand or tear down political communities states empires and regional or world systems This book explores the multiple effects that competing ideologies have had on the world system for the past 1 700 years the author examines the nature and content of Christianity Islam Confucianism Protestantism secularism balance of power doctrine nationalism imperialism anti imperialist nationalism liberalism communism fascism Nazism ethno nationalism and transnational radical Islamism alongside the effects their originators sought to craft and the consequences they generated This book argues that for centuries world actors have aspired to propagate through the world arena a structure of meaning that reflected their own system of beliefs values and ideas this would effectively promote and protect their material interests and believing their system to be superior to all others they felt morally obliged to spread it Radical transnational Islamism Hybel argues is driven by the same set of goals This book will be of interest to students and scholars of international politics international relations theory history and political philosophy

Coping and Conformity in World Politics Hugh C. Dyer,2009-12-16 This book introduces the conceptual frameworks of coping and conformity to provide a new analysis of the ethical and political demands of international life The book also aims to address wider issues of freedom and necessity individualism and communitarianism and cosmopolitanism agency and structure and the legitimacy of governance and institutions

Sovereignty and the Responsibility to Protect Theresa Reinold,2013 This book explores how the bedrock institution of today s global order sovereignty is undergoing transformation as a result of complex interactions between power and norms between politics and international law This book analyses a series of controversial military interventions into the internal affairs of irresponsible sovereigns and discusses their consequences for the rules on the use of force and the principle of sovereign equality Featuring case studies on Kosovo Darfur and Afghanistan It shows that frames from one discourse for example the debate over the responsibility to protect have been imported into other discourses on counter terrorism and nuclear non proliferation in an attempt to legitimize a bold challenge to the global legal order Although the demise of sovereignty is widely debated this book instead seeks to deconstruct sovereignty by explaining how this institution has been reconstituted by global powers whose hegemonic law making activities have popularized the

notion of sovereignty as responsibility Drawing on international relations theory international law and sociology Sovereignty and the Responsibility to Protect develops a truly interdisciplinary perspective on the transformation of sovereignty and will be of strong interest to students and scholars in these fields The Contested Politics of Mobility Vicki Squire,2010-11-19

The Contested Politics of Mobility is the first collection to explore how the politics of mobility turns on the condition of irregularity Timely and incisive it brings together leading scholars from across the sub disciplines of citizenship migration and security studies who show irregularity to be a produced and highly contested socio political condition **The Emerging Politics of Antarctica** Anne-Marie Brady,2013 This book examines the post Cold War challenges facing Antarctic governance It seeks to understand the interests of new players in Antarctic affairs such as China India Korea and Malaysia and how other key players such as Russia and the USA or claimant states such as New Zealand or France are coping in the new global order Antarctica is the world s fifth largest continent and its territories are claimed by seven different states Since 1961 Antarctica has been managed under the Antarctic Treaty System ATS a regime which according to its critics by the terms of its membership effectively excludes most of the nations of the world This book examines the post Cold War challenges facing Antarctic governance and is organized thematically into three sections Part 1 considers the role of Antarctic politics in the current post Cold War post colonial era and the impact this new political environment is having on the ATS Part 2 looks at the competing foreign policy objectives of a representative range of countries with Antarctic activities Part 3 examines issues that have the potential to destabilise the order of the Antarctic Treaty System such as unrestricted tourism and new advances in science and technology The Emerging Politics of Antarctica will be of interest to students and scholars of international politics polar studies and foreign policy studies *State-Building* Aidan Hehir, Neil Robinson,2007-03-06

This study brings together internationally renowned academics to provide a detailed insight into the theory and practice of state building State building is one of the dominant themes in contemporary international relations This text addresses both the theoretical logic behind state building and key practical manifestations of this phenomenon Unlike how to manuals that seek to identify best practice this book interrogates the normative assumptions inherent in this practice and the manner in which state building impacts on contemporary international relations The logic of state building is explored and analyzed providing insight into the historical context that catalyzed this process the relationship between international law and the practice of international administration and the political ramifications and implications of external governance Case studies on Bosnia Kosovo and East Timor provide practical examples of key contradictions within the state building process highlighting the lack of accountability democracy and vision manifest in these operations Offering a coherent critical analysis of an increasingly important international issue State Building will appeal to students and scholars of international relations comparative politics and political theory Law and Legalization in Transnational Relations Christian Brüttsch, Dirk Lehmkuhl,2007-03-06 This volume addresses the emergence of multiple legal and law like arrangements that alter the

interaction between states their delegated agencies international organizations and non state actors in international and transnational politics Political scientists and legal scholars have been addressing the legalization of international regimes and international politics and engaging in interdisciplinary research on the nature the causes and the effects of the norm driven controls over different areas and dimensions of global governance Written by leading contributors in the field the book claims that the emergence and spread of legal and law like arrangements contributes to the transformation of world politics arguing that legalization does not only mean that states co operate in more or less precise binding and independent regimes but also that different types of non state actors can engage in the framing definition implementation and enforcement of legal and law like norms and rules To capture these diverse observations the volume provides an interpretative framework that includes the increase in international law making the variation of legal and legalized regimes and the differentiation of legal and law like arrangements Law and Legalization in Transnational Relations is of interest to students and researchers of international politics international relations and law

