## Red Army Resurgent:

**Red Army Resurgent** John Shaw, 1979 Tells the suffering of the Russians and how they turned the tide **Red Army Resurgent World War 2**, **World War II**. John Shaw, Gerald Simons, 1979 **World War II** John Shaw, Time-Life Books, 1979 A set of 39 volumes covering the history of World War II from 1939 to 1945 Few Returned Eugenio Corti, 1997-05-28 After World War II more than one hundred books appeared that dealt with the experience of the Italian army in Russia and particularly the terrible winter retreat of 1942 1943 Few Returned I piu non ritornano is the only one of these that is still regularly reissued in Italy Eugenio Corti who was a twenty one year old second lieutenant at the time found himself together with 30 000 Italians and a smaller contingent of Germans encircled on the banks of the River Don by enemy forces who far outnumbered them To break out of this encirclement these men undertook a desperate march across the snow with constant engagements and in temperatures ranging from 20 to 30 degrees Fahrenheit Whereas supplies were air dropped to the Germans the predicament of the Italians was far more difficult lacking gasoline they were compelled to abandon their vehicles and to proceed without heavy arms equipment ammunition or provisions Even the wounded had to be abandoned though it was well known that the soldiers of the Red Army enraged by the brutality of the German invasion killed all the enemy wounded who fell into their hands After twenty eight days of encirclement only 4 000 of the 30 000 Italians made it out of the pocket Why is it that Corti s book which was first published in 1947 continues after fifty years to be reprinted in Italy Because as Mario Apollonio of the University of Milan said when the book first appeared It is a chronicle but it is much more than that behind the physical reality there is the truth about man at his most tragic hour Apollonio adds The power of the writing immediately transforms the document into drama the result is a novel poem drama history The philosopher Benedetto Croce found in Corti s book the not infrequent gleam of human goodness and nobility Few Returned is a classic of war literature that succeeds in bringing home the full hatefulness of war Eugenio Corti began writing his diary at a military hospital immediately after being repatriated from the Russian front When in September 1943 Italy found itself cut in two by the Armistice Corti loyal to his officer s oath joined up with what remained of the Italian army in the south and with those few troops participated in driving the Germans off Italian soil fighting at the side of the British Eighth and the American Fifth Armies *The Organization and Order of Battle of Militaries in World War II* D. Pettibone Charles D. Pettibone, Charles D. Pettibone, 2009-11 THE ORGANIZATION AND ORDER OF BATTLE OF MILITARIES IN WORLD WAR II Charles D. Pettibone, 2014-04 There are numerous Order of Battle books on the market So what makes this one so special Why should one decide on this particular book Most Order of Battle books usually deal only with the division and corps level of a country s army Most higher commands are not covered This book deals with all the branches of a country s military giving a breakdown of all the major echelons of command from theater down to brigade under each component army group armies corps division and brigade and the equivalent command structure for the other military branches are included

