Giovanni Battista Rubini and the Bel Canto Tenors Dan H. Marek, 2013-06-06 Giovanni Battista Rubini 1794-1854 was a legendary tenor and the first 19th century non-castrati male singer to become an international star of opera The previous two centuries had been the era of the castrati with tenors and basses relegated to character and supporting roles in the operas of their time Rubini stood apart because he not only matched the castrati in coloratura and pathos but he also had an extraordinarily high voice With Rubini's rise and in his wake several tenors came to sing roles written specifically for them by Rossini Bellini Donizetti and many other lesser-known bel canto composers Signaling the end of the dominance of castrati on stage this period would last some forty years until the advent of grand opera Wagner and Verdi and the appearance of the first so-called High C from the chest by Gilbert Louis Duprez in 1837 Since then the accepted tenor sound has followed the tradition epitomized by Enrico Caruso and in our own era Luciano Pavarotti and Plácido Domingo Many composers conductors and performers would come to regard bel canto dramatic operas as decorative and vapid until Maria Callas and Tulio Serafin demonstrated the heights this genre of opera could reach However opera directors and opera performers of late who have expressed an interest in reviving selected masterpieces from the bel canto tradition have found themselves confronted with the problem of locating tenors versed in the vocal techniques necessary to carry the high tessituras In *Giovanni Battista Rubini and the Bel Canto Tenors History and Technique* Dan H. Marek explores the extraordinary life of Rubini in order to frame this special period in the history of opera and connect the technique of the castrati who were among Rubini's instructors Drawing on the work of Berton Coffin Marek offers long-sought answers to the challenges presented by high tessitura of bel canto operas for tenors To further assist working singers *Giovanni Battista Rubini and the Bel Canto Tenors* includes over sixty pages of exercises written by Rubini himself before 1840 which Marek for the first time ever has adapted to acoustical phonetics Professional singers teachers and their students vocal coaches and opera conductors will find this work indispensable as the only English language work on high tessitura for tenor and soprano singing

technology and its effect on music including artistic performance listening habits and audience participation *Recording History* Peter Martland, 2013 In *Recording History* Peter Martland uses a range of archival sources to trace the genesis and early development of the British record industry from 1888 to 1931. A work of economic and cultural history that draws on a vast range of quantitative data, it surveys the commercial and business activities of the British record industry like no other work of recording history has before. Martland's study charts the successes and failures of this industry and its impact on domestic entertainment. Showcasing its many colorful pioneers from both sides of the Atlantic, *Recording History* is first and foremost an account of The Gramophone Company Ltd, a precursor to today's recording giant EMI and then the most important British record company active from the late 19th century until the end of the second decade of the twentieth century. Martland's history spans the years from the original inventors through industrial and market formation and final take off, including the riveting battle in recording formats. Special attention is given to the impact of the First World War and the that followed in its wake. Scholars of recording history will find in Martland's study the story of the development of the recording studio of the artists who made the first records from which some like Italian opera tenor Enrico Caruso earned a fortune and the change records wrought in the relationship between performer and audience, transforming the reception and appreciation of musical culture. Filling a much needed gap in scholarship, *Recording History* documents the beginnings of the end of the contemporary international record industry The Opera Journal , 1980
