Word. Anwar A. Abdullah, 2017-02-24. Amid the rising technicalities of modernism, the heart of humanity has been ripped apart and while religionism is tearing throughout the heart of modernity, everything is hinting at danger to come. Caught amid their dramatic collide, we moderns have been left in a de facto despair. And while the glory each claimed seems a key factor for more tragedies, they are almost overshadowed by the merging supremacy of money, life, mammonism. They are all letting us down and parts us moderns from our trustworthy dream of truth, beauty and justice. Further, it is impossible to read far in the underlying factors and related elements of the coming crises and all of them are worrisome: either of reorganization of tender nature of reprogramming of living cells and of current technotronic engineering of time via digitized machines without finding that they will certainly shake the good grounds of faith and beliefs everywhere. De-risking the inevitable and while working around such a failure, we moderns have to humanly build on our own strength. **Official Gazette of the United**