Second it attempts to give an overall command structure of the country's military showing the central headquarters command structure as well as the major components army groups armies corps etc Third most Order of Battle books list the commanders and their dates of tenure This book includes those but also lists their next duty assignments or where they went after leaving the post One can literally trace a general officer's career through the upper echelons of command making this completely different from all the other Order of Battle books on the market *The World's Most Powerful Tanks* Michael E. Haskew, 2016-12-15 The World's Most Powerful Tanks is an expert examination of the most successful tanks of the past hundred years Beginning with the prototype Mark V Male in 1917 the book features 52 of the best armored fighting vehicles from World War I World War II through the Cold War to today Each entry is examined over two spreads and includes a brief description of the tank's development and history a color profile artwork photographs key features and specifications tables Packed with more than 200 artworks and photographs The World's Most Powerful Tanks is a colorful guide for the military historian and military technology enthusiast *From the Realm of a Dying Sun* Douglas E. Nash, 2019-12-19 The first volume of the tactical and operational history of World War II Germany's fourth SS Panzerkorps division and its leader During World War II the armed or Waffen SS branch of the Third Reich's dreaded security service expanded from two divisions in 1940 to 38 divisions by the end of the war eventually growing to a force of over 900 000 men until Germany's defeat in May 1945 The histories of the first three SS corps are well known the actions of I II and III Germanic SS Panzerkorps have been thoroughly documented and publicized Overlooked in this pantheon is another SS corps that never fought in the west or in Berlin but one that participated in many of the key battles fought on the Eastern Front during the last year of the war the IV SS Panzerkorps Activated during the initial stages of the defense of Warsaw in late July 1944 the corps consisting of the 3 and 5 SS Panzer Divisions Totenkopf and Wiking respectively was born in battle and spent the last ten months of the war in combat figuring prominently in the battles of Warsaw the attempted Relief of Budapest Operation Spring Awakening the defense of Vienna and the withdrawal into Austria where it finally surrendered to U S forces in May 1945 Herbert Otto Gille's IV SS Panzerkorps was renowned for its tenacity high morale and above all its lethality Often embroiled in heated disputes with its immediate Wehrmacht higher headquarters over his seemingly cavalier conduct of operations Gille's corps remained to the bitter end one of the Third Reich's most reliable and formidable field formations

Consumed by War Richard C. Hall, 2021-05-11 Europe endured such incessant political discord throughout the twentieth century that some historians refer to the period's conflicts as the Long War During the Balkan wars of 1912 1913 regional fighting in southeastern Europe ignited conflict across the continent that continued through both world wars and the Cold War In Consumed by War European Conflict in the 20th Century Richard C Hall illuminates the complex diplomatic and military struggles of a region whose instability rooted in a nineteenth century nationalistic fervor provided a catalyst for the political events that ensued From the assassination of Archduke Franz Ferdinand in 1914 to the incarceration of Radovan

Karadzic in 2008 this narrative history appeals to general readers and scholars interested in a fresh interpretation of a complicated and brutal era      *SAS and Special Forces in World War II* Michael E Haskew,2013-12-12 Illustrated with action photographs The Encyclopedia of Elite Forces in World War II is a comprehensive guide to the elite forces of both sides during the 1939 45 war Each entry describes the unit s strength date of formation and gives a brief overview of its combat record during the war      **Hitler's Commanders** Samuel W. Mitcham (Jr.),2012 Now in an expanded edition that includes biographies of the generals of Stalingrad and a new chapter on the panzer commanders this book offers rare insight into the men who ran Nazi Germany s war machine Going beyond common stereotypes Samuel W Mitcham and Gene Mueller recount the compelling lives of a varied group of army navy Luftwaffe and SS men Weaving in dramatic stories of tank commanders fighter pilots in aerial combat and U Boat aces the authors bring the battlefields of World War II to life      **500 Days** Sean M. McAteer,2009      **The Caucasus 1942-43** Robert Forczyk,2015-05-20 Much has been written of the titanic clashes between the Wehrmacht and the Red Army at Stalingrad but this volume tells the other equally important half of the story of Fall Blau Case Blue Learning from their experiences during the sweeping advances of Operation Barbarossa a year before Wehrmacht commanders knew that Nazi Germany s lack of oil was a huge strategic problem Seizure of the Caucasus oilfields which were responsible for 82% of the Soviet Union s crude oil would simultaneously alleviate the German army s oil shortages whilst denying vital fuel resources to the Red Army Whilst Army Group B advanced along the Volga towards Stalingrad Army Group A spearheaded by Ewald von Kleist s elite Panzerarmee 1 was to advance into the Caucasus to seize the oilfields of Maikop Grozny and Baku Featuring full colour artwork archival photos and detailed analysis this book follows the vicious intense fighting that characterised one of the most important campaigns of World War II      *Stalingrad* Stephen Walsh,2000 Walsh gives a detailed history of Hitler s great failure and a comprehensive account of one of the most important battles of World War II With full color strategic maps 170 b w photos and detailed appendices Stalingrad is an exhaustive look at the battle that bled the German army dry      The Rise of the Wehrmacht Samuel W. Mitcham Jr.,2008-06-30 The Rise of the Wehrmacht is the first comprehensive work to deal with the German war effort in World War II from this point of view Its uniqueness lies in the fact that it covers the entire war effort from the point of view of the German military that actually conducted and fought the war something that has never been done before on this scale Excellent books have been written about the German Army Navy the Luftwaffe and the SS as well as about the Panzer branch the parachute arm the U Boat forces etc but this is the first to cover them all in depth Mitcham also covers the German Wehrkreise roughly translated as military district system in depth and recognizes its importance both in the formation and expansion of the German Army before the war and in its continuing importance throughout the conflict He deals with the German rearmament in greater depth and detail than has been done before points out the importance of the police in the development of Germany s reserves before and during World War II and offers new insights into the evolution and development of the German military doctrine

