Progress Against Prejudice:

Implicit Racial Bias Across the Law Justin D. Levinson, Robert J. Smith, 2012-04-23 This book explores how scientific evidence on the human mind might help to explain why racial equality is so elusive Through the lens of powerful and pervasive implicit racial attitudes and stereotypes it examines both the continued subordination of historically disadvantaged groups and the legal system's complicity in the subordination

The Progression of International Law Yoram Dinstein, Fania Domb, 2011-11-11 This volume was produced to celebrate the fortieth anniversary of the Israel Yearbook on Human Rights Forty years have yielded an impressive forty annual volumes When it was started in 1971 the Yearbook was the first of its kind anywhere in the world It has always understood its mandate as transcending the narrow borders of the discipline of either national or international human rights From the outset international humanitarian law and international criminal law were understood as coming within the proper framework of the Yearbook as were on occasion articles on diverse freedoms that may seem out of bounds to a strict interpreter of the phrase human rights

Theorizing Discrimination in an Era of Contested Prejudice Samuel Lucas, 2009-08-15 Despite several decades of attention there is still no consensus on the effects of racial or sexual discrimination in the United States In this landmark work the well known sociologist Samuel Lucas shows how discrimination is not simply an action that one person performs in relation to another individual but something far more insidious a pervasive dynamic that permeates the environment in which we live and work Challenging existing literature on the subject Lucas makes a clear distinction between prejudice and discrimination He maintains that when an era of condoned exploitation ended the era of contested prejudice as he terms it began He argues that the great strides made in the 1950s and 1960s repudiated prejudice but not discrimination Drawing on critical race theory feminist theory and a critique of dominant perspectives in the social sciences and law Lucas offers a new understanding of racial and sexual discrimination that can guide our actions and laws into a more just future

Modernity and the Holocaust Zygmunt Bauman, 2013-05-28 Sociology is concerned with modern society but has never come to terms with one of the most distinctive and horrific aspects of modernity the Holocaust The book examines what sociology can teach us about the Holocaust but more particularly concentrates upon the lessons which the Holocaust has for sociology Bauman's work demonstrates that the Holocaust has to be understood as deeply involved with the nature of modernity There is nothing comparable to this work available in the sociological literature
