Nature Of Stuttering

James Hunt

Nature Of Stuttering:

The Nature of Stuttering Charles Van Riper, 1971 Stuttering Barry Guitar, 2006 This new Third Edition provides a comprehensive overview of the etiology and development of stuttering and details appropriate approaches to accurate assessment and treatment A new chapter on related fluency disorders discusses evaluation and treatment of stuttering associated with neurological disease or trauma psychological disturbance or mental retardation and explains how developmental stuttering can be differentiated from these conditions This edition also features a new chapter on preliminaries to assessment as well as new information on differential diagnosis of stuttering versus other fluency disorders Appendices include forms for diagnosis and evaluation **The nature of stuttering** C. Van Riper, 1980 **Nature and Treatment of Stuttering** Richard Frederick Curlee, William Hughes Perkins, 1984 **Stammering and Stuttering** James Hunt, 1861 Evidence-Based Treatment of Stuttering Anne K. Bothe, 2004-07-19 This book is the result of a State of the Art Conference held at the University of Georgia dedicated to the evidence based treatment of stuttering An international group of prominent fluency researchers and clinicians were invited to present and discuss current data and issues related to the treatment of stuttering The topic was defined to include evidence about stuttering evidence about stuttering treatment and discussions of how that evidence should guide the continuing research and practice The explicit link between empirical evidence and suggestions for clinical practice is the goal of the book The book begins by addressing the notion of evidence based practice and considers its implications for stuttering treatment Part II presents the intersection of the nature of stuttering the theories of stuttering and the implications of nature theory and other knowledge for stuttering treatment decisions Part III provides two of the many measurement issues facing stuttering treatment followed by Part IV which is devoted to the quality of treatment research evidence for specific treatments and in terms of some more general methodological and professional issues The final part summarizes the clinical recommendations made throughout the book and discusses evidence based outcomes focused clinical decisions for stuttering These chapters are intended to provide state of the art information to researchers clinicians and students who are interested in developing identifying or using the best possible evidence based treatments for stuttering **The Treatment of Stuttering in the Young School Aged Child** Roberta Lees, 2005-03-11 This practical text brings together well known writers from the UK USA and Australia It sets out to discuss the assessment and treatment of the young school aged child who stutters aged approx 7 to 12 years A number of differing treatment approaches for this client group are presented in the one volume The contributors as well as describing their treatment approaches have considered the theoretical models on which their approaches are based and ways of measuring outcomes an important topic in an age of evidence based practice In order to gain a more comprehensive view of the school aged child one chapter considers epidemiology of stuttering whilst two chapters address the issue of concomitant problems such as other language problems and ADHD This text is written for students and clinicians working with children

who stutter It will also be of interest to researchers The Treatment of Stuttering Charles Van Riper,1973

Evidence-Based Treatment of Stuttering Anne K. Bothe,2004-07-19 This edited volume collects in depth chapters about a wide variety of topics important to data based stuttering treatment and stuttering treatment research creating the first book to address current knowledge about stuttering in the context of current d Approaches to the Treatment of Stuttering Peggy Dalton,2018-10-26 In the years prior to publication cures for stuttering seemed to appear constantly but many were of limited value were poorly evaluated and gave only a temporary alleviation that was not transferred to daily life More responsible clinicians produced publications expounding one particular approach to therapy but less was available giving a balanced overview which was of practical help to therapists Originally published in 1983 this book aimed to provide such an overview with a focus on practical intervention rather than on theory The need for careful assessment is particularly stressed and also the need for flexibility in the choice of treatment for any one client Changes in fluency are looked at in relation to the effects they might have on the person s life as a whole and factors involved in the maintenance of this change are discussed In addition adjuncts to speech therapy such as drugs hypnosis and various forms of masking are evaluated Issues of the training of therapists are raised and suggestions made as to the nature of the therapeutic relationship when working with people who stutter
