Klein, 2014-05-22 First published in 1980 This is a collection of lectures around Professor Emeritus Don O Hebb of Dalhousie University on the major trends in cognitive psychology It includes essays on Hebb's ideas and impact on current psychological theorizing his structure of thought and a collection under the section of Information Processing Analysis

Imagery, Memory and Cognition (PLE: Memory) John C. Yuille, 2014-05-09 Originally published in 1983 the 14 chapters in this volume are based upon presentations made to a conference held at the University of Western Ontario in June 1981 The primary purpose of that conference was to mark the 10th anniversary of the publication of Allan Paivio's text *Imagery and Verbal Processes* and to acknowledge the continuing contribution that Paivio was making to imagery research and theory at the time His landmark book had been the major publication in the field of imagery and during the decade prior to this volume Paivio's theorizing and research dominated the investigation of imaginal processes It was felt the most appropriate way to honor his achievements and activities was to hold a conference on current developments in imagery research and theory at the time *The Smartness Mandate* Orit Halpern, Robert Mitchell, 2023-01-10 Over the last half century smartness the drive for ubiquitous computing has become a mandate a new mode of managing and governing politics economics and the environment Smart phones Smart cars Smart homes Smart cities The imperative to make our world ever smarter in the face of increasingly complex challenges raises several questions What is this smartness mandate How has it emerged and what does it say about our evolving way of understanding and managing reality How have we come to see the planet and its denizens first and foremost as data collecting instruments In *The Smartness Mandate* Orit Halpern and Robert Mitchell radically suggest that smartness is not primarily a technology but rather an epistemology Through this lens they offer a critical exploration of the practices technologies and subjects that such an understanding relies upon above all artificial intelligence and machine learning The authors approach these not simply as techniques for solving problems of calculations but rather as modes of managing life human and other in terms of neo Darwinian evolution distributed intelligences and resilience all of which have serious implications for society politics and the environment The smartness mandate constitutes a new form of planetary governance and Halpern and Mitchell aim to map the logic of this seemingly inexorable and now naturalized demand to compute to illuminate the genealogy of how we arrived here and to point to alternative imaginaries of the possibilities and potentials of smart technologies and infrastructures Treatise on Basic Philosophy M.

Comparative Psychology Gary Greenberg, Maury M. Haraway,1998 This volume traces the modern critical and performance history of this play one of Shakespeare s most loved and most performed comedies The essay focus on such modern concerns as feminism deconstruction textual theory and queer theory *A Psychology for People of God* E. Rae Harcum,2012-04-19 This book combats the anti religious sentiment of some psychologists It argues that Christians do not have to give up their religious faith to keep the contributions of science A science compatible with religion accepts that human beings have freedom of will to select behaviors and that all methods of studying human behavior are acceptable Both of these premises are accepted by a modern view of science which recognizes its inherent subjectivity E Rae Harcum explicitly asserts the important role of spirituality in psychology especially in psychotherapy The book confronts the relation between the human body and its non material parts the mind and spirit and provides a way of looking at these metaphysical issues A Psychology for People of God promotes the need of the Christian to love and to care for his or her fellows After all fitness for survival entails the willingness to serve *Neurobiology of Learning and Memory* James L. McGaugh, Gordon L. Shaw,1990 This volume consists of 82 classic and important contributions to the basic neurobiology of learning and memory Included are historical articles as well as articles on developmental plasticity hormones and memory long term potentiation electrophysiology of memory biochemistry of memory morphology of memory invertebrate models and features of animal and human memory This is a companion volume to Brain Theory Reprint Volume in which articles on mathematical models of memory are presented
