*Reconstructing American Literary History* Sacvan Bercovitch, 2000      **Allegory in America** D. Madsen, 1995-12-18  
Allegory in America surveys the history of American allegorical writing from the Puritans through the period of American romanticism to postmodernism In a series of theoretical chapters the cultural function of allegory is discussed in relation to the mythology of American exceptionalism Each theoretical chapter is followed by a chapter that analyzes a specific text or group of texts Allegorical indeterminacy is seen to produce a literary tradition that both represents and subverts the ideals of American orthodoxy      Cultural Reformations Brian Cummings, James Simpson, 2010-06-24 The deepest periodic division in English literary history has been between the medieval and the early modern Cultural Reformations initiates discussion on many fronts in which both periods look different in dialogue with each other      Thematics Max M. Louwerse, Willie van Peer, 2002-05-29 Themes play a central role in our everyday communication we have to know what a text is about in order to understand it Intended meaning cannot be understood without some knowledge of the underlying theme This book helps to define the concept of themes in texts and how they are structured in language use Much of the literature on Thematics is scattered over different disciplines literature psychology linguistics cognitive science which this detailed collection pulls together in one coherent overview The result is a new landmark for the study and understanding of themes in their everyday manifestation      **The Cambridge History of American Literature: Volume 2, Prose Writing 1820-1865** Sacvan Bercovitch, Cyrus R. K. Patell, 1994 This is the fullest and richest account of the American Renaissance available in any literary history The narratives in this volume made for a four fold perspective on literature social cultural intellectual and aesthetic Michael D Bell describes the social conditions of the literary vocation that shaped the growth of a professional literature in the United States Eric Sundquist draws upon broad cultural patterns his account of the writings of exploration slavery and the frontier is an interweaving of disparate voices outlooks and traditions Barbara L Packer's sources come largely from intellectual history the theological and philosophical controversies that prepared the way for transcendentalism Jonathan Arac's categories are formalist he sees the development of antebellum fiction as a dialectic of prose genres the emergence of a literary mode out of the clash of national local and personal forms Together these four narratives constitute a

basic reassessment of American prose writing between 1820 and 1865 It is an achievement that will remain authoritative for our time and that will set new directions for coming decades in American literary scholarship      **Teaching Literature** T. Agathocleous, A. Dean, 2002-12-16 In Teaching Literature scholars explain how they think about their everyday experience in the classroom using the tools of their ongoing scholarly projects and engaging with current debates in literary studies Until recently teaching has played second fiddle to literary research as a mode of knowledge in academia leaving new teachers with nowhere to turn for advice about teaching and no forum for discussion of the difficulties and opportunities they face in the classroom      *The Postmodern Bible* George Aichele, Fred W. Burnett, Robert M. Fowler, David Jobling, Tina Pippin, Wilhelm Wuellner, Bible and Culture Collective, 1995-01-01 The burgeoning use of modern literary theory and cultural criticism in recent biblical studies has led to stimulating but often bewildering new readings of the Bible This book argued from a perspective shaped by postmodernism is at once an accessible guide to and an engagement with various methods theories and critical practices transforming biblical scholarship today Written by a collective of cutting edge scholars with each page the work of multiple hands The Postmodern Bible deliberately breaks with the individualist model of authorship that has traditionally dominated scholarship in the humanities and is itself an illustration of the postmodern transformation of biblical studies for which it argues The book introduces illustrates and critiques seven prominent strategies of reading Several of these interpretive strategies rhetorical criticism structuralism and narratology reader response criticism and feminist criticism have been instrumental in the transformation of biblical studies up to now Many feminist and womanist criticism ideological criticism poststructuralism and psychoanalytic criticism hold promise for the continued transformation of these studies in the future Focusing on readings from both the Hebrew Bible and the New Testament this volume illuminates the current multidisciplinary debates emerging from postmodernism by exposing the still highly contested epistemological political and ethical positions in the field of biblical studies      **African American Writing** Werner Sollors, 2016-04-29 Werner Sollors African American Writing takes a fresh look at what used to be called Negro literature The essays collected here ranging in topic from Gustavus Vassa Olaudah Equiano to LeRoi Jones Amiri Baraka and in time from the Enlightenment to the Obama presidency take a literary approach to black writing and present writers as readers and as intellectuals who were or are open to the world From W E B Du Bois commenting on Richard Wagner and Elvis Presley to Zora Neale Hurston attacking Brown v Board of Ed in a segregationist newspaper to Charles Chesnut's effigy darkened for the black heritage postage stamp Sollors alternates between close readings and broader cultural contextualizations to delineate the various aesthetic modes and intellectual exchanges that shaped a series of striking literary works Readers will make often surprising discoveries in the authors writing and in their encounters and dialogues with others The essays accompanied by Winold Reiss's pastels Carl Van Vechten's photographs and other portraits attempt to honor this important literature's achievement heterogeneity and creativity      **Graham Greene's Thrillers and the 1930s** Brian Diemert, 1996

