The Nature of the Early Ottoman State Heath W. Lowry, 2003-03-17 A revisionist interpretation of the early origins of the Ottoman Empire *The Nature of the Early Ottoman State* Heath W. Lowry, 2003-03-17 A revisionist interpretation of the early origins of the Ottoman Empire **The Nature of the Early Ottoman State** Heath W. Lowry, 2012-02-01 Drawing on surviving documents from the fourteenth and fifteenth centuries *The Nature of the Early Ottoman State* provides a revisionist approach to the study of the formative years of the Ottoman Empire Challenging the predominant view that a desire to spread Islam accounted for Ottoman success during the fourteenth century advance into Southeastern Europe Lowry argues that the primary motivation was a desire for booty and slaves The early Ottomans were a plundering confederacy open to anyone Muslim or Christian who could meaningfully contribute to this goal It was this lack of a strict religious orthodoxy and a willingness to preserve local customs and practices that allowed the Ottomans to gain and maintain support Later accounts were written to buttress what had become the self image of the dynasty following its incorporation of the heartland of the Islamic world in the sixteenth century Applying Ibn Khaldūn Syed Farid Alatas, 2014-06-05 The writings of Ibn Khald n particularly the Muqaddimah Prolegomenon have rightly been regarded as being sociological in nature For this reason Ibn Khald n has been widely regarded as the founder of sociology or at least a precursor of modern sociology While he was given this recognition however few works went beyond proclaiming him as a founder or precursor to the systematic application of his theoretical perspective to specific historical and contemporary aspects of Muslim societies in North Africa and the Middle East The continuing presence of Eurocentrism in the social sciences has not helped in this regard it often stands in the way of the consideration of non Western sources of theories and concepts This book provides an overview of Ibn Khald n and his sociology discusses reasons for his marginality and suggests ways to bring Ibn Khald n into the mainstream through the systematic application of his theory It moves beyond works that simply state that Ibn Khald n was a founder of sociology or provide descriptive accounts of his works Instead it systematically applies Khald n s theoretical perspective to specific historical aspects of Muslim societies in North Africa and the Middle East successfully integrating concepts and frameworks from Khald nian sociology into modern social science theories Applying Ibn Khald n will be of interest to students and scholars of sociology and social theory The State and Kurds in Turkey M. Heper, 2007-11-09 Uniquely Metin Heper suggests a theory of acculturation rather than assimilation captures the nature of State Kurd interaction in Turkey by not leaving any part of that interaction unaccounted for Islam, Literature and Society in Mongol Anatolia A. C. S. Peacock, 2019-10-17 A new understanding of the transformation of Anatolia to a Muslim society in the thirteenth fourteenth centuries based on previously unpublished sources **A History of the Islamic World, 600-1800** Jo Van Steenberg, 2020-08-11 A History of the Islamic World 600 1800 supplies a fresh and unique survey of the formation of the Islamic world and the key developments that characterize this broad region s history from late antiquity up to the

beginning of the modern era Containing two chronological parts and fourteen chapters this impressive overview explains how different tides in Islamic history washed ashore diverse sets of leadership groups multiple practices of power and authority and dynamic imperial and dynastic discourses in a theocratic age A text that transcends many of today s popular stereotypes of the premodern Islamic past the volume takes a holistically and theoretically informed approach for understanding interpreting and teaching premodern history of Islamic West Asia Jo Van Steenbergen identifies the Asian connectedness of the sociocultural landscapes between the Nile in the southwest to the Bosphorus in the northwest and the Oxus Amu Darya and Jaxartes Syr Darya in the northeast to the Indus in the southeast This abundantly illustrated book also offers maps and dynastic tables enabling students to gain an informed understanding of this broad region of the world This book is an essential text for undergraduate classes on Islamic History Medieval and Early Modern History Middle East Studies and Religious History Trajectories of State Formation across Fifteenth-Century Islamic West-Asia Jo Van

Steenbergen,2020-06-15 The concept practice institution and appearance of the state have been hotly debated ever since the emergence of history as a discipline within modern scholarship The field of medieval Islamic history however has remained aloof from most of these debates Rather it tends to take for granted the particularity of dynastic trajectories within slow changing bureaucratic contexts Trajectories of State Formation promotes a more critical and connected understanding of state formation in the late medieval Sultanates of Cairo and of the Timurid Turkmen and Ottoman dynasties Projecting seven case studies onto a broad canvas of European and West Asian research this volume presents a trans dynastic reconstruction interpretation and illustration of statist trajectories across fifteenth century Islamic West Asia The contributors are Georg Christ Kristof D hulster Jan Dumolyn Albrecht Fuess Dimitri J Kastritsis Beatrice Forbes Manz John L Meloy Jo Van Steenbergen and Patrick Wing **Osman's Dream** Caroline Finkel,2012-07-19 The Ottoman chronicles recount that the

first sultan Osman dreamt of the dynasty he would found a tree fully formed emerged from his navel symbolising the vigour of his successors and the extent of their domains This is the first book to tell the full story of the Ottoman dynasty that for six centuries held sway over territories stretching at their greatest from Hungary to the Persian Gulf and from North Africa to the Caucasus Understanding the realization of Osman s vision is essential for anyone who seeks to understand the modern world Empire of Difference Karen Barkey,2008-06-23 This book is a comparative study of imperial organization and longevity that assesses Ottoman successes as well as failures against those of other empires with similar characteristics Barkey examines the Ottoman Empire s social organization and mechanisms of rule at key moments of its history emergence imperial institutionalization remodeling and transition to nation state revealing how the empire managed these moments adapted and averted crises and what changes made it transform dramatically The flexible techniques by which the Ottomans maintained their legitimacy the cooperation of their diverse elites both at the center and in the provinces as well as their control over economic and human resources were responsible for the longevity of this particular negotiated empire Her

analysis illuminates topics that include imperial governance imperial institutions imperial diversity and multiculturalism the manner in which dissent is handled and or internalized and the nature of state society negotiations
