The Floracrats Andrew Goss,2011-02-01 Situated along the line that divides the rich ecologies of Asia and Australia the Indonesian archipelago is a hotbed for scientific exploration and scientists from around the world have made key discoveries there But why do the names of Indonesia s own scientists rarely appear in the annals of scientific history In *The Floracrats* Andrew Goss examines the professional lives of Indonesian naturalists and biologists to show what happens to science when a powerful state becomes its greatest and indeed only patron With only one purse to pay for research Indonesia s scientists followed a state agenda focused mainly on exploiting the country s most valuable natural resources above all its major export crops quinine sugar coffee tea rubber and indigo The result was a class of botanic bureaucrats that Goss dubs the floracrats Drawing on archives and oral histories he shows how these scientists strove for the Enlightenment ideal of objective universal and useful knowledge even as they betrayed that ideal by failing to share scientific knowledge with the general public With each chapter Goss details the phases of power and the personalities in Indonesia that have struggled with this dilemma from the early colonial era through independence to the modern Indonesian state Goss shows just how limiting dependence on an all powerful state can be for a scientific community no matter how idealistic its individual scientists may be

Indonesia John Bresnan,2005-10-06 Indonesia is in the midst of an epic transition as it moves from decades of authoritarian government to a new era of democratic opening from years of secular government to a time of struggle over the role of Islam in public life and from the breakdown of a miracle economy to a search for resilience in the face of global forces In this timely work leading scholars analyze the causes of the social political and economic crises that erupted in Indonesia in the late 1990s the responses of the elite and civil society and the prospects for continuing reform In the process they explore such issues as the relevance of the nation state in an age of globalization the role of Islam in politics and violence the strengths and weaknesses of a negotiated route to democratic governance the relationship of corruption and structural reform to economic growth and the prospects for stability in Southeast Asia The first book to grapple with the scale and complexity of this historic transition this work offers a clear and compelling introduction to the Indonesian experience for students with an interest in the problems of post colonial states to scholars in comparative Asian studies and to anyone seeking a serious yet accessible introduction to the world s largest Islamic democracy

Power and Political Culture in Suharto's Indonesia Stefan Eklof,2004-06-02 In the mid 1990s the formerly pliant Indonesian Democratic Party PDI was transformed into an active opposition party by Megawati Sukarnoputri now President of Indonesia The subsequent backlash from the Suharto regime ultimately led to its downfall

Women and Sharia Law in Northern Indonesia Dina Afrianty,2015-05-01 This book examines the life of women in the Indonesian province of Aceh where Islamic law was introduced in 1999 It outlines how women have had to face

the formalisation of conservative understandings of sharia law in regulations and new state institutions over the last decade or so how they have responded to this forming non governmental organisations NGOs that have shaped local discourse on women s rights equality and status in Islam and how these NGOs have strategised demanded reform and enabled Acehese women to take active roles in influencing the processes of democratisation and Islamisation that are shaping the province The book shows that although the formal introduction of Islamic law in Aceh has placed restrictions on women s freedom paradoxically it has not prevented them from engaging in public life It argues that the democratisation of Indonesia which allowed Islamisation to occur continues to act as an important factor shaping Islamisation s current trajectory that the introduction of Islamic law has motivated women s NGOs and other elements of civil society to become more involved in wider discussions about the future of sharia in Aceh and that Indonesia s recent decentralisation policy and growing local Islamism have enabled the emergence of different religious and local adat practices which do not necessarily correspond to overall national trends

Democratising Indonesia Mikaela Nyman,2006 The fall of Suharto has drawn much media and academic attention but the focus has been on the elite perspective the role of the regime and military and little has been published on civil society Gender issues are also often by passed Indonesia is at a crossroads and the greater involvement of civil society is being seriously considered for the first time by government representatives and demanded by civil society actors political think tanks and social commentators This study which covers the lead up to and ousting of Suharto up until the 2004 democratic elections analyses the role of civil society in

Indonesia's transition towards democracy by applying social movement theory and the framework of political opportunities. It shows the importance of social movements as civil society's primary catalysts for change and the need for a strong civil society to take over where the social movements left off in order to consolidate attitudinal changes in the political, economic and social spheres. The actions and limitations of various parts of the Indonesian pro democracy movement are discussed providing case studies of three groups of actors: the student movement, the women's movement and the labour movement focusing on times when they have joined forces to form social movements. The shortcomings and successes of the pro democracy movement are discussed as are the prospects for civil society in the future.

Facing Asia - Japan's Role in the Political and Economic Dynamism of Regional Cooperation Blechinger, Verena, Legewie, Jochen, 2000-05-04

Facing Asia examines the political and economic processes of regionalism and regionalization in Asia with a focus on Japan and Japanese actors. The articles by eminent scholars address the forces that tie the region together. They treat topics ranging from Japanese bilateral and multilateral ODA and the activities of state and non state actors on the regional level to issues such as Japanese multinational corporations, foreign direct investment in Asia and regional financial institutions. Methodologically the authors draw on disciplinary strengths in either the social sciences or economics while organizing their treatment around a shared political economic perspective. By looking at Asia through an interdisciplinary lens the volume offers something to anyone interested in Japanese involvement in the politics and economics of the region. In the final chapter the editors weave together the different approaches to Japan's place in Asian regional cooperation in the 1990s and beyond.

Government Policies and Ethnic Relations in Asia and the Pacific Michael E. Brown, Sumit Ganguly, 1997-10-20. Efforts to contend with tensions inherent in multiethnic societies: case studies of India, Pakistan, Sri Lanka, Burma, Thailand, Malaysia, Singapore, Indonesia, the Philippines, China, Australia, New Zealand, Papua New Guinea, Fiji, Vanuatu and the Federated States of Micronesia. Ethnic conflict, one of the most serious and widespread problems in the world today, can undermine efforts to promote political and economic development as well as political, economic and social justice. It can also lead to violence and open warfare producing horrifying levels of death and destruction. Although government policies on ethnic issues often have profound effects on a country, the subject has been neglected by most scholars and analysts. This volume analyzes different policies governments have pursued in their efforts to contend with the tensions inherent in multiethnic societies. The book focuses on Asia and the Pacific, the most populous and economically vibrant part of the world. The heart of the book is a set of case studies of government policies in sixteen countries: India, Pakistan, Sri Lanka, Burma, Thailand, Malaysia, Singapore, Indonesia, the Philippines, China, Australia, New Zealand, Papua New Guinea, Fiji, Vanuatu and the Federated States of Micronesia. The studies consider a wide range of political, economic

educational linguistic and cultural policies and how these policies have evolved over time Using a broad comparative perspective to assess the effectiveness of different governmental approaches the authors offer policy recommendations that cut across individual countries and regions
