## Reconstructing Yeats:

*Reconstructing Yeats* Steven Putzel, 1986-01-01 This book focuses on the two works in the subtitle as well as on unpublished manuscripts and notebooks in the Yeats collection of the National Library of Ireland The author argues that by the end of the 1890s Yeats had developed a coherent symbolic system based on his work with Irish folklore and mythology and that this system is most clearly delineated in the first editions of the work and in Yeats's unpublished papers The book begins with a study of Yeats's Irish and Celtic sources then moves on to outline the symbolic theory drawing heavily on Yeats's notebooks The theory is then applied in a critical study of the poems prose and plays of the last half of the 1890s **Yeats**

**The Poet** Edward Larrissy, 2014-07-15 This work addresses Yeats's antinomies seeing their origin and structure in his divided Anglo Irish inheritance and examining the notion of measure It then explores how this relates to freemasonry Celticism and Orientalism and looks at the Blakean esoteric language of contrariety and outline which provided Yeats with the vocabulary of self understanding **Reconstructing Ireland's Past** Michael J. Kennedy, Deirdre McMahon, 2009

*The Fateful Discourse of Worldly Things* David Halliburton, 1997-07-01 This broad interdisciplinary and comparative study of the ways in which we discursively make the world and its things aims to go beyond the poetic thinking of Heidegger toward a more pragmatic way of interpreting concrete social cultural and political experience The book outlines three constitutive functions of world making Endowing signifies the direct provision of the wherewithal that must come into being if anything else is to come into being Enabling develops or facilitates what is endowed it is a kind of education in being in the world Entitling embraces the realm of justice and decision it concerns what is right for human beings to have and do and be Placing these functions in contemporary contexts the book offers as an alternative some perspectives of American pragmatism Dewey Peirce James Mead Buchler and Continental philosophy Arendt Merleau Ponty Heidegger Husserl Barthes Gramsci The book closely examines the thinking of Hobbes Descartes Vico Calder n and Jefferson and several literary figures and thinkers Yeats Emerson Hopkins Baudelaire Pascal Rilke Frost Brecht Throughout the book investigates and questions the tradition of possessive individualism interpreted by modern scholars notably Pocock The book is in five parts Part I argues a need to move beyond deconstructing toward reconstructing Part II considers the interactions of endowing enabling and entitling In Part III the author explores the ways in which discourse works in the Cartesian discourse of reason and the phenomenon of Manifest Destiny as rendered by Frost The focus of Part IV is incorporating which builds on Merleau Ponty's concept of flesh or the process by which the body acts and becomes fully worldly Part V addresses the phenomena of experience in a variety of modes including the role of story and natality experimental theater the epistolary novel and representations of the heroic Lucretia A postscript exploring the conclusion with which scholarly books typically end offers a perspectivist reading of the final text Emerson's Experience **Reconstructing Contexts** Robert D. Hume, 1999 This book attempts to justify and theorize old historicism defining archaeo historicism as a method by which

scholars can reconstruct past context in order to apply it to the interpretation of works and events of that time. If such reconstruction is to be more than wildly impressionistic, it must be grounded in hard evidence handled according to clear rules. In this intriguing and rigorous analysis, Robert Hume identifies legitimate objects for reconstruction and proposes procedures and principles by which such interpretation may be pursued. He then examines the failures of the same method which works only when adequate evidence can be found. In particular, Hume flatly denies the intellectual legitimacy of literary history as it is commonly practised and attempts to disentangle such history from the practice of historicism. The final chapter is devoted to a cogent discussion of how archaeological historicism relates to various forms of contemporary theory. Hume offers a profusion of examples of good and bad historicist reconstruction and interpretation, drawing largely on English literature but also on American and other world literatures, theatre history and music theory. Although addressed primarily to literary critics, this wide-ranging and bold work will be of interest to historians and cultural critics as well. *Yeats's Worlds* David

