Reconstructing The American Welfare State Pragmatic Responses To The Welfare Crisis:

Reconstructing the American Welfare State David Stoesz, Howard Karger, 1992 the book makes clear that there is a consensus on the need for and desire for change PUBLIC ADMINISTRATION REVIEW **What's Left of the Left** James E. Cronin, George W. Ross, James Shoch, 2011-08-24 Considers how centre left political parties have fared since the 1970s and the daunting but by no means insurmountable challenges faced by them **Whitaker's Books in Print**, 1998 The Revolution of '28 Robert Chiles, 2018-03-15 The Revolution of 28 explores the career of New York governor and 1928 Democratic presidential nominee Alfred E. Smith Robert Chiles peers into Smith's work and uncovers a distinctive strain of American progressivism that resonated among urban ethnic working class Americans in the early twentieth century The book charts the rise of that idiomatic progressivism during Smith's early years as a state legislator through his time as governor of the Empire State in the 1920s before proceeding to a revisionist narrative of the 1928 presidential campaign exploring the ways in which Smith's gubernatorial progressivism was presented to a national audience As Chiles points out new stock voters responded enthusiastically to Smith's candidacy on both economic and cultural levels Chiles offers a historical argument that describes the impact of this coalition on the new liberal formation that was to come with Franklin Delano Roosevelt's New Deal demonstrating the broad practical consequences of Smith's political career In particular Chiles notes how Smith's progressive agenda became Democratic partisan dogma and a rallying point for policy formation and electoral success at the state and national levels Chiles sets the record straight in The Revolution of 28 by paying close attention to how Smith identified and activated his emergent coalition and put it to use in his campaign of 1928 before quickly losing control over it after his failed presidential bid Beyond Neoliberalism James Petras, Henry Veltmeyer, 2016-04-15 The world is at the crossroads of social change in the vortex of forces that are bringing about a different world a post neoliberal state This groundbreaking book lays out an analysis of the dynamics and contradictions of capitalism in the twenty first century These dynamics of forces are traced out in developments across the world in the Arab Spring of North Africa and the Middle East in Cuba and elsewhere in Latin America in the United States and in Asia The forces released by a system in crisis can be mobilized in different ways and directions The focus of the book is on the strategic responses to the systemic crisis As the authors tell it these dynamics concern three worldviews and strategic responses The Davos Consensus focuses on the virtues of the free market and deregulated capitalism as it represents the interests of the global ruling class The post Washington Consensus concerns the need to give capital a human face and establish a more inclusive form of development and global governance In addition to these two visions of the future and projects the authors identify an emerging radical consensus on the need to move beyond capitalism as well as neoliberalism Corporate Capitalism and the Integral State Stephen Maher, 2022-03-28 This book advances an original conception of the relationship between state and corporate power in the United States Using what he terms an Institutional Marxist framework Maher argues that far from passively

responding to interest group pressures the state has been a key agent in politically mobilizing business and has played an active role in the organization of lobbying groups Such business associations do not merely express the pre existing interests of their corporate members but are also mechanisms through which the state organizes the political power of the capitalist class They form part of what the author refers to as an integral state a wider network of state power which traverses and interpenetrates the state bureaucracy the legislature the industrial policy apparatus and corporate governance Based on extensive archival research this book tracks the role of the General Electric Company as a pillar of the integral state in the United States from the finance capital period 1880 to 1930 through the managerial period 1930 1979 to the restructuring leading up to the age of neoliberalism 1979 present *Subject Guide to Books in Print* ,2001 **Answers to the Labour Question** Gary Mucciaroni,2024-01-31 Since the mid nineteenth century public officials reformers journalists and other elites have referred to the labour question The labour question was rooted in the system of wage labour that spread throughout much of Europe and its colonies and produced contending classes as industrialization unfolded Answers to the Labour Question explores how the liberal state responded to workers demands that employers recognize trade unions as their legitimate representatives in their struggle for compensation and control over the workplace Gary Mucciaroni examines five Anglophone nations Australia Canada Great Britain New Zealand and the United States whose differences are often overlooked in the literature on political economy which lumps them together as liberal market led economies Despite their many shared characteristics and common historical origins these nations responses to the labour question diverged dramatically Mucciaroni identifies the factors that explain why these nations developed such different industrial relations regimes and how the paths each nation took to the adoption of its regime reflected a different logic of institutional change Drawing on newspaper accounts parliamentary debates and personal memoirs among other sources Answers to the Labour Question aims to understand the variety of state responses to industrial unrest and institutional change beyond the domain of industrial relations **Abstracts of Public Administration, Development, and Environment** ,1993 **Choice** ,2002

