Aristotelian Naturalism Martin Hähnel,2020-04-06 This book features many of the leading voices championing the revival of Neo Aristotelian Ethical Naturalism AN in contemporary philosophy It addresses the whole range of issues facing this research program at present Coverage in the collection identifies differentiations details standpoints and points out new perspectives This volume answers a need AN is quite new to contemporary philosophy despite its deep roots in the history of philosophy As yet there are many unanswered questions regarding its relation to contemporary views in metaethics It is certainly not equivalent to dominant naturalistic approaches to metaethics in Anglophone philosophy Indeed it is not obviously incompatible with some approaches identified as nonnaturalistic Further there are controversies regarding the views of the first wave of virtue revivalists The work of G E M Anscombe and Philippa Foot is frequently misunderstood despite the fact that they are important figures in the contemporary revival This volume details a robust approach to ethics by situating it within the context of human life It will help readers to better understand how AN raises deep questions about the relation of action and its evaluation to human nature Neo Aristotelians argue that something like the traditional cardinal virtues practical wisdom temperance justice and courage are qualities that perfect human reason and desire Naturalism and Religion Kai Nielsen,2011-04-29 This elucidation and defense of naturalism argues that an uncompromising secular

orientation is the best framework for the search for meaning and interprets religion in purely naturalistic terms Part One seeks to demonstrate that religious symbols arise from facts about human beings and the societies in which they live specifically our needs fears and aspirations Part Two examines arguments for and against naturalism including the defenses of naturalism by Sidney Hook Ernest Nagel Antony Flew and critical reactions to their views The forceful and rigorously analytical case made by Jean Hampton against naturalism is also examined resulting in a clarification of the substantial and sound methodological grounds for naturalism and atheism Part Three considers the strongest intellectual challenge to secularism and naturalism namely that of Ludwig Wittgenstein and some of his followers Norman Malcolm D Z Phillips Hilary Putnam Rush Rhees and Peter Winch Nielsen concludes that none of these critiques diminish the cogency and viability of naturalism as the most reasonable basis for viewing our world today **Naturalism and Normativity** Mario De Caro, David Macarthur, 2010 Normativity concerns what we ought to think or do and the evaluations we make For scientific naturalists the moral is reached by reducing the normative to the nonnormative For orthodox nonnaturalists the moral is found in the transcendent realm of norms This book challenges both sides of this debate The Naturalists and the Supernatural William M.