of Kesselschlacht the decisive battle of encirclement and annihilation In addition The Rise of the Wehrmacht explains the problems the Wehrmacht faced because of its too rapid expansion This expansion was far more rapid than the German generals intended and resulted in many problems especially in terms of equipment shortages and a shortage of qualified officers Finally Mitcham addresses the contributions of the Hitler Youth to the war effort where their work on farms fire and rescue crews in nursing and as postal workers for example provided essential services to German infrastructure

**Stalingrad 1942-1943** Stephen Walsh,2012-07-16 Stalingrad is a comprehensive history of the greatest battle of World War II a defining moment in the struggle on the Eastern Front which has been called the Verdun of World War II *The Second World Wars* Victor Davis Hanson,2017-10-17 A breathtakingly magisterial account of World War II by America s preeminent military historian Wall Street Journal World War II was the most lethal conflict in human history Never before had a war been fought on so many diverse landscapes and in so many different ways from rocket attacks in London to jungle fighting in Burma to armor strikes in Libya The Second World Wars examines how combat unfolded in the air at sea and on land to show how distinct conflicts among disparate combatants coalesced into one interconnected global war Drawing on 3 000 years of military history bestselling author Victor Davis Hanson argues that despite its novel industrial barbarity neither the war s origins nor its geography were unusual Nor was its ultimate outcome surprising The Axis powers were well prepared to win limited border conflicts but once they blundered into global war they had no hope of victory An authoritative new history of astonishing breadth The Second World Wars offers a stunning reinterpretation of history s deadliest conflict

Urban Operations, Untrained On Terrain Major Paul S. Burton,2015-11-06 This thesis traces the development of urban operations from World War II to the present to examine the evolution of doctrine training organization and equipment Four specific operations battles are examined including Stalingrad in World War II on the eastern front Belfast in Northern Ireland from 1968 to the present Beirut in Lebanon in 1982 and an illustrative future model in Seoul in Korea in 2012 The historical examples are compared to the U S scenario in Seoul Korea in 2012 to determine similarities and differences Future lessons learned are extrapolated from these similarities and differences The study concludes that the U S Army has weaknesses in doctrine training organization and equipment in war and military operations other than war at the tactical and operational levels This study recommends an updated integrated doctrine a training facility and training plans at the unit level a more flexible organization and procurement of new equipment

**The Soviet Union** Mark Edele,2018-11-13 An acclaimed historian explores the dynamic history of the twentieth century Soviet Union In ten concise and compelling chapters The Soviet Union covers the entire Soviet Union experience from the years 1904 to 1991 by putting the focus on three major themes warfare welfare and empire Throughout the book Mark Edele a noted expert on the topic clearly demonstrates that the Soviet Union was more than simply Russia Instead it was a multi ethnic empire The author explains that there were many incarnations of Soviet society throughout its turbulent history each one a representative of Soviet socialism The text covers a
