Black Scare / Red Scare Charisse Burden-Stelly, 2023-11-14 She theorizes two bases of the Black Scare Red Scare US Capitalist Racist Society a racially hierarchical political economy built on exploitative labor relationships and Wall Street Imperialism the violent processes by which businesses and the US government structured domestic and foreign policies to consolidate capital and racial domination In opposition Radical Blackness embodied the government's fear of both Black insurrection and Red instigation The state's actions and rhetoric therefore characterized Black anticapitalists as foreign alien and undesirable This reactionary response led to an ideology that Burden Stelly calls True Americanism the belief that the best things about America were absolutely not Red and not Black which were interchangeable threats Black Scare Red Scare illuminates the anticommunist nature of the US and its governance but also shines a light on a misunderstood tradition of struggle for Black liberation