U.S. Security Cooperation with Africa Robert J. Griffiths, 2016-04-14

As Africa s strategic importance has increased over the past decade and a half United States security cooperation with the continent has expanded The most visible dimension of this increased engagement was the establishment of the U S Military Command for Africa AFRICOM Some critics are skeptical of AFRICOM s purpose and see the militarization of U S Africa policy while others question its effectiveness Recognizing the link between development and security AFRICOM represents a departure from the traditional organization of military commands because of its holistic approach and the involvement of the Department of State as well as other U S government stakeholders Nevertheless AFRICOM s effort to combine security and development faces formidable conceptual and operational challenges in trying to ensure both American and African security interests The human security perspective s emphasis on issues that go beyond traditional state centered security to include protecting individuals from threats of hunger disease crime environmental degradation and political repression as well as focusing on social and economic justice is an important component of security policy At the same time the threat of violent extremism heavily influences U S security cooperation with Africa In this examination of the context of U S African security relations Robert J Griffiths outlines the nature of the African state traces the contours of African conflict surveys the post independence history of U S involvement on the continent and discusses policy organization and implementation and the impact of U S experiences in Iraq and Afghanistan on the U S Africa security relationship Africa s continuing geostrategic significance the influence of China and other emerging markets in the region and America s other global engagements especially in light of U S fiscal realities demonstrate the complexity of U S African security cooperation

The Role, Position and Agency of Cusp States in International Relations Marc Herzog, Philip Robins, 2014-06-20 This work seeks to develop a new concept with which to analyse the actions and activities of states that tend to be relatively ignored by the discipline of International Relations IR As a discipline IR has a tendency to lean towards the analytically safe Given the

current and recent dynamism of the international system that is both surprising and undesirable Arranged around the concept of the idea of the Cusp State and cuspness more generally the book consists of empirical analysis of eight different countries Brazil Iran Israel Japan Mexico Taiwan Turkey and Ukraine defined as states that lie uneasily on the political and or normative edge of what is widely believed to be an established region By focusing on the importance of comparing groups of states like states with high degrees of cuspness this book argues that it is possible to categorise the world in a fresher and more original way and one which covers more of the globe than either a systemic or regionalist approach would do This work will be of great interest to students and scholars of Geopolitics International Security and Regionalism **Environmental**

Change and Foreign Policy Paul G. Harris,2009-06-03 Environmental Change and Foreign Policy Theory and Practice and its companion volume Climate Change and Foreign Policy Case Studies from East to West examine and explain the role of foreign policy politics processes and institutions in efforts to protect the environment and natural resources They seek to highlight international efforts to address human induced changes to the natural environment analyze the actors and institutions that constrain and shape actions on environmental issues show how environmental changes influence foreign policy processes and critically assess environmental foreign policies Focusing on theory and practice this book Introduces the concepts and theories of Environmental Foreign Policy providing a theoretical overview as well as addressing the construction of nature the symbolism of environmental policy and business and government responses to climate change Explores the practice of Environmental Foreign Policy describing how both developed and developing countries have approached a variety of environmental issues including persistent organic pollutants water biodiversity climate change and the trade environment nexus This book will be of strong interest to scholars and students of environmental policy and politics foreign policy public policy climate change and international relations The Securitization of Humanitarian Migration

Scott D. Watson,2009-06-02 As western liberal states progressively restrict access to refugees and asylum seekers this book explores how migration has been securitized using detailed case studies on policies in Canada and Australia Defining and Defying Organised Crime Felia Allum,Francesca Longo,Daniela Irrera,Panos Kostakos,2010-02-25 Organised crime is now a major threat to all industrial and non industrial countries Using an inter disciplinary and comparative approach this book examines the existing official institutional discourse on organised crime to examine whether or not it has an impact on perceptions of the threat and on the reality of organized crime Gender Inclusive Adam Jones,2008-12-02 Gender Inclusive offers a challenging and unconventional reinterpretation of gender and mass violence compiling two decades of writing on this theme by noted genocide scholar Adam Jones
