The Heads of Religious Houses David M. Smith,Vera C. M. London,2001-08-09 This book is a continuation of *The Heads of Religious Houses England and Wales 940-1216* edited by David Knowles C N L Brooke and Vera London which itself is reissued with substantial addenda by Professor Brooke This present volume continues the lists from 1216 to 1377 In this period further record sources have been provided by episcopal registers governmental enrolments court records and so on Full references are given for establishing the dates and outline of the career of each abbot or prior abbess or prioress when known The lists are arranged by order the Benedictine houses independent dependencies and alien priories the Cluniacs the Grandmontines the Cistercians the

Carthusians the Augustinian canons the Premonstratensians the Gilbertine order the Trinitarian houses the Bonhommes and the nuns An introduction discusses the nature use and history of the lists and examines critically the sources on which they are based *Women in England, 1275-1525* P. J. P. Goldberg, 2013-01-01 This collection of sources demonstrates the variety of evidence that survives of English women in all walks of life from the time of Edward I to the eve of the Reformation The sources are introduced by a substantial overview of current thinking about English medieval women below the level of the greater aristocracy In addition Goldberg explores many of the methodological problems and strengths of particular sources Individual chapters explore the life cycle themes of childhood adolescence married life widowhood and old age The study then moves on to examine such topics as work in town and country prostitution the law recreation and devotion In every case the reader is exposed to a range of sources but particular attention is paid to those sources that reflect actual experience or provide insights into the lives of ordinary women rather than the prescriptive or purely literary texts A particular feature of this collection is the extensive use of church court depositions that allow the voices of peasant women servant girls bourgeois wives or poor widows to be heard across the centuries The sources are presented in a form designed to be accessible to undergraduates but of interest to teachers and researchers alike **Uncollected Essays** D. explores three court cases from Yorkshire in the decades after the Black Death Alice de Rouclif was a child heiress made to marry the illegitimate son of the local abbot and then abducted by her feudal superior Agnes Grantham was a successful businesswoman ambushed and assaulted in a forest whilst on her way to dine with the Master of St Leonard s Hospital Alice Brathwell was a respectable widow who attracted the attentions of a supposedly aristocratic conman These are their stories

Class Conflict and the Crisis of Feudalism Rodney Hilton,1985-07-01 The conflict between landlords and peasants over the appropriation of the surplus product of the peasant holding was a prime mover in the evolution of medieval society In this collection of essays Rodney Hilton looks at the economic context within which these conflicts took place He seeks to explain the considerable variations in the size composition and management of landed estates and investigates the nature of medieval urbanisation a consequence of the development of both local commodity production and long distance trade in luxury goods By setting the broader economic context the nature of the peasant and landlord economies and the commercialisation of peasant production Hilton s essays enable a thorough understanding of the relationship between landlords and peasants in medieval society

The Invention of Free Labor Robert J. Steinfeld,2014-02-01 Examining the emergence of the modern conception of free labor labor that could not be legally compelled even though voluntarily agreed upon Steinfeld explains how English law dominated the early American colonies making violation of al labor agreements punishable by imprisonment By the eighteenth century traditional legal restrictions no longer applied to many kinds of colonial workers but it was not until the nineteenth century that indentured servitude came to be regarded as similar to slavery

Edward IV Charles Ross,2023-12-22 In his own time Edward IV was seen as an able and successful king who rescued England from the miseries of civil war and provided the country with firm judicious and popular government The prejudices of later historians diminished this high reputation until recent research confirmed Edward as a ruler of substantial achievement whose methods and policies formed the foundation of early Tudor government This classic study by Charles Ross places the reign firmly in the context of late medieval power politics analyzing the methods by which a usurper sought to retain his throne and reassert the power of a monarchy seriously weakened by the feeble rule of Henry VI Edward s relations with the politically active classes the merchants gentry and nobility form a major theme and against this background Ross provides an evaluation of the many innovations in government on which the king s achievement rests This title was originally published in 1974 In his own time Edward IV was seen as an able and successful king who rescued England from the miseries of civil war and provided the country with firm judicious and popular government The prejudices of later historians diminished this high reputation
