check in every subject he has discussed in this book He catered everything especially in the part on how to construct sentences which are very precise and which make it very easy to learn the book He did not change anything at all in terms of the right way to speak and learn English but instead he made it easier and more convenient for those people whose English is not their first language In point of fact he wrote this book not because he wants to show off to the world that he is a good grammarian but because he wants to help those struggling to learn English The book therefore deserves recognition because he is actually giving a favour to those who can't afford to have a private tutor to teach them how to speak English correctly I must in conclusion admit that this book will really help those people who want to learn English language those people who are striving to speak perfect English and those people that English is their second language I will therefore commend the author for this book