Pierce, 1995-01-01 **Building W. B. Yeats's Later Poetry** Tomoko Iwatsubo, 2024-09-09 This book explores Yeats's later poetry through the metaphor of the poetic tower where different kinds of building, architectural, textual, political and symbolic, were closely interrelated. It chronologically examines Yeats's tower poems composed during a period of dramatic personal and national transformation from 1915 to 1932. Within a year after the Easter Rising in Dublin, Yeats acquired a half-ruined Norman tower in County Galway, Ireland, which had enthralled him for the past two decades and textually and architecturally constructed it into a focus of his life and work. Interweaving the account of the renovation of the actual building and the textual construction in the socio-historical contexts, the book reveals the evolution of Yeats's multiplex tower as an organizing principle of his later poetry. Using the archive of correspondence and manuscript materials of relevant poems, including those which have thus far escaped close attention, the book offers close textual genetic analyses and a diachronic view of Yeats's tower poetry, which, with its foundations laid decades earlier, he built in the collections from *The Wild Swans at Coole* (1919) to *The Winding Stair and Other Poems* (1933). Highlighting the delicate exchange between poetry and biography, as well as between the textual architecture and the actual one, identifying a turning point in the making of each tower-oriented poem and proposing some draft dating revisions, this first book-length systematic study on the process of Yeats's creation of the tower casts an unfamiliar light on a familiar yet underexplored landmark in modern poetry and makes his step-by-step construction work come alive. *Reconstructing the History of Basin and Range Extension Using Sedimentology and Stratigraphy* Kathi K. Beratan, 1996-01-01

**The Plays of Samuel Beckett** Katherine Weiss, 2013-01-31 The *Plays* of Samuel Beckett provides a stimulating analysis of Beckett's entire dramatic oeuvre encompassing his stage, radio and television plays. Ideal for students, this major study combines analysis of each play by Katherine Weiss with interviews and essays from practitioners and scholars. **J. M. Synge and Travel Writing of the Irish Revival** Giulia Bruna, 2017-10-31 Between the late 1890s and the early 1900s, the young Irish writer John Millington Synge journeyed across his home country.

documenting his travels intermittently for ten years His body of travel writing includes the travel book *The Aran Islands* his literary journalism about West Kerry and Wicklow published in various periodicals and his articles for the *Manchester Guardian* about rural poverty in Connemara and Mayo Although Synge's nonfiction is often considered of minor weight compared with his drama Bruna argues persuasively that his travel narratives are instances of a pioneering ethnographic and journalistic imagination J M Synge and Travel Writing of the Irish Revival is the first comprehensive study of Synge's travel writing about Ireland compiled during the zeitgeist of the preindependence Revival movement Bruna argues that Synge's nonfiction subverts inherited modes of travel writing that put an emphasis on Empire and Nation Synge's writing challenges these grand narratives by expressing a more complex idea of Irishness grounded in his empathetic observation of the local rural communities he traveled amongst Drawing from critically neglected revivalist travel literature newspapers and periodicals and visual and archival documents Bruna sketches a new portrait of a seminal Irish Literary Renaissance figure and sheds new light on the itineraries of activism and literary engagement of the broader Revival movement

**Female Sexuality in Modernist Fiction** Elaine Wood, 2020-10-04 *Female Sexuality in Modernist Fiction* Literary Techniques for Making Women Artists provides a chronological investigation of the innovative writing styles of canonical modernist writers to reveal a shift in gendered representations of sexual subjectivity Positioned at the nexus of studies on the body and sexuality in modernist literature this book addresses the complex ways that constructions of female sexuality are understood culturally politically and epistemologically Using close reading strategies to identify how modernist authors challenge representations of female positionality as passive case studies consider how canonical modernist authors Virginia Woolf W B Yeats James Joyce and Samuel Beckett found new ways to represent women as embodied sexual desired and desiring subjects through prose poetry and drama This book addresses Woolf's *Orlando* A Biography 1928 Yeats *The Winding Stair* and *Other Poems* 1933 Joyce's *Finnegans Wake* 1939 Beckett's *Not I* 1972 and other dramatic works By rendering sexuality more obviously as a component of female character these works of modernist literature shape our understanding of the artistic body as a structure for thinking about woman as a linguistic construct and material reality This study is will be of great interest to scholars in English literature women and gender studies and sexuality studies

