*The Promise of Cultural Institutions* David Carr, 2003-06-18 This thought provoking collection of essays is essential reading for anyone who cares about cultural institutions and their role in the community of learners These institutions often museums or libraries have the power to profoundly alter our sense of ourselves and of the world around us but that power carries with it obligations David Carr challenges us to contemplate both the effects and the responsibilities to examine carefully the nuances of these experiences Yet a visit to a cultural institution is itself only one act in the broader activity of learning throughout our lives Carr has much to say about the experience of learning in its best sense and thus speaks not only to lovers of cultural institutions but also to lovers of learning everywhere

*Cultural Capital: The Promises and Pitfalls in Education Research* Rachelle Winkle-Wagner, 2010-06-15 Amid the increased use of the notion of cultural capital as a theoretical or analytical tool in educational research remain many different definitions misconceptions and appropriations of the concept Cultural capital the cultural relevant knowledge competencies skills or abilities valued in a particular context acts as a form of social currency in educational settings This monograph extensively reviews the past thirty years of research investigating the strengths and weaknesses regarding the widely varying uses of cultural capital in educational research Although the concept of cultural capital holds great promise for explaining the perpetuation of power and privilege unfilled hopes remain The use of the economic metaphor implied by cultural capital the lack of attention to race and gender inequalities the possibility for misunderstanding in transferring the concept between countries and a general implied deficiency model present limitations in many studies of cultural capital An understanding of cultural capital if

appropriately theorized about and applied to research has the promise of helping to understand and transform educational inequalities This is Volume 36 Issue 1 of the Jossey Bass publication ASHE Higher Education Report Each monograph in the series is the definitive analysis of a tough higher education problem based on thorough research of pertinent literature and institutional experiences Topics are identified by a national survey Noted practitioners and scholars are then commissioned to write the reports with experts providing critical reviews of each manuscript before publication *Annual Review of Cultural Heritage Informatics* Jennifer Weil Arns, 2016-05-20 Produced by The University of South Carolina's School of Library and Information Science this volume of the Annual Review of Cultural Heritage Informatics ARCHI is the polestar publication for cultural heritage scholars professionals and students Featuring original works selected by the distinguished editorial board of international scholars ARCHI presents a broad spectrum of the cultural heritage informatics field New to this edition is a Perspectives chapter in which scholars practitioners and leaders delve into a current issue facing the field voicing their thoughts based on research and personal experience Some topics covered include How the transactions and reflections of collections work influences the workplace community and nation An in depth look at the work and how theoretical and professional obstacles hinder convergence The debate over technology and big data addressed through two articles offering opposing viewpoints on the benefits and disadvantages With a focus on the way our cultural heritage is accessed stored and preserved this volume looks forward to the future and the insight brought forth through technological innovation and research Beyond Article 19 Julie Biando Edwards, Stephan P. Edwards, 2010 Beyond Article 19 Libraries and Social and Cultural Rights addresses the subject of libraries and cultural rights a topic that has received relatively little attention in the past but which librarians and others concerned with human rights are beginning to recognize and talk about Librarians have long been concerned with individual rights and have worked tirelessly indeed making it a basic tenet of the profession to protect and preserve those rights Little has been written about the role that libraries can play in protecting and promoting group rights specifically cultural rights This book examines this shortfall by exploring the relationship between libraries cultural rights and community life and identity **Schutzian Research: Volume 7 / 2015** Michael Barber, 2015-12-02 Schutzian Research is an annual journal that seeks to continue the tradition of Alfred Schutz Open Conversations David Carr, 2011-09-19 Cultural institutions must reimagine their roles as education facilities for their communities and address the public need for conversations in safe and fair places thereby renewing their essential place in democratic society This book explains how Open Conversations Public Learning in Libraries and Museums is a provocative book one that is designed to offer courage to cultural institution administrators and staff even as it opens their eyes to the possibility that their facilities can offer more than they are Rather than offering prescriptive answers the author invites readers to consider museums and libraries in fresh ways Author David Carr believes professionals in libraries and museums need to think more broadly He challenges them to address communities national social change psychology and learning and

to think about ways to frame their institutions not as repositories or research chambers but as instruments for human thinking Now is the time for these institutions to recover their integrity and purpose as fundamental informing structures in a struggling democracy Based on lectures and previously published writings by the author and drawing on new scholarship and research the essays here will inspire professionals to understand their collections and institutions as instruments of personal social and cultural change
