Planning for Learning through Numbers Jenni Clarke, 2012-08-02 Plan for six weeks of learning covering all six areas of learning and development of the EYFS through the topic of numbers The Planning for Learning series is a series of topic books written around the Early Years Foundation Stage designed to make planning easy This book takes you through six weeks of activities on the theme of numbers Each activity is linked to a specific Early Learning Goal and the book contains a skills overview so that practitioners can keep track of which areas of learning and development they are promoting This book also includes a photocopiable page to give to parents with ideas for them to get involved with their children's topic as well as ideas for bringing the six weeks of learning together The weekly themes in this book include finding numbers outdoors musical numbers cooking with numbers arty numbers shopping with numbers and we love numbers This book is a great way to bring numbers and early problem solving and numeracy skills into all areas of the curriculum so children learn about them in a fun and unpressured way

Making Sense of Number Annette Hilton, Geoff Hilton, 2021-09-15 A concise introduction to personal and professional numeracy skills helping readers to become more mathematically competent

Teaching Bilingual and EAL Learners in Primary Schools Jean Conteh, 2012-08-22 A practical text for trainee primary teachers on teaching EAL children across the curriculum

Kinaesthetic Learning in Early Childhood Georgina Barton, Susanne Garvis, 2023-07-07 Strongly grounded in

research and rich with practical examples for educators this book demonstrates the importance and benefits of kinaesthetic learning in young children's learning and development. Kinaesthetic or hands on active learning is extremely important for young children's personal, social and cultural development. Without this kind of learning, children may be at risk of poor behaviour, social development and academic learning outcomes. This book shares concrete examples of authentic kinaesthetic learning experiences across different discipline areas in a range of Early Childhood contexts. The chapters outline practical approaches to kinaesthetic learning in the classroom to help educators to engage young children, covering curriculum areas such as the arts, mathematics, literacy, digital technologies and English as a foreign language. These practical examples are supported by a range of research and theories related to the benefits of kinaesthetic learning for young children as well as authentic classroom data. Written by leading experts in the field, this book shares authentic, appropriate classroom strategies for implementing kinaesthetic learning with young children and will be essential reading for researchers as well as pre and in service educators.

Ways of Learning: A Handbook For Teachers And Students Of The Martial Arts Paul Read, 2014-06-05. Most books on Tai Chi and the Martial Arts focus on exercises. Ways of Learning takes a different approach by asking a simple question: How is any of this going to help me learn what I need to learn, teach what I need to teach? The answers reveal themselves throughout the 18 chapters in this book: How to Find your own Learning Path, How to rediscover the Warrior Spirit, The Art of Yielding, listening and Speaking, Technology and Taoism, Popular Teaching Illusions, Standard Cliches to Avoid, Going Beyond the limits of Copying, Training Checklists for Students and Teachers, Getting your Students to Teach, Forget diagrams and photos of postures. You can get those in class. Here are the ways to bring a new and fresh approach to both learning and teaching.

Learning Tracks Lindy Furby, Jilly Catlow, 2016-02-12. Learning Tracks is an assessment tool to support the planning and assessment of learning for children and young people with severe and complex learning disabilities (SCLD). It was designed by Lindy Furby and Jilly Catlow while teaching at St Crispin's School for children and young people with severe and complex learning disabilities. At the very early stages of learning, the steps that children and young people make can be small but incredibly significant for them and those who teach them. However, it can be problematic to evidence and formally recognise these achievements and plan next steps. Learning Tracks presents a framework to recognise achievement at these early levels and plan for progression through challenge, breadth and application. The Learning Tracks framework for recognising achievement at very early levels of learning can help teachers understand the way their children may be learning. Offers a vocabulary for describing the learning. Offers a structure for planning the learning. When you purchase Learning Tracks, you receive the book that introduces you to the framework and theories underpinning Learning Tracks, describes the curriculum included and demonstrates how it can be implemented in your setting. In addition to this book, you will also receive access to the complete ready-made Learning Tracks assessment tool that can be downloaded online. This is available as a PDF with editable elements and a template you can personalise it to suit.
