

NORMAN STREET

POVERTY AND POLITICS IN
AN URBAN NEIGHBORHOOD

A man with a beard and a light-colored shirt is holding a large white sign with black text. The sign reads "DON'T TAKE AWAY OUR HOMES". He is standing in front of a chain-link fence. To his left, a woman is partially visible, also holding a sign. The background shows a residential area with a fence and some buildings.

DON'T TAKE AWAY
OUR HOMES

Norman Street: Poverty and Politics in an Urban Neighborhood, Updated Edition Ida Susser, 2012-06-19 Based on a three year study of Brooklyn s Greenpoint Williamsburg area Norman Street is an in depth detailed description of life in a multi ethnic working class neighborhood during New York City s fiscal crisis of 1975 78 Now updated with a new introduction to address the changes and events of the thirty years since the book s original publication its lessons continue to demonstrate the impact of political and economic changes on everyday lives Over the decades Greenpoint Williamsburg has become home to artists actors writers and young people with alternative cultural aspirations Susser documents how these groups in many ways have joined with the remaining working class population to build a thriving community that is now threatened with displacement by municipal rezoning which has facilitated massive plans for new corporate investment Increasingly prescient at a moment of economic crisis when people are again occupying public spaces in major American cities spurred to collective action by mounting economic inequalities and the government s role in perpetuating them Susser s study of change action and conflict in a neighborhood that has become emblematic of urban transformation for better and worse has much to say to us today

Women and Citizenship St. Louis Marilyn Friedman Professor of Philosophy Washington University, 2005-09-16 The notion of citizenship is complex it can be at once an identity a set of rights privileges and responsibilities an elevated and exclusionary status a relationship between individual and state and more In recent decades citizenship has attracted interdisciplinary attention particularly with the transnational growth of Western capitalism Yet citizenship s relationship to gender has gone relatively unexplored despite the globally pervasive denial of citizenship to women historically and in many places ongoing today This highly interdisciplinary volume explores the political and cultural dimensions of citizenship and their relevance to women and gender Containing essays by a well known group of scholars including Iris Marion Young Alison Jaggar Martha Nussbaum and Sandra Bartky this book examines the conceptual issues and strategies at play in the feminist quest to give women full citizenship status The contributors take a fresh look at the issues going beyond conventional critiques and examine problems in the political and social arrangements practices and

conditions that diminish women's citizenship in various parts of the world **The Future of Us All** Roger Sanjek, 2000-02
The result of more than a dozen years work this remarkable book immerses us in Elmhurst Corona's social political life from the 1960s through the 1990s focusing on the combined impact of racial change immigrant settlement governmental decentralization assaults on local quality of life which stemmed from the city's 1975 fiscal crisis the policies of its last three mayors The book examines the ways in which residents have forged tested alliances across lines of race ethnicity language

Inclusionary Housing and Urban Inequality in London and New York City Yuca Meubrink, 2024-09-10 Municipalities around the world have increasingly used inclusionary housing programs to address their housing shortages This book problematizes those programs in London and New York City by offering an empirical research based perspective on the socio spatial dimensions of inclusionary housing approaches in both cities The aim of those programs is to produce affordable housing and foster greater socio economic inclusion by mandating or incentivizing private developers to include affordable housing units within their market rate residential developments The starting point of this book is the so called poor door practice in London and New York City which results in mixed income developments with separate entrances for affordable housing and wealthier market rate residents Focusing on this poor door practice allowed for a critical look at the housing program behind it By exploring the relationship between inclusionary housing new build gentrification and austerity urbanism this book highlights the complexity of the planning process and the ambivalences and interdependencies of the actors involved Thereby it provides evidence that the provision of affordable housing or social mixing through this program has only limited success and above all that it promotes in a sense through the back door the very gentrification and displacement mechanisms it is supposed to counteract This book will be of interest to researchers and students of housing studies planning and urban sociology as well as planners and policymakers who are interested in the consequences of their own housing programs

The Tumultuous Politics of Scale Donald M. Nonini, Ida Susser, 2020-01-23 Contemporary politics this book contends depend upon the turbulent struggles and strategies around scale Conflicts over scale can be seen as opaque class struggles Political projects whether from the ground up or representing corporate or state interests continually contest the scale at which authority is vested This volume looks at the way global corporations redefine the scale of power and how working class and other movements build alliances and cross scales to develop political blocs What injustices are perpetrated or more hopefully redressed in this process The book consisting of contributions from anthropologists geographers and cultural studies scholars explores theoretical issues around contested temporal and spatial scales and around variations in scale from the body to the global Part I focuses on bodies in motion entangled in battles over new boundaries and political coalitions and the ways in which migrants and refugees are disrupted by intersecting time scales Part II on the nation state addresses the shifting responsibilities assigned by law at different historical moments and the impact of global energy trade on national austerity policies Part III on rescaling sovereignty discusses the misleading

media discourse on Brexit and reconstructs the class bases of the move to the Right in Eastern Europe that threaten the EU Part IV on the histories of changing scales of movements revisits historical debates on uneven and combined development and sets out the transnational labor movements of the eighteenth and nineteenth century Atlantic which prefigure contemporary struggles of labor in a world which is still one of uneven and combined capitalist development Finally Part V considers ways in which some social movements are constrained by scale while others reshape parties and traverse nations in their efforts to build class alliances and political blocs