*Ireland's Immortals* Mark Williams, 2018-12-04 A sweeping history of Ireland's native gods from Iron Age cult and medieval saga to the Celtic Revival and contemporary fiction *Ireland's Immortals* tells the story of one of the world's great mythologies The first account of the gods of Irish myth to take in the whole sweep of Irish literature in both the nation's languages the book describes how Ireland's pagan divinities were transformed into literary characters in the medieval Christian era and how they were recast again during the Celtic Revival of the late nineteenth and early twentieth centuries A lively narrative of supernatural beings and their fascinating and sometimes bizarre stories Mark Williams's comprehensive history traces how these gods known as the Tatha D Danann have shifted shape across the centuries We meet the Morrigan crow goddess of battle the fire goddess

Brigit who moonlights as a Christian saint the fairies who inspired J R R Tolkien s elves and many others Ireland s Immortals illuminates why these mythical beings have loomed so large in the world s imagination for so long      **W.B. Yeats's Robartes-Aherne Writings** Wayne K. Chapman,2018-05-31 The figures of Michael Robartes and Owen Aherne appear throughout the writing of the great Irish poet W B Yeats featuring in his poems short fictions dialogues and as authorities in notes to his work Bringing together into one volume published and unpublished writings featuring these two enigmatic figures W B Yeats s Robartes Aherne Writings traces their history and the development of Yeats s mystical thought that culminated twice in the publication of his visionary work *A Vision* 1925 1937 Including reproductions of manuscript and notebook pages as well as transcriptions and extracts from a wide range of Yeats s mystical writings and substantial commentary and annotation throughout this book is an essential resource for scholars of Yeats s thought his stylistic evolution and the esoteric influences on modernist writing in the early 20th century      *The Irish Revival* Joseph Valente,Marjorie Howes,2023-06-15 The Irish Revival has inspired a richly diverse and illuminating body of scholarship that has enlarged our understanding of the movement and its influence The general tenor of recent scholarly work has involved an emphasis on inclusion and addition exploring previously neglected texts authors regional variations and international connections Such work while often excellent tends to see various revivalist figures and projects as part of a unified endeavor such as political resistance or self help In contrast *The Irish Revival A Complex Vision* seeks to reimagine the field by interpreting the Revival through the concept of complexity a theory recently developed in the information and biological sciences Taken as a whole these essays show that the Revival s various components operated as parts of a network but without any overarching aim or authority In retrospect the Revival s elements can be seen as having come together under the heading of a single objective for example decolonization broadly construed But this volume highlights how revivalist thinkers differed significantly on what such an aspiration might mean or lead to ethnic authenticity political autonomy or greater collective prosperity and well being Contributors examine how relationships among the Revival s individual parts involved conflict and cooperation difference and similarity continuity and disruption It is this combination of convergence without unifying purpose and divergence within a broad but flexible coherence that Valente and Howes capture by reinterpreting the Revival through complexity theory      Representing Modernist Texts George Bornstein,1991 Literary scholars explore the significant yet largely ignored field of textual and editorial scholarship in the work of modern authors      The Challenge of Keats ,2016-09-27 Two centuries after his birth in October 1795 John Keats occupies a secure place in the canon of great literature of the western world But for much of the nineteenth century and even during periods of the twentieth century his right to such a position was not so firmly established On the bicentenary of Keats s birth various Italian scholars along with specialists from English speaking countries decided to take advantage of the occasion not only to render homage to a poet whose greatness now seems unchallenged but also to accept his continuing challenge to his readers The contributors to this

volume re examine some of the harshest criticisms of Keats from Byron onwards and some of the unconditional exaltations of the poet in order to discover possible sites between the two for new critical impulses and fertile re evaluations of his achievement Under five headings Romantic Truth Textual Readings History and Myth Keats and Other Poets and Painting and Music the essays in this book appraise the historical cultural contexts that nurtured Keats s creativity discuss the influences and interrelationships among Keats and other poets and consider Keats s artistry as revealed in the analyses of particular texts
