THE NATURE OF THE CROWN

A Legal and Political Analysis

Edited by
**MAURICE SUNKIN AND
SEBASTIAN PAYNE**

Nature Of The Crown A Legal And Political Analysis

Peter Leyland, Gordon Anthony

Nature Of The Crown A Legal And Political Analysis:

The Nature of the Crown Maurice Sunkin, Sebastian Payne (senior lecturer in law.), 1999 This book explores the nature of the Crown in its legal and political context Here the term The Crown is being used not as a direct reference to the Queen but as a reference to the central power of the State which exercises legal and political authority It is a surprising fact that the nature of the Crown has not been the object of extensive literature with pride of place on constitutional law courses The nature of the Crown has been taken for granted in part because it is so fundamental and in part because many academics have no idea what the term The Crown amounts to This book aims to redress this state of affairs by drawing together in one book a collection of essays that explores what the Crown is or might be and the critical issues relating to it The Crown refers to the authority of Government and the very entity of Government All the people going about the Governments business Ministers of the Crown and civil servants do so under the cloak of the Crown with its powers and immunities The idea of democracy may appear central to our political arrangements but the legal facts are that the Crown subsists not merely as the power it is the state If the legal facts of our political arrangements clash with our individual beliefs about democracy then that clash is of the highest importance

Textbook on Administrative Law Peter Leyland, Gordon Anthony, 2013 The seventh edition of Textbook on Administrative Law continues to provide students with an accessible and stimulating guide to the subject Practical in approach the authors concentrate on fully analysing core topics while at the same time setting them within a contextual and thematic framework

Government Accountability Judith Bannister, Gabrielle Appleby, Anna Olijnyk, Joanna Howe, 2014-11-21 Government Accountability offers an accessible introduction to administrative law in Australia by reference to its guiding principle accountability

The Role of the Solicitor-General Gabrielle Appleby, 2016-06-16 Behind every government there is an impressive team of hard working lawyers In Australia the Solicitor General leads that team A former Attorney General once said The Solicitor General is next to the High Court and God And yet the role of government lawyers in Australia and specifically the Solicitor General as the most senior of government lawyers is under theorised and under studied The Role of the Solicitor General Negotiating Law Politics and the Public Interest goes behind the scenes of government drawing from interviews with over 45 government and judicial officials to uncover the history theory and practice of the Australian Solicitor General The analysis reveals a role that is of fundamental constitutional importance to ensuring both the legality and the integrity of government action thus contributing to the achievement of rule of law ideals The Solicitor General also works to defend government action and prosecute government policies in the court and thus performs an important role as messenger between the political and judicial branches of government But the Solicitor General s position as both an internal integrity check on government and an external warrior for government gives rise to competing pressures between the law politics and the public interest The office of the Solicitor General in Australia has evolved many characteristics across the almost two centuries of its history in an attempt to navigate these tensions These

pressures are not unique to the Australian context The understanding of the Australian position provided by this book is informed by and will inform comparative analysis of the role of government lawyers across the world **English**

Administrative Law from 1550 Paul Craig,2024 English Administrative Law from 1550 systematically elaborates and contextualizes the origins of administrative law It upends conventional thinking charting the development of administrative law from the mid 16th century with an in depth examination of primary legal materials statute and case law

Constitutional Paradigms and the Stability of States Noel Cox,2016-05-23 This book examines the influence of constitutional legal paradigms upon the political stability and viability of states It contributes to the literature in the field by focussing on how constitutional flexibility may have led to the rise of successful states and to the decline of unsuccessful states by promoting stability Divided into two parts the book considers theories of the rise and fall of civilizations and individual states explains the concept of hard and soft constitutions and applies this concept to different types of state models A series of international case studies in the second part of the book identifies the key dynamics in legal political and economic history and includes the UK US New Zealand and Eastern Europe **The Constitutional Legitimacy of Law**

Officers in the United Kingdom Conor McCormick,2022-07-14 This book provides a detailed account of each law officer s functions and draws on that account as the basis for a conceptual analysis of their constitutional legitimacy In recent years the constitutional legitimacy of law officers has been questioned repeatedly because of recurring controversies surrounding the discharge of their varied functions Indeed it has become increasingly clear that those functions enable law officers to play a highly influential part in the regulation and exercise of public power throughout the United Kingdom McCormick argues that the most persuasive framework for analysing the offices which make up this diverse regime involves concentrating on the constitutional values of independence accountability and trust which underpin it Both aspects of the book namely the explanation of individual functions and the conceptual analysis of collective legitimacy are written in a holistic way which encompasses critical analyses about the Attorney General and Solicitor General for England and Wales the Counsel General for Wales the Lord Advocate Solicitor General and Advocate General for Scotland as well as the Attorney General and Advocate General for Northern Ireland *Chinese (Taiwan) Yearbook of International Law and Affairs, Volume 35 (2017)* Ying-jeou Ma,2018-11-26 The Chinese Taiwan Yearbook of International Law and Affairs includes articles and international law materials relating to the Republic of China on Taiwan and contemporary Asia Pacific issues This volume provides insight into the South China Sea Arbitration cross strait relations and Taiwan s New Southbound Policy Questions and comments can be directed to the editorial board of the Yearbook by email at yearbook nccu edu tw Constitutional & Administrative Law Hilaire Barnett,2011-05-30 Constitutional and Administrative Law Public Law is a dynamic and challenging area of law which has an impact on all of our lives Whenever a government is elected a new piece of legislation is passed or a citizen s rights are abused it is Public Law which provides the legal framework within which government and

administration functions Hilaire Barnett's classic textbook equips students with an understanding of the constitution's past present and future by analysing and illustrating the political and socio historical contexts which have shaped the major rules and principles of public law as well as ongoing constitutional reform Having undergone a rigorous editing process to offer a more concise account of public law today contemporary developments covered in this edition include the UK's first coalition government for nearly 60 years and recent proposals to introduce fixed term parliaments and electoral reform Key learning features include introductory chapter overviews outlining the topics and concepts covered short chapter summaries to distil and reflect upon the main points raised marginal cross references which help students to recognise connections across topics a comprehensive companion website featuring enhanced coverage and a pathway for further study across a variety of topics Mapped to the common course outline this textbook offers full coverage of the Public Law syllabus Written in a clear and understandable style Constitutional and Administrative Law is an invaluable resource for every student of Public Law

This book delves into Nature Of The Crown A Legal And Political Analysis. Nature Of The Crown A Legal And Political Analysis is an essential topic that must be grasped by everyone, from students and scholars to the general public.