Globalization in Crisis Barry K. Gills,2013-09-13 This book analyses the present global financial and economic crisis the most severe in nearly a century and a wider set of multiple and converging crises with aspects and repercussions that go well beyond the current economic climate Written by some of the world s leading international scholars in the field of Globalization studies and related disciplines this important collection addresses numerous key aspects of the relationship between Globalization and global crises past present and future It sheds new light and understanding on the concept and theory of Globalization and of crisis The authors explore such issues as global finance and financial regulation neoliberal ideology and policy the crisis of globalization the decline of Western hegemony world systemic crisis the moral crisis of Western capitalism environmental and climate change crises world order hyper violence and the international system a crisis of the global modern and a global civilisational and hostpric crisis the rise of the global South the historical dialectics of

capital and social responses to crisis the future of capitalism and the prospects for transformative alternatives This book was published as a special issue of *Globalizations* **Forthcoming Books** Rose Army,1992-10 Global Social Work in a Political Context Ferguson, Iain,Ioakimidis, Vasilios,Michael Lavalette,2018-01-10 How is social work shaped by global issues and international problems and how should it address them Taking a radical perspective this book reveals what we can learn from different approaches from across the globe The University and the State Marek Kwiek,2006 This book argues that the current renegotiation of the postwar social contract concerning the welfare state in Europe is being accompanied by the renegotiation of a smaller scale modern social pact between the university and the nation state Current transformations to the state under the pressures of globalization will not leave the university unaffected and consequently it is useful to discuss the university and its future in the context of the state In the new global order against the odds universities are striving to maintain their pivotal role in society Their role as engines of economic growth and contributors to economic competitiveness between increasingly knowledge driven economies is being widely acknowledged But it is a radical reformulation of their traditional social roles The main reasons for current transformations of the university include globalization pressures on nation states and their public services the end of the Golden age of the Keynesian welfare state and the emergence of knowledge based societies and knowledge driven economies Therefore the university can no longer be discussed solely in traditional relatively self contained disciplinary contexts Here the university is seen from a variety of perspectives and through the lens of a wide range of disciplines mainly educational sciences political economy sociology political sciences and philosophy Sociological Abstracts Leo P. Chall,2003 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers *The Politics of Economic Restructuring and Old-age Pension Reform in China* Jinxin Huang,2004 **Pragmatic Liberalism** A. Hunter,C. Milofsky,2007-04-02 This book analyzes the problems of U S politics and public policy and proposes a solution rooted in a deep American consensus that often goes unrecognized The authors critique three dominant ideological perspectives conservative radical and liberal and propose a fourth eclectic outcomes perspective rooted in American pragmatism *Foreign Aid and State Building in Interwar Romania* Doina Anca Cretu,2024-12-10 The decades following World War I were a period of political social and economic transformation for Central and Eastern Europe This book considers the role of foreign aid in Romania between 1918 and 1940 offering a new history of the interrelation between state building and nongovernmental humanitarianism and philanthropy in the interwar period Doina Anca Cretu argues that Romania was a laboratory for transnational intervention as various state builders actively pursued accessed and often instrumentalized American assistance in order to accelerate reconstructive and modernizing projects after World War I At its core this is a study of how local views ambitions and practical agendas framed

trajectories of humanitarian and philanthropic endeavors in postimperial Central and Eastern Europe Conversely it is a reflection on the ways that architects and practitioners of foreign aid sought to transfer notions of democracy civilization and modernity within shifting local and national contexts in the aftermath of the war and after the collapse of European empires At the intersection of the history of interwar Europe and international philanthropy and humanitarianism this book s innovative and explicitly transnational approach provides a new framework for understanding the contours of European nationalism in the twentieth century Congressional Record United States. Congress,1981 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **The Puerto Rico Reconstruction Administration** Geoff G. Burrows,2024-04-30 This book explores the history and impact of an important New Deal program that improved living conditions across Puerto Rico in the wake of destructive hurricanes and the Great Depression while at the same time resulting in a strengthened colonial relationship between the island and the United States
