Xeno Fiction: More Best of Science Fiction Damien Broderick, Van Ikin, 2013-08-05 Science fiction loves strangeness It relishes oddities even when it piles on fear and dystopian loathing The technical term for a fascination with the strange and alien is xenophilia just as the term for a terror of the strange is xenophobia At its core then science fiction is Xeno Fiction So science fiction seeks out the strange roams far from home in space and time looks with avid eagerness upon the ways of the Others human or alien It participates in brilliantly lighted imagination in their strange lives In this second gathering from Van Ikin's critical journal Science Fiction A Review of Speculative Literature writers of the alien are investigated with wit and insight G Travis Regier follows the Other into its own home accompanying those experts in the alien C J Cherry and Samuel R Delany In the book's long key essay Terry Dowling pursues the Art of Xenography as exemplified by Jack Vance's General Culture novels Three expert commentators look into Booker Prize winner Peter Carey's postcolonial and postmodern

frolics into alternative realities And the Xeno fictions of Isaac Asimov Greg Egan Mary Gentle Ursula K Le Guin Naomi Mitchison Neal Stephenson and Stanley Weinbaum are read as their road maps into the strange Eleven revealing essays on speculative fiction by some of the best critics in the field Complete Critical Assembly David Langford,2002-10-01 This new collection of essays commissioned from a range of scholars across the world takes as its theme the reception of Rome s greatest poet in a time of profound cultural change Amid the rise of Christianity the changing status of the city of Rome and the emergence of new governing classes Vergil remained a bedrock of Roman education and identity This volume considers the different ways in which Vergil was read understood and appropriated by poets commentators Church fathers orators and historians The introduction outlines the cultural and historical contexts Twelve chapters dedicated to individual writers or genres and the contributors make use of a wide range of approaches from contemporary reception theory An epilogue concludes the volume
