MARKETING

Back to school: Keeping your skills sharp

By Donna Talarico

You're reading this newsletter, which means you're invested in continuing to learn about your industry. What else do you do to keep your skills sharp and your ideas fresh?

In the world of marketing, many fundamentals remain the same — tailoring a message to the right audience; selling on emotion; testing, testing, testing. But many things have also changed — and continue to change — from new mediums and tools to consumer habits.

When I was a freshman communications major in the mid-90s, I had to choose a concentration: radio and TV, journalism, public relations, or rhetoric. In theory, you could say these and similar career paths, like advertising and marketing, remain different academic disciplines. However, in practice, today, they very much overlap. This means many of us, even those who entered their profession less than a decade ago, have had to do some extra learning on our own.

TOOLS OF THE TRADE

Create a guaranteed course schedule to help students graduate more quickly

By Joan Hope, Ph.D., Editor

NEW ORLEANS — When college officials plan efforts to encourage timely graduation, identifying barriers to completion is an important first step. At Cuyahoga Community College, when officials asked faculty members and students “What is the one thing that is challenging you right now?” they got a consistent response: the schedule.

Tri-C Eastern President J. Michael Thomson explained the guaranteed yearlong schedule officials put into place at a session at the American Association of Community Colleges annual convention.

The schedule is built three semesters out, and, currently, 60 percent of courses are guaranteed. Thomson thinks 80 percent could be guaranteed going forward. The guarantee includes the time, campus, and modality of the

Recruiting And Retaining Adult Students:

Recruiting and Retaining Adult Students Peter S. Cookson, 1989 *How to Recruit and Retain Higher Education Students* Tony Cook, Brian S. Rushton, 2009-09-10 *How to Recruit and Retain Higher Education Students* is an invaluable resource for academic staff administrators and policy makers involved in student recruitment and improving student retention. It offers practical advice on how universities can influence the expectations of prospective students allowing them to make sensible decisions about careers courses and institutions. Many surveys of students who drop out of university show that most do so out of disappointment. Failing to understand what higher education was about quickly enough they become confused and frustrated. Dropping out seems the best solution. This book describes a series of practices proven to encourage students to stay on, discussing the background research on student attrition. By preparing students better for their higher education experience, the practices in this book are effective not only in recruiting students but also in matching them to the right institutions and programmes. The practices described range from those reaching out in a broad way to communities of potential students to university support for pre-entry examinations to enhanced communication between institutions and applicants. All are described in sufficient detail to allow judgments to be made about how to use and adapt them to suit local needs. *How to Recruit and Retain Higher Education Students* provides a sound theoretical foundation for research into student retention and provides the necessary underpinning for those academic staff embarking on courses and assists in preparing them for their roles in both teaching and student support.

New Scholarship in Critical Quantitative Research, Part 1: Studying Institutions and People in Context Frances K. Stage, Ryan S. Wells, 2014-06-24 This volume presents work focused on underrepresented persons in a variety of levels of higher education. Each scholar has used critical quantitative approaches to examine access and/or success in the higher education arena. Their scholarship pushes the boundaries of what we know by questioning mainstream notions of higher education through the examination of policies, the re-framing of theories, and measures the re-examination of traditional questions for nontraditional populations. The work is divergent but the commonality of the presentations lies in each scholar's critical approach to conventional quantitative scholarship. Their research highlights inequities and explores factors not typically included in conventional quantitative analysis. This is the 158th volume of this Jossey-Bass quarterly report series. Always timely and comprehensive, *New Directions for Institutional Research* provides planners and administrators in all types of academic institutions with guidelines in such areas as resource coordination, information analysis, program evaluation, and institutional management.

Research-Driven Practice in Student Affairs: Implications from the Wabash National Study of Liberal Arts Education Georgianna L. Martin, Michael S. Hevel, 2014-09-25 As student affairs units face increasing pressure to use data and evidence to inform planning and decisions, the research related to higher education has become more complex and in some cases less accessible. Community-University Engagement: A Process for Building Democratic Communities Tami L. Moore, 2014-04-29 As the emphasis on economic development through community university engagement intensifies educators and policy makers must learn to think differently about the engagement process This is particularly true when a narrowly defined group of leaders sets the engagement agenda and those who are traditionally underrepresented continue to be marginalized in the conversations about their own futures Emphasizing the importance of community as a context for engagement and building strong relationships over time Moore calls on institutional leaders to intentionally facilitate broad participation by all members of a community in discussions about how and in what direction the community will develop This is the second issue of the 40th volume of the Josse Bass series ASHE Higher Education Report Each monograph is the definitive analysis of a tough higher education issue based on thorough research of pertinent literature and institutional experiences Topics are identified by a national survey Noted practitioners and scholars are then commissioned to write the reports with experts providing criical reviews of each manuscript before publication

Part-Time on the Tenure Track

Joan M. Herbers, 2014-10-28 The case for a flexible work schedule for faculty has been repeatedly made with one policy recommendation being part time positions for tenure track tenured faculty PTTT Despite some of the benefits of this approach for both faculty and institutions the PTTT concept is the least implemented policy for faculty flexibility and is poorly understood This report offers the first comprehensive treatment of PTTT suggesting that this mode of flexibility enhances recruitment retention and engagement of faculty while offering value added productivity planning potential and faculty loyalty for the institution Herbers provides data that explore how a PTTT policy can lead to faculty success and satisfaction across the lifespan of a career and likewise offers analogies and examples of well established practices that administrators across institution types can adapt to create their own policies Administrators and faculty will find the author s policy recommendations best practices and solutions to common challenges to be a roadmap for stimulating change in their
