The Cherokee Syllabary Ellen Cushman,2012-09-13 In 1821 Sequoyah a Cherokee metalworker and inventor introduced a writing system that he had been developing for more than a decade His creation the Cherokee syllabary helped his people learn to read and

write within five years and became a principal part of their identity This groundbreaking study traces the creation dissemination and evolution of Sequoyah's syllabary from script to print to digital forms Breaking with conventional understanding author Ellen Cushman shows that the syllabary was not based on alphabetic writing as is often thought but rather on Cherokee syllables and more importantly on Cherokee meanings Employing an engaging narrative approach Cushman relates how Sequoyah created the syllabary apart from Western alphabetic models But he called it an alphabet because he anticipated the Western assumption that only alphabetic writing is legitimate Calling the syllabary an alphabet though has led to our current misunderstanding of just what it is and of the genius behind it until now In her opening chapters Cushman traces the history of Sequoyah's invention and explains the logic of the syllabary's structure and the graphic relationships among the characters both of which might have made the system easy for native speakers to use Later chapters address the syllabary's enduring significance showing how it allowed Cherokees to protect enact and codify their knowledge and to weave non Cherokee concepts into their language and life The result was their enhanced ability to adapt to social change on and in Cherokee terms Cushman adeptly explains complex linguistic concepts in an accessible style even as she displays impressive understanding of interrelated issues in Native American studies colonial studies cultural anthropology linguistics rhetoric and literacy studies Profound like the invention it explores The Cherokee Syllabary will reshape the study of Cherokee history and culture Published through the Recovering Languages and Literacies of the Americas initiative supported by the Andrew W Mellon Foundation
