Mohammed, Frank Jacob, 2021-11-22 Marriage was historically not only a romantic ideal but a tool of exploitation of women in many regards Women were often considered commodities and marriage was far away from the romantic stereotypes people relate to it today While marriages served as diplomatic tools or means of political legitimization in the past the discourses about marital relationships changed and women expressed their demands more openly Discourses about marriage in history and literature naturally became more and more heated especially during the long 19th century when marriages were contested by social reformers or political radicals male and female alike The present volume provides a discussion of the role of marriage and the discourses about in different chronological and geographical contexts and shows which arguments played an important role for the demand for more equality in martial relationships It focuses on marriage discourses may they have been legal or rather socio political ones In addition the disputes about marriage in literary works of the 19th and 20th centuries are presented to complement the historical debates American Countercultures: An Encyclopedia of Nonconformists, Alternative Lifestyles, and Radical Ideas in U.S. History Gina Misiroglu, 2015-03-26 Counterculture while commonly used to describe youth oriented movements during the 1960s refers to any attempt to challenge or change conventional values and practices or the dominant lifestyles of the day This fascinating three volume set explores these movements in America from colonial times to the present in colorful detail American Countercultures is the first reference work to examine the impact of countercultural movements on American social history It highlights the writings recordings and visual works produced by these movements to educate inspire and incite action in all eras of the nation's history A Z entries provide a wealth of information on personalities places events concepts beliefs groups and practices The set includes numerous illustrations a topic finder primary source documents a bibliography and a filmography and an index **Political Economy from Below** Rob Knowles, 2017-07-05 Communitarian anarchism is a generic form of socialism that denies the need for a state or any other authority over the individual from above and which requires absolute belief that the individual cannot exist outside of a community of others This book suggests that the communitarian anarchists of the nineteenth century developed and

articulated a distinct tradition of economic thought The period of this study begins with the first major writing of the French communitarian anarchist Pierre Joseph Proudhon in 1840 and ends with the temporary burial of anarchist theorizing at the beginning of the First World War in 1914 However he tradition of communitarian anarchist economic thought did not end in 1914 The economic thought explored in this book provides a fresh perception of the fragmentation evident in many societies today especially where there is a substantial informal economy Feminist Theory Josephine Donovan, 2000-07-01 This first major study of feminist theory which is revised and completely reset now takes the reader into the twentieth century It chronicles a renaissance of feminist theory through the so called third wave of the present day which follows significant waves of earlier periods the fifteenth through early eighteenth centuries as well as the more widely recognized nineteenth century and the 1960s through the 80s Women in Movement (Routledge Revivals) Sheila Rowbotham, 2013-10-14 First published in 1992 this book is an historical introduction to a wide range of women s movements from the late eighteenth century to the date of its publication It describes economic social and political ideas which have inspired women to organize not only in Europe and North America but also in the Third World Sheila Rowbotham outlines a long history of women s challenges to the gender bias in political and economical concepts She shows women laying claim to rights and citizenship while contesting male definitions of their scope and seeking to enlarge the meaning of economy through action around consumption and production environmental protests and welfare projects **Encyclopedia of Women Social Reformers** Helen Rappaport, 2001-12-06 The first comprehensive guide to women activists from every part of the world illuminating the broad range of women's struggles to reform society from the 18th century to the present Despite being marginalized disenfranchised impoverished and oppressed women have always stepped forward in disproportionate numbers to lead movements for social change This two volume encyclopedia documents the visions struggles and lives of women who have changed the world This encyclopedia celebrates the lives and achievements of nearly 300 women from around the globe women who have bravely insisted that the way things are is not the way they have to be Nadeshda Krupskaya the wife of Lenin spearheaded the drive against illiteracy in post revolutionary Russia American Dorothy Day founded the Catholic worker movement Begum Rokeya Hossain organized a girls school in Calcutta in 1911 Rachel Carson launched the modern environmental movement with her book Silent Spring The stories of these women and the hundreds of others collected here will restore missing pages to our history and inspire a new generation of women to change the world **Women of Ideas** Dale Spender, 2024-11-20 Originally published in 1982 with characteristic energy humour and learning Dale Spender traces three hundred years of women s ideas She uncovers not only the ways and words of women but the methods of men While men control knowledge she argues they are in a position to take women s ideas If they like them they use them if they don t they lose them Every fifty years women are required to reinvent the wheel for every generation of women is initiated into a world in which women s traditions have been denied and buried Providing convincing evidence that women s absence from

the record as creative intellectual beings is not women s fault but men s Dale Spender claims at least 150 women from the past and suggests how such erasure can be avoided in the future Given that men take what they want from women s ideas Dale Spender advocates that women withdraw their labour that they go on a knowledge strike for if women cannot control the knowledge they produce at least they can ensure that it cannot be used as evidence against them Exposing the inadequacies of much modern male scholarship the author provides the readers with the opportunity to share in her own discoveries excitement and mistakes in the process of researching and writing this book The result is that Women of Ideas And What Men Have Done to Them is an ambitious and provocative book which will be used as a reference for many years to come and which is also from beginning to end a stimulating read **Anarchy and Society** Jeffrey Shantz, Dana M. Williams, 2013-11-14 Anarchy and Society explores the many ways in which the discipline of Sociology and the philosophy of anarchism are compatible The book constructs possible parameters for a future anarchist sociology by a sociological exposition of major anarchist thinkers including Kropotkin Proudhon Landauer Goldman and Ward as well as an anarchist interrogation of key sociological concepts including social norms inequality and social movements Sociology and anarchism share many common interests although often interpreting each in divergent ways including community solidarity feminism crime and restorative justice and social domination The synthesis proposed by Anarchy and Society is reflexive critical and strongly anchored in both traditions American Jewry Eli Lederhendler, 2017 In the United States Jews have bridged minority and majority cultures their history illustrates the diversity of the American experience Companion to American Modernism Walter Kalaidjian, 2005-04-28 The Cambridge Companion to American Modernism provides a comprehensive and authoritative overview of American literary modernism from 1890 to 1939 These original essays by twelve distinguished scholars of international reputation offer critical overviews of the major genres literary culture and social contexts that define the current state of Modern American literature and cultural studies Among the diverse topics covered are nationalism race gender and the impact of music and visual arts on literary modernism as well as overviews of the achievements of American modernism in fiction poetry and drama The book concludes with a chapter on modern American criticism An essential reference guide to the field the Companion offers readers a chronology of key events and publication dates covering the first half of the twentieth century in the United States and a bibliography of further Dissent Ralph Young, 2015-04-24 Historian Ralph Young's Dissent The History of an reading organized by chapter topics American Idea covers both the liberal and conservative movements that changed American history A Ralph Waldo Emerson Award Finalist One of Bustle's Books For Your Civil Disobedience Reading List Ralph Young's stunningly comprehensive volume examines the key role dissent has played in shaping the United States focusing on those who from colonial days to the present dissented against the ruling paradigm of their time from the Puritan Anne Hutchinson and Native American chief Powhatan in the seventeenth century to the Occupy and Tea Party movements in the twenty first At its founding the United
