The Japanese have long regarded themselves as a homogenous nation clearly separate from other nations. However, this long standing view is being undermined by the present international reality of increased global population movement. This has resulted in the establishment both of significant Japanese communities outside Japan and of large non Japanese minorities within Japan and has forced the Japanese to re conceptualise their nationality in new and more flexible ways. This work provides a comprehensive overview of these issues and examines the context of immigration to and emigration from Japan. It considers the development of important Japanese overseas communities in six major cities worldwide, the experiences of immigrant communities in Japan as well as assessing the consequences for the Japanese people's view of themselves as a nation.

Japan's Agro-Food Sector Albrecht Rothacher, 1989-06-18 This book describes the profound structural change in Japan's agriculture from its politically marginalized economically fragmented traditional labour intensive postwar mode of production to its current dual modern shape of a highly capitalized politically organized and protected sector.

An Ethnography of the Lives of Japanese and Japanese Brazilian Migrants Ethel V. Kosminsky, 2020-06-01 In this book Ethel Kosminsky studies the Japanese emigration to the planned colony of Bastos in São Paulo, Brazil, in the early twentieth century. She explores the stories of Japanese immigrants who replaced the labor of recently freed slaves on coffee plantations and their descendants' return migration to Japan when the Bastos economy began to suffer in the late twentieth century. Using interviews and fieldwork done in both Bastos and Japan, Kosminsky integrates sociological, historical, political, economic and ethnographic knowledge to analyze the consequences of these temporary labor migrations on the immigrants and their families.

Japan - Restless Competitor Malcolm Trevor, 2013-12-16 In this important new and controversial study about the nature and focus of the Japanese economic agenda, the author argues forcefully that the official mind set of leading bureaucrats, top politicians and big business makes it virtually impossible for the western industrialized world to do business on an equal footing. Put simply, it is a question of western free market economics facing Japanese economic nationalism, which is by its very nature both an expansive and a protectionist ideology. International observers continue to ask: is Japan changing or more forcefully, is Japan capable of change? Notions of reform and restructuring are today part of the Japanese lexicon but appear to hold little substance. Trevor argues that any western notion of Japan changing fundamentally, i.e. adopting western or Anglo Saxon philosophies, is facile, completely unrealistic. This book is for everyone who wonders what motivates Japan's politico-economic system and whether it is changing.

Marriage and Marriageability Chigusa Yamaura, 2020-07-15 How do the Japanese men and Chinese women who participate in cross border matchmaking, individuals whose only interaction is often just one brief meeting, come to see one another as potential marriage partners? Motivated by this question, Chigusa Yamaura traces the practices of Sino Japanese matchmaking from transnational marriage agencies in Tokyo to branch offices and language schools in China, from initial meetings to marriage, the visa application processes and beyond to marital life in Japan. Engaging issues of colonial history, local norms and the very ability to conceive of another or oneself as marriageable.

Marriage and Marriageability rethinks cross border marriage not only as a form of gendered migration but also as a set of practices that constructs marriageable partners and imaginable marriages Yamaura shows that instead of desiring different others these transnational marital relations are based on the tactical deployment of socially and historically created conceptions of proximity between Japan and northeast China Far from seeking to escape local practices participants in these marriages actively seek to avoid transgressing local norms By doing so on a transnational scale they paradoxically reaffirm and attempt to remain within the boundaries of local marital ideologies The Anime Companion 2 Gilles
