

A total of 493 artifacts were examined. Objects included: 193 projectile points of 8 types, scrapers, drills, knives, metates, pestles, and hammerstones, a total of 286 stone artifacts; 21 bone objects; 3 olive shell beads, 28 objects of wood including arrow foreshafts and shafts, a fire drill, and an awl; 143 objects of plant fiber, including basketry and mat fragments and cordage; 3 clay objects, and 9 miscellaneous objects including buckskin and sinew, 2 seed beads, and 2 quartz crystals.

There was a large amount of mammal bone. Identified fragments include coyote, bobcat, ground squirrel, gopher, wood rat, rabbit, deer, mountain sheep, and domestic cattle. Domestic cattle is represented by one tooth found in the upper 6 inches of the shelter. Vegetal remains identified include oak, manzanita, Sierra juniper, camas, lily, dogwood, buckeye, horsetail, round tule, and pine resin.

The authors conclude that the shelter was used occasionally by hunting parties or wandering families. The artifacts are similar in type to those of the surrounding ethnographic groups of the late prehistoric and early historic periods. The shelter may have been in use for 100 or more years. A trait list comparison shows that of 39 traits, 32 were shared with the Achomawi, 31 with the Modoc, 27 with the Atsugewi, 25 with Eastern Shasta, 21 with Western Shasta, and 19 with the Wintu. The basketry of the shelter showed specific correspondences with the Achomawi and Modoc. This suggests that the shelter may have been used by hunting parties from the east or northeast, or that the inhabitants were Eastern Shasta strongly influenced by their neighbors across the mountains.

The plates show the shelter and a plan of the shelter, projectile point types, basketry and matting, objects of wood, and examples of cordage.

Nomlaki Ethnography. Walter Goldschmidt. UCPAAE 42 (No. 4): 303-443, University of California Press, Berkeley and Los Angeles, 1951. Pp. viii + 140, 3 text figs., 1 map. \$1.50.

For archaeologists the notable feature of this thorough and undoubtedly excellent report on the Central Wintun is the concise summary of pertinent archaeology, in the nearby Patwin territory, with several comments on traits which can be traced into ethnology, thus relating the prehistoric material to living people. "There is considerable conformity between the ethnological data on the Nomlaki and the culture pattern of the Late period described by the archaeologists . . . no startling disconformities . . . it may be assumed that a local development (possibly stimulated from the outside) took place during the centuries preceding the first white contact, gradually forming into the culture known from ethnographic accounts. Another aspect of the archaeological record is highly suggestive of the kind of historical changes that occurred. Certain traits in the Late phase are associated with the wealth complex among the Nomlaki: . . . the wealth complex was associated with the secret society and the pattern of occupational specializing. This wealth complex was an institutional development that has every appearance of having been superimposed upon an earlier and simpler pattern of familistic-village organization . . . into the area from the south, . . . where the secret society was more highly developed. Furthermore, the analysis of the Nomlaki secret society made in chapter ii shows it to be a part of the Kuksu system. The archaeological data and the ethnological evidence from the Nomlaki support the historical reconstruction made by Kroeber (1923) . . . the Kuksu system was relatively late" (pp. 304-5). A paragraph on the evidence of skeletal material follows, and then one reconstructing rapidly, in essential outline, the prehistory of California.

The Wintu and Their Neighbors Christopher Chase-Dunn, Kelly M. Mann, 1998-10-01 On the cutting edge of world systems theory comes *The Wintu and Their Neighbors* the first case study to compare and contrast systematically an indigenous Native American society with the modern world at large Using an interdisciplinary approach that combines sociology anthropology political science geography and history Christopher Chase Dunn and Kelly M Mann have scoured the archaeological record of the Wintu an aboriginal people without agriculture metallurgy or class structure who lived in the wooded valleys and hills of northern California By studying the household composition kinship and trade relations of the Wintu they call into question some of the basic assumptions of prior sociological theory and analysis Chase Dunn and Mann argue that Immanuel Wallerstein's world systems perspective originally applied only to the study of modern capitalistic societies can also be applied to the study of the social economic and political relationships in small stateless societies They contend that despite the fact that the Wintu appear on the surface to have been a household based society this indigenous group was in fact involved in a myriad of networks of interaction which resulted in intermarriage and which extended for many miles around the region These networks which were not based on the economic dominance of one society over another a concept fundamental to Wallerstein's world systems theory led to the eventual expansion of the Wintu as a cultural group Thus despite the fact that the Wintu did not behave like a modern society lacking wealth accumulation class distinctions and cultural dominance Chase Dunn and Mann insist that the Wintu were involved in a world system and argue therefore that the concept of the minisystem should be discarded They urge other scholars to employ this comparative world systems perspective in their research on stateless societies

Cannibalism, Headhunting and Human Sacrifice in North America George Franklin Feldman,2023-10-03 This riveting volume dispels the sanitized history surrounding Native American practices toward their enemies that preceded the European exploration and colonization of North America We abandon truth when we gloss over the clashes between Native Americans and Europeans encounters of parties equally matched in barbarity says George Franklin Feldman We neglect true history when we hide the uniqueness of the varied cultures that evolved during the thousands of years before Europeans invaded North America The research is impeccable the writing sparkling and the evidence incontrovertible headhunting and cannibalism were practiced by many of the native peoples of North America **Choctaw Prophecy** Tom Mould,2003-01-22 Explores the power and artistry of prophecy among the Mississippi Band of Choctaw Indians who use predictions about the future to interpret the world around them This book challenges the common assumption that American Indian prophecy was an anomaly of the 18th and 19th centuries that resulted from tribes across the continent reacting to the European invasion Tom Mould's study of the contemporary prophetic traditions of the Mississippi Band of Choctaw Indians reveals a much larger system of prophecy that continues today as a vibrant part of the oral tradition Mould shows that Choctaw prophecy is

more than a prediction of the future it is a way to unite the past present and future in a moral dialogue about how one should live Choctaw prophecy he argues is stable and continuous it is shared in verbal discourse inviting negotiation on the individual level and because it is a tradition of all the people it manifests itself through myriad visions with many themes In homes casinos restaurants laundromats day care centers and grocery stores as well as in ceremonial and political situations people discuss current events and put them into context with traditional stories that govern the culture In short recitation is widely used in everyday life as a way to interpret validate challenge and create the world of the Choctaw speaker Choctaw Prophecy stands as a sound model for further study into the prophetic traditions of not only other American Indian tribes but also communities throughout the world Weaving folklore and oral tradition with ethnography this book will be useful to academic and public libraries as well as to scholars and students of southern Indians and the modern South
