Natural Resource Investment and Africa's Development Francis N. Botchway,2011-01-01 This book makes a significant contribution to the literature on natural resource law and governance by engaging specifically with the issues arising in the African region It covers a wide spectrum of issues that are key to the sustainable use of natural resources in the region thus making it an important resource for anyone interested in natural resource governance and economic development in the African region Philippe Cullet University of London UK This well researched book covers a wide spectrum of important issues that are central to investment in natural resources and ultimately economic development of Africa Francis Botchway and the expert contributors analyse the relationships between good governance and resource management as well as the existing commercial and financial agreements The environmental implication of resource exploitation and the international dimensions of the industry are also explored in this insightful study Each comprehensive and concise contribution highlights the importance of transparency and equity in investment and management of natural resources **Natural Resource Investment and Africa s Development** is essential material for scholars and students of development environmental law international economic law and dispute resolution as well as any international investor in natural resources *Managing Natural Resources for Development in Africa* Washington Odongo Ochola,P. C. Sanginga,Isaac Bekalo,2010 The complex and dynamic interlinks between natural resource management NRM and development have long been recognized by national and international research and development organizations and have generated voluminous literature However much of what is available in the form of university course books practical learning manuals and reference materials in NRM is based on experiences from outside Africa *Managing Natural Resources for Development in Africa* A Resource Book provides an understanding of the various levels at which NRM issues occur and are being addressed scientifically economically socially and politically The book s nine chapters present state of the art perspectives within a holistic African context The book systematically navigates the tricky landscape of integrated NRM with special reference to Eastern and Southern Africa against the backdrop of prevailing local national regional and global social economic and environmental challenges The authors wide experience the rich references made to emerging challenges and opportunities and the presentation of different tools principles approaches case studies and processes make the book a rich and valuable one stop resource for postgraduate students researchers policymakers and NRM practitioners The book is designed to help the reader grasp in depth NRM perspectives and presents innovative guidance for research design and problem solving including review questions learning activities and recommended further reading The book was developed through a

writeshop process by a multi disciplinary team of lecturers from the University of Nairobi Egerton University Kenyatta University the University of Zimbabwe the University of Malawi Makerere University and the University of Dar es Salam In addition selected NRM experts from regional and international research organizations including the World Agroforestry Center ICRAF the Africa Forest Forum RUFORUM IIRR and the International Development Research Centre IDRC participated in the writeshop and contributed material to the book

Natural Resource Sovereignty and the Right to Development in Africa Carol Chi Ngang, Serges Djoyou Kamga, 2021-08-25 This book explores the nexus between natural resources ownership and the right to development in Africa The right to sovereignty over natural resources and the right to development are recognised and protected in an extensive framework of international regional and domestic instruments They guarantee people s entitlement to fully and freely utilise their natural resources as a means of subsistence and for economic social and cultural development Yet despite the abundance of natural resources in Africa a majority of the people on the continent remain largely impoverished This book articulates the central argument that to achieve the right to development in Africa requires appropriate governance of the continent s natural resources to which the people of Africa are guaranteed sovereign ownership With case study illustrations from Zimbabwe Ghana Ethiopia and the Democratic Republic of Congo chapters explore the normative measures specific guarantees and community entitlements to natural resources for the realisation of the right to development The book will be an invaluable guide to scholars and postgraduate students of Natural Resources Development and African studies as well as policymakers and practitioners in these areas

Governing Natural Resources for Africa's Development Hany Gamil Besada, 2016-09-13 Bringing together some of the world s leading thinkers and policy experts in the area of natural resource governance and management in Africa this volume addresses the most critical policy issues affecting the continent s ability to manage and govern its precious resources The narrative of the book is solutions driven as experts weigh on specific issues within the context of Africa s natural resource governance and offer appropriate policy recommendations on how to best manage the continent s resources This is a must read for government policy makers in industrialized economies and more importantly in Africa and emerging economies as well as for academic researchers working in the field extractive companies operating on the continent extractive industry and trade associations and multilateral and donor aid institutions

Fiscal Policy and the Natural Resources Curse Paul Mosley, 2017-02-17 It is widely accepted that natural resource wealth especially in the form of oil and minerals can be a key factor in inhibiting economic development Many of the countries that are richest in natural resources including oil metals and diamonds are amongst the world s poorest Why Fiscal Policy and the Natural Resources Curse re examines this ancient unsolved puzzle asking why many governments of natural resource intensive countries are incapable in a globalised world of dealing with the natural resource curse This book offers a detailed analysis of the power relationships which underpin the natural resource curse using both statistical analysis and country case studies from Africa and Latin America to pinpoint the

strategies that have enable developing countries to break out of the poverty trap The book differs from other works on this subject as it not only identifies the issues at stake but also offers solutions in the form of a series of suggested policy measures The work focusses in particular on fiscal escape routes namely measures to develop and diversify the tax system and to reallocate and target public expenditure This volume will be of great interest to scholars of economic development the economics of natural resources and economic growth as well as all those with an interest in development global politics and anti poverty policies

Governance, Natural Resources and Post-Conflict Peacebuilding Carl Bruch,Carroll Muffett,Sandra Nichols,2016-04-07 When the guns are silenced those who have survived armed conflict need food water shelter the means to earn a living and the promise of safety and a return to civil order Meeting these needs while sustaining peace requires more than simply having governmental structures in place it requires good governance Natural resources are essential to sustaining people and peace in post conflict countries but governance failures often jeopardize such efforts This book examines the theory practice and often surprising realities of post conflict governance natural resource management and peacebuilding in fifty conflict affected countries and territories It includes thirty nine chapters written by more than seventy researchers diplomats military personnel and practitioners from governmental intergovernmental and nongovernmental organizations The book highlights the mutually reinforcing relationship between natural resource management and good governance Natural resource management is crucial to rebuilding governance and the rule of law combating corruption improving transparency and accountability engaging disenfranchised populations and building confidence after conflict At the same time good governance is essential for ensuring that natural resource management can meet immediate needs for post conflict stability and development while simultaneously laying the foundation for a sustainable peace Drawing on analyses of the close relationship between governance and natural resource management the book explores lessons from past conflicts and ongoing reconstruction efforts illustrates how those lessons may be applied to the formulation and implementation of more effective governance initiatives and presents an emerging theoretical and practical framework for policy makers researchers practitioners and students Governance Natural Resources and Post Conflict Peacebuilding is part of a global initiative to identify and analyze lessons in post conflict peacebuilding and natural resource management The project has generated six books of case studies and analyses with contributions from practitioners policy makers and researchers Other books in this series address high value resources land water livelihoods and assessing and restoring natural resources

Sustaining Natural Resources in a Changing Environment Linda Hantrais,Ruth Kattumuri,Ashley Thomas Lenihan,2020-06-09 Climate change and environmental degradation have intensified the pressures on crucial resources such as food and water security and air quality In this collection academic researchers and practitioners who have lived and worked in countries as geographically and culturally diverse as Brazil China India Ghana Palestine Uganda and Venezuela draw on their wide ranging international and inter sectoral experience to offer valuable comparative

insights into the relationship between research and evidence based policy for sustaining natural resources Their contributions provide a novel mix of disciplinary perspectives ranging across geography ecology social policy the political economy philosophy international development engineering technology architecture and urban planning They examine the institutions involved in generating and mediating evidence about the sustainability of natural resources in a changing environment and the different methodologies employed in collecting and assessing evidence informing policy and contributing to governance The authors demonstrate not only that social science evidence on governance and policy implementation to sustain natural resources must complement natural science inputs but also that local communities must be an integral part of any programme development This book was originally published as a special issue of Contemporary Social Science
