Batchelor, 1975 The Navy of the American Revolution Charles Oscar Paullin, 2015-07-13 Excerpt from *The Navy of the American Revolution Its Administration Its Policy and Its Achievements* Several narrative accounts of the navy of the American Revolution have been written These usually form the introductory part of a history of the American Navy since 1789 The earliest of these accounts is that of Thomas Clark published in 1814 and probably the best that of James Fenimore Cooper first printed in 1839 Later narratives are rather more popular than Cooper s Many sources of information which were not accessible to the earlier writers and were not much used by the later were drawn upon in the writing of this book Moreover the information that is here presented is of a somewhat different sort from that of previous writers and the method of treatment is new This book is written from the point of view of the naval administrators hitherto historians have written from the point of view of the naval officers Their narratives treat almost exclusively of the doings at sea the movements of armed vessels and the details of sea fights They have the advantage of dealing primarily with picturesque and sometimes dramatic events About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any