In *Graham Greene's Thrillers and the 1930s* Brian Diemert examines the first and most prolific phase of Graham Greene's career demonstrating the close relationship between Greene's fiction and the political economic social and literary contexts of the period. Situating Greene alongside other young writers who responded to the worsening political climate of the 1930s by promoting social and political reform Diemert argues that Greene believed literature could not be divorced from its social and political milieu and saw popular forms of writing as the best way to inform a wide audience. Diemert traces Greene's adaptation of nineteenth century romance thrillers and classical detective stories into modern political thrillers as a means of presenting serious concerns in an engaging fashion. He argues that Greene's popular thrillers were in part a reaction to the high modernism of writers such as James Joyce Gertrude Stein and Virginia Woolf whose esoteric experiments with language were disengaged from immediate social concerns and inaccessible to a large segment of the reading public.

**The Latest Early American Literature** R. C. De Prosopo, 2016-01-21 *The Latest Early American Literature* according to readers for the University of Delaware Press is a collection of polemics and manifestoes. In it R. C. De Prosopo bids to follow in the footsteps of the two rare early Americanist dissenters whom Philip F. Gura once distinguished as prophets without honor in the field: William Spengemann and Michael Colacurcio. The book contends that a supposedly retired nationalist modernist telos continues to reign in most of the latest scholarship and even more influentially in all of the current literary histories and anthologies no matter how expansive in gender ethnic racial and hemispheric inclusiveness they profess to be. Old telos in particular that old American exceptionalist one can be cunning. Updating and expanding upon essays written over the past thirty years De Prosopo proposes not only negatively to critique how the latest scholarly receptions of early American literature differ insignificantly from the earlier ones but positively to propose how a transnationalist concession that as a neocolonial culture America's lags behind that of Europe might advance post modern historiography by radically repositioning the past as no longer the present's diachronic predecessor but to quote Lyotard's semiotics its synchronic differend. Closer to earth De Prosopo tries at the same time to remain mindful of the pedagogical imperative that ultimately to save the texts of early American literature will require making them legible to average non specialist never to become specialist undergraduate general education students. To facilitate this he introduces in the concluding section of *The Latest Early American Literature* what will probably be taken as its most radical intervention: the redefinition of Edgar Allan Poe as an early American writer.

**Latin American Postmodernisms**, 2023-11-27 The first essays in this volume locate Latin America within the postmodernism debate by addressing both its position in the theory of the postmodern and the peripheral existence of the continent in light of the globalizing practices of the contemporary world. The next essays focus on the Caribbean and elements of the formation of identity and culture in a group of societies belonging to the same geographic region but confronted with the idiosyncrasies of their colonial histories: the problematics of race and language and their relation to the politics and cultures of metropolitan powers. There are three essays concerned with re-readings of the first

encounters between Europe and America and discussions of more recent fictional representations of the past which attempt to recover the lost Amerindian Other of the Conquest and Colonization and to reveal the constructedness of History Finally preceded by two texts on ways of reading and writing in Latin America the final four essays are concerned with challenges to the discourses of power by Latin American women who re define the subject and counter the established hegemonies of religion culture and social structure both in their writing and political actions As a collection of essays this volume will appeal to readers who are interested in Post modernism as a global phenomenon and in understanding the different forms it takes and the issues it addresses in different cultural environments

**The Consent of the Governed** Gillian Brown, 2001 What made the United States what it is began long before a shot was fired at a redcoat in Lexington Massachusetts in 1775 The theories of reading developed by John Locke were the means by which a revolutionary attitude toward authority was disseminated throughout the British colonies in North America

The Regenerate Lyric Elisa New, 1993-05-28 Elisa New examines the poems in great detail offering searching readings and concluding finally that it is regeneracy rather than originality that is the American poet s modus operandi and native mandate

**Partisans and Poets** Mark W. van Wienen, 1997-02-13 A study of American poetry and the political culture of World War I

Presidential Unrealities Sebastian M. Herrmann, 2014-06-12 This book analyzes and historicizes an important and popular motif in contemporary US political discourse the notion that politics has become increasingly unreal At the turn of the millennium the simulated quality of politics in general and of the US presidency in particular has become a major object of concern across a broad range of venues and media publications in media studies and political science newspaper editorials novels films and TV shows alike worry over how much or how little we can actually know about the reality of the US president when all our knowledge is based on carefully staged media representations Rather than adding another voice to this concern *Presidential Unrealities* investigates the cultural work such discussions do Charting their histories and their cultural resonances the book argues that debating presidential unreality provides a crucial vocabulary by way of which the US public negotiates the postmodernization of American culture and society
