G. James Royce, 2005-02-01 In this uniquely spiritual work of science fiction author G James Royce reveals the motivation for Deos to create our universe initiate organic life and shape the evolution of the human race Evolution in the Here and Now Nigel Barber, 2020-05-12 This book argues that the two most influential theories on modern human behavior cultural determinism and evolutionary psychology are quite inadequate Cultural deterministic theories deny personal experience and too often fall prey to anthropocentric bias Most evolutionary psychologists argue that humans are shaped to fit our ancestral past effectively freezing us in time Evolution in the Here and Now looks to new factors like social learning and adaptation to explain the idiosyncrasies of human behavior in a more complete and nuanced way Evolutionary psychologist Nigel Barber shows that human behavior is uniquely crafted by the surrounding environment in underappreciated and surprising ways For example commerce and agriculture can be interpreted as adaptive alternatives to hunting and gathering Irrigated farming was a response to land scarcity which ultimately permitted the rise of early cities This cross disciplinary approach unites the missing ingredients that have for so long impeded our understanding of our own species and its variation across cultures Evolution in the Here and Now is a bold step forward in the evolutionary understanding of human behavior that marries our biology with our history in ways that have never been attempted before

ecological limits for modern progressive politics Each chapter outlines leverage points for municipal engagement in local and regional contexts Systems theory and community development perspectives are used to explore under appreciated avenues for the kind of social and cultural change that would be necessary for any accommodation between modernity and ecological limits Drawing on ideas from H T Odum Herman Daly Zigmunt Bauman and many others this book provides guiding research for a convergence between North and South that is bottom up household centred and predicated on a re emerging domain of Livelihood In each chapter the authors provide recommendations for reconfiguring the UN s SDGs as Ecological Livelihood Goals a framework for sustainable development in an era of limits This book will be of great interest to students and scholars of ecological economics socio ecological systems political economy international and community development global governance and sustainable development The SAGE Handbook of Family Business Leif Melin, Mattias
