**Divination and the Shamanic Story** Michael Berman,2009-03-26 Stories have traditionally been classified as epics myths sagas legends folk tales fairy tales parables or fables However the definitions of the terms have a tendency to overlap making it difficult to classify and categorize material For this reason a case can be made for the introduction of a new genre termed the shamanic story a story that has either been based on or inspired by a shamanic journey a numinous experience in non ordinary reality or one that contains a number of the elements typical of such a journey Other characteristics include the way in which the stories all tend to contain embedded texts often the account of the shamanic journey itself how the number of actors is clearly limited as one would expect in subjective accounts of what can be regarded as inner journeys and how the stories tend to be used for healing purposes Within this new genre it is proposed that there exists a sub genre shamanic stories that deal specifically with divination and examples are presented and analysed to support this hypothesis By means of textual analysis it can be shown they all share certain attributes in common the identification of which forms the conclusion of the work      *Samādhi* Stuart Ray Sarbacker,2012-02-01 A historical and comparative study grounded in close readings of important works this book explores the dynamics of the theory and practice of yoga in Hindu and Buddhist contexts Author Stuart Ray Sarbacker explores the fascinating contrasting perceptions that meditation leads to the attainment of divine or numinous power and to complete escape from worldly existence or cessation Sarbacker demonstrates that these two dimensions of spiritual experience have affected the doctrine and cultural significance of yoga from its origins to its contemporary practice He also integrates sociological and psychological perspectives on religious experience into a larger phenomenological model to address the multifaceted nature of religious experience Speaking to a broad range of methodological and contextual issues Samadhi provides numerous insights into the theory and practice of yoga that are

relevant to both scholars of religious studies and practitioners of contemporary yoga and meditation traditions

**Soul Loss and the Shamanic Story** Michael Berman, 2009-03-26 Stories from various cultures and periods of time can be identified which deal with a concept of soul loss that is essentially shamanic In shamanism soul loss is the term used to describe the way parts of the psyche become detached when we are faced with traumatic situations In shamanic terms these split off parts can be found in non ordinary reality and are only accessible to those familiar with its topography Case studies are presented to show how the way soul loss is dealt with by indigenous shamans differs from the way it is treated by neo shamanic practitioners Stories have traditionally been classified as epics myths sagas legends folk tales fairy tales parables and fables However the definitions of the terms have a tendency to overlap making it difficult to classify and categorize material For this reason a case can be made for the introduction of a new genre termed the shamanic story a story that has either been based on or inspired by a shamanic journey a numinous experience in non ordinary reality or one that contains a number of the elements typical of such a journey Within this new genre it is proposed that there exists a sub genre shamanic stories that deal specifically with soul loss and examples are presented and analysed to support this hypothesis
