## **Sense Nonsense Of McLuhan:**

**Sense and Nonsense of McLuhan** Sidney Finkelstein,1963      **Marshall McLuhan's Mosaic** Elena

Lamberti,2012-01-01 One hundred years after Marshall McLuhan's birth Elena Lamberti explores a fundamental yet neglected aspect of his work the solid humanistic roots of his original mosaic form of writing In this investigation of how his famous communication theories were influenced by literature and the arts Lamberti proposes a new approach to McLuhan's thought Lamberti delves into McLuhan's humanism in light of his work on media and culture exploring how he began to perceive literature not just as a subject but a function inseparable from communal existence Lamberti pays particular attention to the central role played by Modernism in the making of his theories including the writings of Ford Madox Ford James Joyce Ezra Pound and Wyndham Lewis Reconnecting McLuhan with his literary past Marshall McLuhan's Mosaic is a demonstration of one of his greatest ideas that literature not only matters but can help us understand the hidden patterns that rule our environment      **Faith, War, and Violence** Gabriel R. Ricci,2017-09-08 Faith War and Violence analyzes the age old links between religion and violence perpetrated in the name of God and the role religion performs in politically infusing the state with romantic spiritualism The volume examines instances of this phenomenon from ancient Rome to the modern day it finds that religion inspired violence is not restricted to Abrahamic faiths or to one geographic region The fact that symbolically charged religious violence has destructive consequences is not lost on contributors to Faith War and Violence Among the subjects tackled are the ideological and religious foundations that inspired the founders of Al Qaeda and its role in the Arab Spring the long history of religious conflict in Ireland known as the Troubles Sikh extremism and the evolution of the Christian approach to war As the contributors demonstrate in Western societies the unity of religious fervor and warmongering stretches from Constantine's incorporation of Christian symbols into Roman army flags to slogans like Gott mit uns God is with us which appeared on the belt buckles of German soldiers in World War I In recent years George W Bush declared the war on terror a crusade and his speechwriter David Frum coined the religiously inspired term Axis of Evil to describe Iraq and other countries opposing the United States      **The Spoken Word** Adam Fox,Daniel Woolf,2002 Previous studies on oral culture have traditionally emphasized the contradictions between oral and literate culture and focussed on individual countries or regions The essays in this fascinating collection depart from these approaches in several ways By examining not only English but also Scottish and Welsh oral culture they provide the first pan British study of the subject The authors also emphasize the ways in which oral and literate culture continued to compliment and inform each other rather than focusing exclusively on their incompatibility or on the inevitable triumph of the written word      *Canada's 1960s* Bryan Palmer,2008-03-29 Rebellious youth the Cold War New Left radicalism Pierre Trudeau Red Power Quebec's call for Revolution Marshall McLuhan these are just some of the major forces and figures that come to mind at the slightest mention of the 1960s in Canada Focusing on the major movements and personalities of the time as well as the lasting

influence of the period Canada's 1960s examines the legacy of this rebellious decade's impact on contemporary notions of Canadian identity Bryan D Palmer demonstrates how after massive postwar immigration new political movements and at times violent protest Canada could no longer be viewed in the old ways National identity long rooted in notions of Canada as a white settler Dominion of the North marked profoundly by its origins as part of the British Empire had become unsettled Concerned with how Canadians entered the Sixties relatively secure in their national identities Palmer explores the forces that contributed to the post 1970 uncertainty about what it is to be Canadian Tracing the significance of dissent and upheaval among youth trade unionists university students Native peoples and Quebecois Palmer shows how the Sixties ended the entrenched nineteenth century notions of Canada The irony of this rebellious era however was that while it promised so much in the way of change it failed to provide a new understanding of Canadian national identity A compelling and highly accessible work of interpretive history Canada's 1960s is the book of the decade about an era many regard as the most turbulent and significant since the years of the Great Depression and World War II **Firesign** Jeremy

Braddock,2024-10-29 A cultural clearinghouse of the American 1960s and 70s told through the story of the period's most important forgotten comedy group This expansive book reclaims the Firesign Theatre hazily remembered as a comedy act for stoners as critically engaged artists working in the heart of the culture industry at a time of massive social and technological change At the intersection of popular music sound and media studies cultural history and avant garde literature Jeremy Braddock explores how this inventive group made the lowbrow comedy album a medium for registering the contradictions and collapse of the counterculture and traces their legacies in hip hop turntablism computer hacking and participatory fan culture He deploys a vast range of material sources drawing on numerous interviews and writing in tune with the group's obsessive and ludic reflections on multitrack recording radio television cinema early artificial intelligence and more to focus on Firesign's work in Los Angeles from 1967 to 1975 This ebullient act of media archaeology reveals Firesign Theatre as authors of a comic utopian pessimism that will inspire twenty first century recording arts and urge us to engage the massive technological changes of our own era **The Rhetoric of Western Thought** James L. Golden,2003 **Millennials and**

**Media Ecology** Anthony Cristiano,Ahmet Atay,2019-07-03 Millennials and Media Ecology explores issues pertaining to millennials and digital media ecology and studies the cultural pedagogical and political environments such heterogeneous generation populates The book questions whether millennials are properly understood as a heterogeneous group particularly by the institutions and agencies that target them and whether they are demonstrating the ability to set out a path for themselves and take charge of their own life and future A diverse team of expert authors review past and current studies with critical assessment of arguments and propositions and document actual experiences of members of the millennial generation through detailed studies Engaging with topical subject matter and current research on millennials the chapters Question the misunderstanding that digital tools and Internet technologies are making the younger generation dumber and

disengaging them from the real world Underscore the legal and economic insights into the commodification of the younger generation as consumers rather than learners Examine the historical trajectory of media technology and whether new practices are having an empowering effect or one of enslavement to an increasingly irreversible technological and socio political regime Shed light on issues of critical pedagogy emerging from digital environments in relation to one s mental abilities and degrees of wisdom Discuss the cultural and political implications of millennials new media trends the changing relationship between millennials and legacy media which rely on the younger generation for survival Offer new insights into the significance of current media trends in relation to issue of credibility and identity This is an essential book for scholars in the fields of Media and Communications and Popular Culture and will be vital reading for postgraduate students and specialists in related fields

