The Importance of Non-Christian Religions in the Philosophy of Pierre Bayle Marta García-Alonso,John Christian Laursen,2025-01-22 This book offers a fresh perspective on early modern philosophy by highlighting Pierre Bayle s engagement with non Christian sources If our major political ethical and epistemic doctrines were solely rooted in Christian genealogies it would seem necessary to include Christianity in the European Constitution However this book reveals a different story The anthropological insights gained from encounters with other lands not only enriched the ethical and political discussions of philosophers historians and literati but also paralleled the incorporation of empirical data from these regions into fields like medicine botany or navigation These accounts became the building blocks for ethical and political thought a wellspring of new ideas thereby making the understanding of other cultures and religions pivotal in reflecting upon the specificities of Europe Pierre Bayle s work exemplifies this transformative influence

Confucian Traditions in East Asian Modernity Weiming Tu,1996 Seventeen scholars from varying fields here consider the

implications of Confucian concerns self cultivation regulation of the family social civility moral education well being of the people governance of the state and universal peace in industrial East Asia *List of Works on Corea, Japan, and China* Boston Public Library,1895 Western-Centrism and Contemporary Korean Political Thought Jung In Kang,2015-08-20 This book is an outgrowth of critical examination of Western political theory embedded in Western centrism and the tumultuous ideational processes by which contemporary Korean political theory and reality have intensely interacted both in convergent and divergent ways with it To conduct such examination the book addresses complex and variegated questions regarding Western centrism What is Western centrism How is Western centrism to be compared and contrasted with other forms of centrism such as Sinocentrism capitalism bourgeois centrism patriarchy male centrism and racism white centrism How has Western centrism evolved in world history and in the history of Western political thought How has Western centrism shaped the evolution of contemporary Korean political thought What kinds of ill effects has Western centrism brought about in Korean society and academia And ultimately how can Western centrism be overcome **The Women's Missionary Magazine of the United Free Church of Scotland** ,1903 **The Hasidic Psychology** ,2003-11-01 Interest in the impact of ethical systems and social or religious ideologies on socio behavioral patterns is a longstanding theme in social science research While interest may have begun with Max Weber and his thesis of the relationship between the Protestant ethic and the spirit of capitalism it extends far beyond this Surprisingly few studies have delved into the socio behavioral patterns emanating from Jewish ethics This book with a new introduction by the author fills that gap As Hasidic Psychology makes clear Jewish ethics are unique in many ways especially in that they are essentially other centered Man s ability to affect his own future and interpersonal relations are explained according to the theory of contraction popularized in Hasidic thought God by contracting Himself to evacuate space for the human world bestowed upon man the power and responsibility to determine his own future and even affect God s disposition In the first part of the book the sociological structural concept of mono versus multiple ideal labeling is introduced This concept refers to a social system in which diverse material and spiritual actualization patterns are structurally introduced as equal social ideals In the second part basic tenets of classic interaction and socialization are compared to the interpersonal perspective and the contraction theory is explained as a process of mutual emulation whereby father and son affect each other In the third part a functional approach to deviance is developed through the Hasidic process known as ascend via descend *The British Quarterly Review* Henry Allon,1880 **Protestant Missions to the Heathen** Th.Christlieb,W. Hastie,1882 A General Survey of Their Recent Progress and Present State Throughout the World *The Jesuit Missions to China and Peru, 1570-1610* Ana Carolina Hosne,2013-12-04 The rulers of the overseas empires summoned the Society of Jesus to evangelize their new subjects in the New World which Spain and Portugal shared this book is about how two different missions in China and Peru evolved in the early modern world From a European perspective this book is about the way Christianity expanded in the early modern period craving

universalism In China Matteo Ricci was so impressed by the influence that the scholar officials were able to exert on the Ming Emperor himself that he likened them to the philosopher kings of Plato's Republic The Jesuits in China were in the hands of the scholar officials with the Emperor at the apex who had the power to decide whether they could stay or not Meanwhile in Peru the Society of Jesus was required to impose Tridentine Catholicism by Philip II independently of Rome a task that entailed compliance with the colonial authorities demands This book explores how leading Jesuits Matteo Ricci 1552-1610 in China and Jos de Acosta 1540-1600 in Peru envisioned mission projects and reflected them on the catechisms they both composed with a remarkable power of endurance It offers a reflection on how the Jesuits conceived and assessed these mission spaces in which their keen political acumen and a certain taste for power unfolded playing key roles in envisioning new doctrinal directions and reflecting them in their doctrinal texts

Confucianism and Christianity John D. Young, 1983-02-01 This is a pioneer study of the Christian missionaries in late Ming and early Ch'ing China in the sense that it draws upon source materials hitherto neglected to give an entirely new perspective on the history of the first meeting between East and West The book centres around a major theme the first confrontation between the Supreme Ultimate or T'ien of the Confucian cosmological order and the Christian anthropomorphic God as conveyed to the Chinese literati by the Western missionaries This encounter which is of an historical as well as metaphysical nature also involves a conflict between two diametrically opposed value systems of human socio ethical obligations This study begins by examining the genesis of the Jesuit policy of accommodation and how the missionaries developed their particular approach But the author probes beyond traditional scholarship and argues that Matteo Ricci was successful in convincing some Confucianists notably Hsü Kuang-ch'i of the universality of Christianity On the other hand the majority of the literati felt threatened by the heterodox teaching and argued against it Finally the Kang-hsi Emperor had to mediate and the result was the end of the first phase of Western activities in the Middle Kingdom Throughout the major emphasis is on how one idea namely the idea of God was viewed by the barbarians from the West and by the Confucian literati
