Red Star Fighters Ground Attack:

Red Star Airacobra Evgeniy Mariinskiy, 2006 Evgeniy Mariinskiy a Soviet fighter ace and Hero of the Soviet Union shot down 20 enemy planes in aerial combat over the Eastern Front between 1943 and 1945 He frequently engaged enemy fighters and bombers shot down many but was himself shot down several times This is his extraordinary story His vivid inside view of the ruthless war in the air on the Eastern Front gives a rare insight into the reality of fighting and tactics of the Red Army Air Force In his own words and with a remarkable clarity of recall Evgeniy Mariinskiy describes what combat was like in the air face to face with a skilled deadly and increasingly desperate enemy The reader can follow his career from an unskilled novice who has just arrived at his regiment through to him becoming an ace and Hero of the Soviet Union under the leadership of experienced commanders The terrifying moments of action engagements with enemy fighters forced landings nervous strain before attacks loss of comrades and everyday life of pilots all these aspects of a Soviet fighter pilot s experience during the Great Patriotic War are brought dramatically to life in his memoirs In his memoirs Mariinskiy describes tactics which enabled him to have an upper hand in dogfights against experienced German pilots The grand strategy of the campaigns across the Eastern Front is less important here than the sequence of engagements that were the firsthand experience of the author It is this close up view of combat that makes Evgeniy Mariinskiy s reminiscences of such value Key sales points A gripping and superbly readable memoir of the war in the air over the Eastern Front 1943 45 penned by a Hero of the Soviet Union and air ace credited with 20 victories Covers the author s full aviation career including training and his initial experiences over the front as well as his increasingly successful combat with a skilled enemy Evgeniy Mariinskiy served with the 129th Guards Fighter Regiment 1943 45 undertaking 210 sorties participating in 60 air to air engagements and shooting down 20 enemy aircraft In 1945 he was awarded the Gold Star of Hero of the Soviet Union

The Defense of Moscow 1941 Jack Radey, Charles Sharp, 2013-01-19 The little known story of the Battle of Kalinin on the eastern front and how it shaped the course of WWII based on archival records from both sides There was only one point in the Second World War when Nazi Germany had a chance of winning That point was October 1941 when most of the Red Army's forces before Moscow had been smashed or encircled and no reserves were available to defend the capital All that stood in Hitler's way were a handful of Soviet rifle divisions tank brigades and hastily assembled militia According to German accounts their spearheads were stopped by the mud but a close examination of German records shows this was not so Instead it is clear that it was the resistance of the Red Army and bad arrogant planning that halted the Wehrmacht This is the dramatic story that Jack Radey and Charles Sharp tell in this compelling study of a previously unknown part of the Battle of Moscow Using archival records from both sides they reveal how the Soviets inflicted a stunning defeat on a German plan to encircle six Soviet armies in the middle of October 1941

The Battle of Kursk Valeriy Zamulin, 2017-07-27 In this book noted historian of the Battle of Kursk Valeriy Zamulin the author of multiple Russian language books on the Battle of Kursk and *Destroying the Myth The Tank Battle at Prokhorovka* Kursk July 1943 An Operational Narrative takes a fresh look at several controversial and neglected topics regarding the battle and its run up He starts with a detailed look at the Soviet and Russian historiography on the battle showing how initially promising research was swamped by Party dogma and censorship during the Brezhnev era before being resumed with the collapse of the Soviet Union Zamulin then transitions to discussions of how the southern shoulder of the Kursk bulge was formed preparations for the battle on both sides and the size and composition of Model's Ninth Army He then examines such controversial topics as whether or not the II SS Panzer Corps was aware of the pending Soviet counterattack at Prokhorovka and the effectiveness of the Soviet preemptive barrage that struck the German troops that were poised to attack Zamulin also discusses whether or not General Vatutin the Commander in Chief of Voronezh Front erred when arranging his defenses Zamulin also takes a look at how the myth of 1 500 tanks colliding on a narrow strip of farm fields became perpetuated in Soviet and foreign history books when in fact it was impossible for the 5th Guards Tank Army's tanks to attack in massive wave after wave due to the constrictions of the terrain Zamulin also reveals incidents of the battle that were long kept behind the curtain by Soviet

censorship For example the 183rd Rifle Division defending the Prokhorovka axis was repeatedly struck by friendly aircraft and a Soviet tank counterattack overran the positions of one of its battalions Zamulin discusses other cases of fratricide in the Voronezh Front including the death of one of the 1st Tank Army's foremost tank commanders in a friendly fire incident In the process he reveals that a wave of suicides swept through the junior command staff of the 5th Guards Tank Army immediately prior to the famous counteroffensive on 12 July 1943 All in all Valeriy Zamulin with this collection of essays and articles two of which have been reprinted from the Journal of Slavic Military History makes a new contribution to our knowledge and understanding of this pivotal epochal battle of the Second World War
