Nontimber Forest Products Management on National Forests in the United States Rebecca Jean McLain, 2005 This study provides an overview of nontimber forest products NTFP programs on national forests in the United States We conducted an email survey in 2003 to obtain data on NTFP management activities on national forests across the country Program characteristics examined in the study included important NTFPs managed on national forests presence of NTFP coordinators and law enforcement programs on ranger districts incorporation of NTFPs into forest planning documents presence of NTFP inventory and monitoring programs managers views on barriers to and opportunities for including NTFP harvesters in NTFP inventory and monitoring efforts and managers perceptions of barriers to expanding commercial NTFP harvesting The data indicate that the agency is constructing a foundation for scientific NTFP management The study identifies lack of funding and internal administrative capacity as key barriers to adequate incorporation of NTFPs in Forest Service planning inventory and monitoring

Nontimber Forest Products in the United States Eric T. Jones, Rebecca Jean McLain, James F. Weigand, 2002 A quiet revolution is taking place in America s forests Once seen primarily as stands of timber our woodlands are now prized as a rich source of a wide range of commodities from wild mushrooms and maple sugar to hundreds of medicinal plants whose uses have only begun to be fully realized Now as timber harvesting becomes more mechanized and requires less labor the image of the lumberjack is being replaced by that of the forager This book provides the first comprehensive examination of nontimber forest products NTFPs in the United States illustrating their diverse importance describing the people who harvest them and outlining the steps that are being taken to ensure access to them As the first extensive national overview of NTFP policy and management specific to the United States it brings together research from numerous disciplines and analytical perspectives such as economics mycology history ecology law entomology forestry geography and anthropology in order to provide a cohesive picture of the current and potential role of NTFPs The contributors review the state of scientific knowledge of NTFPs by offering a survey

of commercial and noncommercial products an overview of uses and users and discussions of sustainable management issues associated with ecology cultural traditions forest policy and commerce They examine some of the major social economic and biological benefits of NTFPs while also addressing the potential negative consequences of NTFP harvesting on forest ecosystems and on NTFP species populations Within this wealth of information are rich accounts of NTFP use drawn from all parts of the American landscape from the Pacific Northwest to the Caribbean From honey production to a review of nontimber forest economies still active in the United States such as the Ojibway harvest of plants recounted here the book takes in the whole breadth of recent NTFP issues including ecological concerns associated with the expansion of NTFP markets and NTFP tenure issues on federally managed lands No other volume offers such a comprehensive overview of NTFPs in North America By examining all aspects of these products it contributes to the development of more sophisticated policy and management frameworks for not only ensuring their ongoing use but also protecting the future of our forests

Non-Timber Forest Products Marla R Emery, Rebecca J Mclain, 2001-09-18 Balance the culture of wildcrafting with the demands of sustainable forest management This comprehensive book documents the current use research and policy concerns relating to harvesting non timber forest products NTFPs It provides a state of the art review of historical and contemporary wildcrafting ongoing research on economically useful forest products and sociopolitical and environmental considerations for NTFP management The implications of harvesting NTFPs are usually considered in the context of the Third World but this unique book offers an analysis of current conditions in North America and integrates the historical social ecological and policy aspects of NTFP use It addresses the issues that arise when the primeval practice of gathering wild plants fungi leaves and bark occurs in a post industrial world Non Timber Forest Products Medicinal Herbs Fungi Edible Fruits and Nuts and Others **Non Timber Forest Products** ,1999 **A Guide to Selected Non-timber Forest**