**Economics for an Information Age** Patrick Spread,2018-10-08 Economics for an Information Age examines the central role of information within economics and society The neoclassical economic model taught as mainstream economics in universities around the world relies on a mathematical model of resource allocation in which private advantage gives rise to public advantage in the shape of an optimal allocation of resources However this model assumes perfect information In the present information age such an assumption is even farther from the reality than it was in the past People disseminate and manipulate information to further their interests This book explains economic behaviour in terms of a theory of money bargaining and political and intellectual support bargaining in which the dissemination of information plays a central role It uses this lens to explain how information is created manipulated disseminated organised understood interpreted used bought and sold This book will be of interest to mainstream and heterodox economists alike as well as historians of economic thought and anyone who seeks to better understand the impact of the information age on economic behaviour

**When Television was Young** Paul Rutherford,1990-01-01 A decade after the first Canadian telecasts in September 1952 TV had conquered the country Why was the little screen so enthusiastically welcomed by Canadians Was television in its early years more innovative less commercial and more Canadian than current offerings In this study of what is often called the golden age of television Paul Rutherford

has set out to dispel some cherished myths and to resurrect the memory of a noble experiment in the making of Canadian culture. He focuses on three key aspects of the story. The first is the development of the national service including the critical acclaim won by Radio Canada, the struggles of the CBC's English service to provide mass entertainment that could compete with the Hollywood product and the effective challenge of private television to the whole dream of public broadcasting. The second deals with the wealth of made-in-Canada programming available to please and inform viewers even commercials receive close attention. Altogether Rutherford argues Canadian programming reflected as well as enhanced the prevailing values and assumptions of the mainstream. The final focus is on McLuhan's Question: What happens to society when a new medium of communications enters the picture? Rutherford's findings cast doubt upon the common presumptions about the awesome power of television. Television in Canada, Rutherford concludes, amounts to a failed revolution. It never realized the ambitions of its masters or the fears of its critics. Its course was shaped not only by the will of the government, the power of commerce and the empire of Hollywood but also by the desires and habits of the viewers.

**Further Adventures of The Dialectic of Sex** M. Merck, S. Sandford, 2010-09-13 In these eleven essays scholars from diverse disciplines address the argument, reception and implications of *The Dialectic of Sex* and make a compelling critical case for its contemporary salience.

Understanding Media Cultures Nick Stevenson, 2002-04-02 The Second Edition of this book provides a comprehensive overview of the ways in which social theory has attempted to theorize the importance of the media in contemporary society. *Understanding Media Cultures* is now fully revised and takes account of the recent theoretical developments associated with New Media and Information Society as well as the audience and the public sphere.

**Liturgy and Hermeneutics** Joyce Ann Zimmerman, 1999 By its very nature hermeneutics, the art or science of interpreting, is interdisciplinary. It is equally important for scholars of literature, philosophy, biblical texts and theology. In spite of the fact that interpretation has long been an important concern for Scripture exegetes and that in recent years liturgists have paid increasing attention to methods, there is no major work that specifically addresses the issues of hermeneutics for liturgy. *Liturgy and Hermeneutics* fills that void. In *Liturgy and Hermeneutics* Joyce Ann Zimmerman explains that all communication requires some interpretation even everyday conversations in which we are hardly aware of it. But a great deal of communication is far more complex. Anytime we try to describe such things as an idea, a concept or an experience we are well beyond ordinary language use and into the realm of language as a symbol system. Since symbols have both a literal meaning and another level of meaning available only through interpretation, much of our communication is hermeneutical. Liturgy is no exception; it too is hermeneutical. In the past everything about liturgy seemed clear and understandable and the rituals were denotative. However, Zimmerman argues that lack of interpretation may have deprived worshippers of the richness proper to liturgy. A non-interpretive approach to liturgy tends to reduce it to rubrics or received grace. We must likewise be wary of an interpretation of liturgy that is too subjective. Only authentic interpretation examines liturgy's richness while remaining

faithful to its tradition doctrinal content and ritual expressions In Liturgy and Hermeneutics Zimmerman specifically addresses hermeneutics and its use in liturgy and liturgical studies Her purpose is twofold 1 to introduce readers to a complex body of literature so they can become literate in a technical field and 2 to guide readers through the complex issues and strategies involved in interpreting liturgy as text as ritual as life Zimmerman does not promote a single hermeneutic approach but instead points out the advantages and disadvantages of various approaches Chapters are What's at Stake Overview of Hermeneutical Theory and Issues Critical Methods Post critical Methods Hermeneutics and Liturgical Studies Today and an epilogue that raises questions yet to be comprehensively addressed by liturgists      **Undisciplined Theory** Gary Genosko, 1998-06-18 In this work the author argues that whilst institutionalized social theory persists in following a rigid canon and supporting clear visions the vital questions in theory are interdisciplinary      **Communication for Social Change Anthology** Alfonso Gumucio Dagron, Thomas Tufte, 2006 Contains nearly 200 readings published between 1927 and 2005 in English or translated from other languages on the historical roots and pioneering thinking regarding communication for social change Covers a variety of topics including the radio tv and other mass communication information and communication technology the digital gap the formation of an information society national information policies participatory decision making communication of development pedagogy and entertainment education HIV AIDS communication for prevention etc      Communication in Organizations Robert M.
