Salinsky,2024-11-30 Explores the unique journey of the long running British sitcom detailing its creation cast changes and enduring legacy through critical analysis and behind the scenes insights Red Dwarf is virtually unique among British sitcoms It began in 1988 and was still releasing new episodes in 2020 making it one of the longest running sitcoms of all time but the core cast has remained largely unchanged And its science fiction flavor contrasts strongly with the drawing rooms and sofas which were the norm when it launched and the fast cut mockumentary style which is popular today And yet this is a show which nobody wanted to make and which only barely made it to our screens at all In this work Tom Salinsky will look at exactly how it came to be who was considered for the cast but didn t make it how it was radically reinvented for the third sixth seventh ninth and tenth seasons how it survived the breakup of its key creative partnership the loss of the original spaceship models BBC strikes the departure of a major cast member and the seemingly self defeating rules which the writers imposed on themselves But this isn t just a behind the scenes account It s also a detailed critical analysis examining why the best episodes succeed and why the less impressive episodes struggle while also finding time to ask just how a hologram made of light can smell burning camphor wood why a creature evolved from a cat is familiar with Wilma Flintstone or just how long Lister and Kochanski were dating for How can all this possibly be contained in one book It can t Volume I will cover the first six series and Volume II will conclude the story of Red Dwarf on television as well as looking at the novels comic strips computer games and more Time-Travel Television Sherry Ginn,Gillian I. Leitch,2015-10-08 Stories of time travel have

been part of science fiction since H G Wells sent his nameless hero hurtling into Earth s distant future in The Time Machine Time travel enables the storyteller to depict alternate realities bring fictional characters face to face with historical figures and depict moral and ethical dilemmas in which millions of lives or the world as we know it are at stake From Doctor Who and Quantum Leap to the multiple incarnations of Star Trek time travel has been a staple of science fiction television for more than fifty years Time Travel Television The Past from the Present the Future from the Past surveys the whole range of time travel stories on the small screen The essays in this collection explore time travel series both familiar Babylon 5 Stargate SG 1 and forgotten The Time Tunnel Voyagers as well as time travel themed episodes and arcs in series where it is not central such as Red Dwarf Lost and Heroes Contributors to this volume consider some of the classic themes of time travel

stories the promise and peril of fixing the past the chance to experience and choose possible futures and the potential for small changes to have great effects Exploring time travel as a teaching tool as a vehicle for moral lessons and as a background for high adventure this book offers new perspectives on many familiar programs and the first serious study of several unjustly neglected ones Time Travel Television is essential reading for science fiction scholars and fans and for anyone interested in the many ways that television brings the fantastic into viewers living rooms **Best of the Britcoms** Garry Berman,2011-02-16 With crisp dialog outrageous characters and an absurd sense of humor it s no wonder British sitcoms are so well loved Best of the Britcoms covers the most noteworthy situation comedies ever to cross the pond Each entry combines a show summary with descriptions of standout episodes and behind the scenes details plus gives you production data and full cast listings And now the revised edition of this Britcom classic contains seven new chapters on programs that have aired in the U S since the original edition was published such as The Office Extras and My Family Fans of old school Britcoms won t be disappointed either as the revised edition also includes the later developments of older series storylines and detailed information on specials and cast reunions that have occurred in the intervening years Pick up this book kick back and get to know a Britcom **Red Dwarf** Chris Howarth,Steve Lyons,1997 Red Dwarf is the biggest cult of recent years Since 1988 there have been seven series of mind boggling comedy adventures as Lister Rimmer Cat and Kryen attempt to make their way back to Earth after a five million year interstellar sleep **(Dis)Orienting Media and Narrative Mazes** Julia Eckel,Bernd Leiendecker,Daniela Olek,Christine Piepiorka,2014-03-15 Dis Orientation appears to be a phenomenon that is connected to media in numerous respects today finding your way in the world often means finding your way with the help of as well as within media which in turn creates new virtual realms of dis orientation This book deals with recent media technologies and structures navigation devices databases transmediality and unconventional narrative patterns narrative complexity plot twists non linearity using the ambivalent concept of dis orientation as a shared focus to analyse various phenomena of contemporary media thereby raising overarching questions about current mediascapes **JUDITH MEZZELSTONE** HASAN MALIK,2013-05 A work absolutely new in form much as Laurence Sterne s Tristram Shandy Herman Melville s Moby Dick James Joyce s Ulysses and Franz Kafka s The Castle were in their respective times Stories conflating form and to the mind of its character in dizzying accesses **Irreversible** Tim Palmer,2014-12-12 Gaspar No s Irreversible is uncompromising and visceral an essential piece of modern cinema Punctuated by dazzling avant garde techniques the film depicts in reverse chronological order a woman s rape and her boyfriend and friend s subsequent hunt for vengeance through the underworld of Paris Confrontational yet influential Irreversible has polarized audiences since its release in 2002 making it until now almost impossible to study dispassionately This first book length study of Irreversible situates No s work in the ecosystem of contemporary French media exploring how Irreversible and a larger scale cin ma du corps actually inspired France s film resurgence in the early twenty first century From there Palmer shows Irreversible to be

one of the most subversive star vehicles in recent world cinema in the form of its iconic lead performers Vincent Cassel Monica Bellucci and Albert Dupontel Investigating the spectrum of reactions created by No s film through its pugnacious stylistic design its on screen deconstruction of Paris its international critical reception and its unexpectedly utopian counterpoints to violence and despair the book generates a new rational dialogue about Irreversible that challenges any instinct simply to reject or condemn it **Fearful Symmetry** Ian Stewart,Martin Golubitsky,2010-08-01 From the shapes of clouds to dewdrops on a spider s web this accessible book employs the mathematical concepts of symmetry to portray fascinating facets of the physical and biological world More than 120 figures illustrate the interaction of symmetry with dynamics and the mathematical unity of nature s patterns **Bowker's Complete Video Directory** ,1992 **Cult TV** Jon E. Filmzeit Stefanie Kreuzer, 2021-09-02

Das Phänomen Zeit spiegelt sich im Film sowie in der Filmgeschichte in sehr unterschiedlichen und vielfältigen Erscheinungsweisen wider. Grundsätzlich kann jedoch heuristisch differenziert werden nach Zeit Aspekten der histoire auf der Handlungsebene und Zeit Aspekten des discours auf der Darstellungsebene oder anders ausgedrückt: Die Konstellation von Film und Zeit bezieht sich sowohl auf a) die Zeit im Film als auch auf b) die Zeit des Films, also die Filmzeit. Das titelgebende Kompositum des vorliegenden Bandes zur FilmZeit ist als ein Neologismus zu verstehen, der beide Zeitdimensionen des Films umfasst. Auf diese Weise beschreibt FilmZeit zum einen sämtliche Zeitlichkeitsphänomene im Film, zum anderen ist FilmZeit speziell auf kinematografische Eigenzeitlichkeiten zu beziehen. Beiträge von Andreas Becker, Matthias Brötsch, Susanne Kaul, Julia Eckel, Henry Keazor, Thomas Köhler, Lucia Krümer, Stefanie Kreuzer, Markus Kuhn, Susanne Marschall, Jörg Schweinitz, Stefan Tetzlaff, Birk Weiberg, Hans Jürgen Wulff und Sabine Zubarik.
