It covers all the extensive laws introduced in recent years to protect and promote the natural world, examining the operation of the legislation in practice.      Nature Conservation in Europe Graham Tucker, 2023-05-25 A detailed description and analysis of European nature conservation and its achievements, focussing on the EU and last forty years.      *The Privatisation of Biodiversity?* Colin T. Reid, Walters Nsoh, 2016-08-26 Current regulatory approaches have not prevented the loss of biodiversity across the world. This book explores the scope to strengthen conservation by using different legal mechanisms such as biodiversity offsetting, payment for ecosystem services and conservation covenants, as well as tradable development rights and taxation. The authors discuss how such mechanisms introduce elements of a market approach as well as private sector initiative and resources. They show how examples already in operation serve to highlight the design challenges, legal, technical and ethical, that must be overcome if these mechanisms are to be effective and widely accepted.      *The New Nature Conservation Law of the RSFSR*.
