My Garden World Monty Don, 2020-09-17 THE SUNDAY TIMES BESTSELLER BEST GARDENING BOOKS OF 2020 Sunday Times Every page a joy NIGEL SLATER From a very early age I loved the countryside as much as any garden and was fascinated by the life that I saw all around me from trees wildflowers birds insects and mammals In a sense this book has been over sixty years in gestation I have kept notebooks and journals ever since I could write and I have drawn upon these as well as the events of the past year Spend a year with Monty Don My Garden World is a celebration of every living creature and the natural world that we all share Recent times have given us the enforced opportunity to learn more about the fascinating natural world around us Whether you live in the countryside or the town Monty's observations and insights are relevant to each and every one of us My Garden World is Monty Don's personal journey through the natural year month by month season by season observed from the immediate world around him Wildlife is not something that we watch happening in remote and exotic parts of the world on our screens but right here in our own back yards and the more that we encourage it and learn to live with it the more rewarding it becomes If in our own modest back yards we can help preserve and treasure our natural world then we will make the world a better place not just for ourselves but for every living creature

The Roman Garden Katharine T. von Stackelberg, 2009-06-22 This innovative book is the first comprehensive study of ancient Roman gardens to combine literary and archaeological evidence with contemporary space theory It applies a variety of interdisciplinary methods including access analysis literary and gender theory to offer a critical framework for interpreting Roman gardens as physical sites and representations The Roman Garden Space Sense and Society examines how the garden functioned as a conceptual sensual and physical space in Roman society and its use as a vehicle of cultural communication Readers will learn not only about the content and development of the Roman garden but also how they promoted memories and experiences It includes a detailed original analysis of garden terminology and concludes with three case studies on the House of Octavius Quartio and the House of the Menander in Pompeii Pliny's Tuscan garden and Caligula's Horti Lamiani in Rome Providing both an introduction and an advanced analysis this is a valuable and original addition to the growing scholarship in ancient gardens and will complement courses on Roman history landscape archaeology and environmental history

Tennysonian Love Gerhard Joseph, 1969-04-10 Tennysonian Love was first published in 1969 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions In the century or so since Alfred Tennyson's poetry reached the height of its popularity and critical acclaim the pendulum of

criticism has swung wide in opposite directions From the earlier idolatry to the later ridicule that pendulum has now settled into a position of qualified and selective praise from which a more thoughtful consideration of the poet is possible Consequently as this critical study suggests new values and dimensions are recognizable in his work Professor Joseph concentrating on the theme of love but involving in his argument other facets of Tennyson s achievement demonstrates the thesis that the poet moved as in a strange diagonal This phrase used as the subtitle of the book comes from Tennyson s poem The Princess in which the narrator moved as in a strange diagonal And maybe neither pleased myself nor them As the author shows Tennyson throughout his work moved between a Platonic conception of love in which the highest kind of spiritual love has disencumbered itself of sense and a Neoplatonic Dantesque one in which sense and soul tend to merge In coming to terms with the nineteenth century form of this divided Western heritage the pietism of the evangelical revival on the one hand and the idealized eroticism of his Romantic predecessors on the other Tennyson became the exemplary poet of Victorian love No other Victorian poet Professor Joseph concludes exhibits quite his representative and successful blending of these clashing strains For while moving between the alternate traditions of Western love Tennyson was able to forge a large body of highly disciplined beautifully wrought and far ranging verse

Public Garden Management: a Global Perspective BIJAN DEHGAN, 2014-04-15 Public Gardens Management A Global Perspective provides essential information about public gardens and what is involved in designing managing and maintaining one Although suitable as a textbook its audience will include anyone with direct or peripheral responsibility for administration or supervision of a complex organization that requires scientific knowledge as well as public relations and business acumen It may also prove useful for homeowners for there is no fundamental difference between growing plants in a public garden or a home garden a fact reflected in the extensive reference citations The topic is multidisciplinary and as old as the beginning of human civilization when the concept of mental and physical restoration was realized by early man while he she was in a natural but well ordered garden environment Thus began the art of garden making Many volumes have been written on every applicable subject discussed in this and similar publications Indeed the voluminous literature on history design horticulture and numerous related subjects is nothing short of overwhelming Accordingly anyone involved in management of public gardens whether as a director or area supervisor and irrespective of the type and size of such facility would have to have familiarity with various aspects of garden organization and administration However despite the enormous number and diversity of such publications there are very few books that deal with the multiplicity of the topics in such a manner as to be practical in approach and cover most relevant and unified issues in a single book These volumes provide the essential background information on plants animals management maintenance fundraising and finances as well as history art design education and conservation They also cover a host of interrelated subjects and responsible organization of such activities as creating a childrens garden horticultural therapy conservatories zoological gardens and parks hence administration of multidimensional

public gardens Nearly 500 full color plates representing illustrations from gardens in more than 30 countries are provided to assist and guide students and other interested individuals with history and the fundamental issues of public garden management The 15 chapters begin with the need for public gardens types of public gardens historical backgrounds as well as design diversity Numerous quotations are included from many garden lovers landscape architects philosophers and others The authors primary aim in writing this book was based on the confidence that a relevant reference between the encyclopedic nature of some and the specific subject matter of others could be used to provide fundamental information for management of public as well as private gardens The boundary between botanical and zoological gardens and parks is no longer as distinct as it once was In part it is because a garden is not a garden without plants and in part it has become apparent that for all practical intents and purposes all animals need plants for their survival Visitors of zoological gardens expect to see more than just animals zoos are landscaped grounds Moreover most communities find it financially difficult to simultaneously operate a botanical garden or an arboretum as well as a zoological garden and city parks A number of public gardens are currently referred to as botanical and zoological garden Population density and the publics desires and expectations as well as financial requirements are among the reasons for some major city parks such as Golden Gate in San Francisco Central Park in New York City and Lincoln Park in Chicago which integrate botanical or zoological divisions as well as museums and recreational facilities While this book attempts to provide basic principles involved in public garden management it does not claim to be a substitute for broader familiarity

Wieland, 2025-02-03 The topic of colour in literature is usually addressed in terms of semantics and figurative uses of colour. **Entangled with Colour: New Materialist Explorations in English Colour Writing** presents another take on colour in literary texts. It introduces the practice of colour writing, which stresses the relationality between colour, matter, words, and affects. With precursors in fin de siècle and modernist literature, a genre of colour writing has evolved since the end of the 20th century, with Derek Jarman's *Chroma*, Maggie Nelson's *Bluets*, and Han Kang's *The White Book*. This study demonstrates how these texts create a material discursive dimension of colour, which in turn requires a rethinking of how to read colour. To examine the complex materialisations of colour matter in these texts, the study engages with a new materialist understanding of matter and agency. It further introduces a new reading strategy: an attentive reading that aims to unfold the various shades of colour's material discursive doings in colour writings. Such an attentive reading follows a postcritical tradition and is developed in close dialogue with texts by Nan Shepherd. By attentively describing the entanglements between colour, matter, text, and reader, this study explores how colour matter makes itself felt in the reading process and how colour writings entangle the reader with their unique colourscapes. **The Gospel of Barnabas** Lonsdale Ragg, Laura Maria Roberts