Checkerboard Square David Wagner, 2019-08-22 During the past decade homelessness became a widespread phenomenon in the United States for the first time since the Great Depression The public frequently blamed the poor for their plight Journalistic and academic accounts in contrast often evoked pathos and pity regarding the homeless primarily as objects of treatment and rehabilitation David Wagner challenges both of these dominant images offering an ethnographic

portrait of the poor that reveals their struggle not only to survive but also to create communities on the streets and to develop social movements on their own behalf Definitely not passive victims the homeless of Checkerboard Square survive within an alternative street culture with its own norms and social organization in a world often hidden from the view of researchers journalists and social workers Checkerboard Square reveals the daily struggle of street people to organize their lives in the face of rejection by employers government landlords and even their own families Looking beyond the well documented causes of homelessness such as lack of affordable housing or unemployment Wagner shows how the poor often become homeless through resistance to the discipline of the workplace authoritarian families and the bureaucratic social welfare system He explains why the crisis of homelessness is not only about the lack of services housing and jobs but a result of the very structure of the dominant institutions of work family and public social welfare

Perspectives In U.s. Marxist Anthropology David J. Hakken, Hanna Lessinger, June Nash, Florence Babb, 2019-06-04 An assessment of current trends in Marxist anthropology this collection of essays reflects both the unifying force of Marxist thought and the diversity of contemporary anthropology Linked by a common approach a shared commitment to Marxist analysis the contributors look at a variety of phenomena including the problems of labor and work in terms of a coherent theory of Marxism Examining political economic and ethnic situations the authors discuss social structures ideology and class formation This unique volume warrants the attention of both Marxists and non Marxists in anthropology and of scholars in other fields

The Integration Debate Chester Hartman, Gregory Squires, 2009-09-11 Racial integration and policies intended to achieve greater integration continue to generate controversy in the United States with some of the most heated debates taking place among long standing advocates of racial equality Today many nonwhites express what has been referred to as integration exhaustion as they question the value of integration in today's world And many whites exhibit what has been labeled race fatigue arguing that we have done enough to reconcile the races Many policies have been implemented in efforts to open up traditionally restricted neighborhoods while others have been designed to diversify traditionally poor often nonwhite neighborhoods Still racial segregation persists along with the many social costs of such patterns of uneven development This book explores both long standing and emerging controversies over the nation's ongoing struggles with discrimination and segregation More urgently it offers guidance on how these barriers can be overcome to achieve truly balanced and integrated living patterns

The World in Brooklyn Judith DeSena, Timothy Shortell, 2012-03-22 *The World in Brooklyn* Gentrification Immigration and Ethnic Politics in a Global City is a collection of scholarly papers which analyze demographic social political and economic trends that are occurring in Brooklyn Brooklyn as the context reflects global forces while also contributing to them The idea for this volume developed as the editors discovered a group of scholars from different disciplines and various universities studying Brooklyn Brooklyn has always been legendary and has more recently regained its stature as a much sought after place to live work and have fun Popular folklore has it that most U S residents trace their family origins to Brooklyn It is

presently referred to as one of the hippest places in New York Thus this book is a collection of demographic ethnographic and comparative studies which focus on urban dynamics in Brooklyn The chapters investigate issues of social class urban development immigration race ethnicity and politics within the context of Brooklyn As a whole this book considers both theoretical and practical urban issues In most cases the scholarly perspective is on everyday life With this in mind there are also social justice concerns Issues of social segregation and attendant homogenization are brought to light Moreover social class and race advantages or disadvantages as part of urban processes are underscored through critiques of local policy decisions throughout the chapters A common thread is the assertion by contributors that planning the future of Brooklyn needs to include multi ethnic racial and economic groups those very residents who make up Brooklyn

Front Porch Politics Michael S. Foley, 2013-09-17 An on the ground history of ordinary Americans who took to the streets when political issues became personal It is widely believed that Americans of the 1970s and 80s were exhausted by the upheavals of the 60s and eager to retreat to the private realm When they did take action it was mainly to express their disillusionment with government by supporting the right In fact as Michael Stewart Foley shows neither of these assumptions is correct On the community level the 1970s and 80s saw vibrant new forms of political activity emerge Tenants challenged landlords farmers practiced civil disobedience to protect their land and laid off workers asserted a right to own their idled factories Activists fought to defend the traditional family or to expand the rights of women while entire towns organized to protest the toxic sludge in their basements In all these arenas Americans were propelled by their own experiences into the public sphere Disregarding conventional ideas of left and right they turned to political action when they perceived an immediate threat to the safety and security of their families homes or dreams

Front Porch Politics is a people's history told through on the ground experiences Recalling crusades famous and forgotten Foley shows how Americans followed their outrage into the streets Their distinctive style of visceral local and highly personal activism remains a vital resource for the renewal of American democracy
