Cherniss, 2013-03-28 A Mind and its Time offers the most detailed account to date of the genesis and development of Isaiah Berlin s political thought philosophical views and historical understanding Drawing on both little known published material

and archival sources it locates Berlin's evolving intellectual interests and political positions in the context of the events and trends of interwar and post war intellectual and political life. Special emphasis is placed on the roots of Berlin's later pluralism in philosophical and cultural debates of the interwar period, his concern with the relationship between ethics and political conduct and his evolving account of liberty. Berlin's distinctive liberalism is shown to have been shaped by his response to the cultural politics of interwar period and the political and ethical dilemmas of the early Cold War era and to what Berlin saw as a dangerous embrace of an elitist technocratic scientific and managerial intellectual and political stance by liberals themselves. At the same time Berlin's attitude toward what he called positive liberty emerges as far more complicated and ambivalent than is often realized. Joshua L Cherniss reveals the multiplicity of Berlin's influences and interlocutors, the shifts in his thinking and the striking consistency of his concerns and commitments. In shedding new light on Berlin's thought and offering a better understanding of his place in the development of liberal thought in the twentieth century, he makes fresh contributions both to understanding the intellectual history of the twentieth century and to discussions of liberty and liberalism in political theory.

The Concept of Group Rights in International Law Corsin Bisaz, 2012-08-28. Through a collective biography of four scholars: Erich Kaufmann, Hans Kelsen, Hersch Lauterpacht and Hans J. Morgenthau, this book investigates how Jewish identity and intellectual ties to Judaic civilization in the German speaking and legal context influenced international law. By using biblical constitutive metaphors, it argues that Jewish German lawyers inherited *inter alia* a particular Jewish legal approach that framed their understanding of the law as a means to reach God. The overarching argument is that because of their Jewish heritage, Jewish scholars inherited the endorsement of earthly particularism for the sake of universalism and the other way around for the sake of universalism, humanity's differences need to be solved through the law.
