Nature In Chinese Art:

Longing for Nature: Reading Landscapes in Chinese Art Kim Karlsson, Alfreda Murck, Ching-Ling Wang, 2020 The secret language of Chinese landscape painting A genre dating back more than 1 000 years China s landscape painting tradition reflects all of its cultural and intellectual history and its representational language famously follows its own rules What at first glance seem to be idyllic ink wash pictures actually depict far more than romantic landscapes Through subtle allusions and references Chinese landscape painters were able to convey a whole range of messages from social positions to political opposition all the way to philosophical observations and very personal feelings This splendid illustrated volume unlocks these codes and juxtaposes important historical works with landscape paintings by internationally renowned modern and contemporary artists The dialogue between past and present reveals surprising links but also ruptures and conflicts

Chinese Ways of Seeing and Open-Air Painting Yi Gu, 2021-02-01 How did modern Chinese painters see landscape Did they depict nature in the same way as premodern Chinese painters What does the artistic perception of modern Chinese painters reveal about the relationship between artists and the nation state Could an understanding of modern Chinese landscape painting tell us something previously unknown about art political change and the epistemological and sensory regime of twentieth century China Yi Gu tackles these questions by focusing on the rise of open air painting in modern China Chinese artists almost never painted outdoors until the late 1910s when the New Culture Movement prompted them to embrace direct observation linear perspective and a conception of vision based on Cartesian optics The new landscape practice brought with it unprecedented emphasis on perception and redefined artistic expertise Central to the pursuit of open air painting from the late 1910s right through to the early 1960s was a reinvigorated and ever growing urgency to see suitably as a Chinese and to see the Chinese homeland correctly Examining this long overlooked ocular turn Gu not only provides an innovative perspective from which to reflect on complicated interactions of the global and local in China but also calls for rethinking the nature of visual modernity there **The Artist and the Landscape** Richard Edwards, **Nature and Heaven in the Xunzi** Edward J.
