Look With Us At Animals

Adrian Franklin

Look With Us At Animals:

On God and Dogs Stephen H. Webb, 1998 Many of us keep pet animals we rely on them for companionship and unconditional love For some people their closest relationships may be with their pets In the wake of the animal rights movement some ethicists have started to re examine this relationship and to question the rights of humans to own other sentient beings in this way In this engaging and thought provoking book Stephen Webb brings a Christian perspective to bear on the subject of our responsibility to animals looked at through the lens of our relations with pets especially dogs Webb argues that the emotional bond with companion animals should play a central role in the way we think about animals in general and against the more extreme animal liberationists defends the intermingling of the human and animal worlds He tries to imagine what it would be like to treat animals as a gift from God and indeed argues that not only are animals a gift for us but they give to us we need to attend to their giving and return their gifts appropriately Throughout the book he insists that what Christians call grace is present in our relations with animals just as it is with other humans Grace is the inclusive and expansive power of God's love to create and sustain relationships of real mutuality and reciprocity and Webb unfolds the implications of the recognition that animals too participate in God's abundant grace Webb's thesis affirms and persuasively defends many of the things that pet lovers feel instinctively that their relationships with their companion animals are meaningful and important and that their pets have value and worth in themselves in the eyes of God His book will appeal to a broad audience of thoughtful Christians and animal lovers

Thinking Animals Kari Weil, 2012-05-01 Kari Weil provides a critical introduction to the field of animal studies as well as an appreciation of its thrilling acts of destabilization Examining real and imagined confrontations between human and nonhuman animals she charts the presumed lines of difference between human beings and other species and the personal ethical and political implications of those boundaries Weil's considerations recast the work of such authors as Kafka Mann Woolf and Coetzee and such philosophers as Nietzsche Heidegger Derrida Deleuze Agamben Cixous and Hearne while incorporating the aesthetic perspectives of such visual artists as Bill Viola Frank Noelker and Sam Taylor Wood and the visual thinking of the autistic animal scientist Temple Grandin She addresses theories of pet keeping and domestication the importance of animal agency the intersection of animal studies disability studies and ethics and the role of gender shame love and grief in shaping our attitudes toward animals Exposing humanism's conception of the human as a biased illusion and embracing posthumanism's acceptance of human and animal entanglement Weil unseats the comfortable assumptions of humanist thought and its species specific distinctions

Animals and Modern Cultures Adrian Franklin,1999-03-30 The dramatic transformation of relationships between humans and animals in the 20th century are investigated in this fascinating and accessible book At the beginning of this century these relationships were dominated by human needs and interests modernization was a project which was attached to the goal of progress and animals were merely resources to be used on the path towards human fulfilment These relationships are increasingly being subjected to criticism and a new field of interest in human animal relationships has opened up We are now urged to be more sensitive and compassionate to animal needs and interests to understand their mindedness and how their lives and ours are entangled This book focuses on social change and animals it is concerned with how humans relate to animals and how this has changed and why Moreover it highlights through chapters on companion animals hunting and fishing animal leasures such as birdwatching and wildlife parks and the meat and livestock industries how attitudes and practices towards animals vary widely according to social class ethnicity gender region and nation

Animals in Heaven- Fantasy or Reality Arch Stanton,2006-06-02 Animals have been with us since the state of existence or being The bible tells us God created the animal kingdom for his pleasure When God created the heaven and earth and all life that exist he obviously saw a need for animals or they would not be here Why God created them in the shapes and forms as they were we do not know the choice was his and as I mentioned He chose to do so in a way that pleases him Animals have a mind that gives them the ability to think and have feelings Animals have a certain intelligence we do not possess such as an internal guidance system Both dogs and cats have this ability and I would imagine there are other animals as well God created everything with a purpose and a need the animals kingdom is one such example Many people believe

God's purpose for animals is to serve humankind and upon death they are to perish with no possible chance for eternal life. However, does the bible teach this? In the first chapter of the book of Genesis the bible tells us God considered the animals a creation that was very good; he was pleased with them. Many people consider the life of an animal as having a very small worth. To them, an animal just lives and dies. Many people have the attitude of 'so what'. The bible tells us God doesn't care for an attitude such as this because he values the life of his animals very much. Throughout the entire bible, the information found pertaining to the animal kingdom is very precise. The bible tells us the animals are to be forever. God had this intention when he created them, and this application of thought remains today and forever. The bible never mentions mankind alone is to receive eternal life. How different would our lives be without animals? There would be no pets for those who are lonely and without family. There would be no zoos for family outings. There would be no circus acts with animals. There would be no dog as a best friend. There would be no Seeing Eye dogs. There would be no animals to alert their owners of an ever-present danger during the night, such as fires, burglars, etc. I believe we simply overlook the fact there is a purpose for all of God's creatures. The purpose for this book is to reveal the truth in what the bible tells about the animal kingdom. We need to know God's purpose for them. The bible explains in detail God's plan for his animals even after death. God wants us to know about them, or he would never have emphasized their importance in his word. Many people are reluctant to discuss the animal kingdom from a biblical point of view. I find this strange to say the least. God has included them in his written word, but many ministers will say very little, if anything, about them. The scriptures in this book are from the King James Bible. What the bible tells us is 100% accurate, and lest we never forget, God simply made no mistakes in his word. The bible is never contradictory. We will read scriptures that clearly explain that animals will be in heaven and why God wants them to be there with us. If we had the power to give our pet's eternal life, would we want the life of our animals to be temporal? If God loves his animals more than we could ever love them, shouldn't this type of love indicate his love for them is tremendous? Since we know God can give animal's eternal life, could there be any single reason to give them life that would be only temporary? First, we should know the bible is not dull, dismal, or neutral. The bible is not an area between two extremes having mingled characteristics of both; it is a situation in which there are no clear-cut distinctions. The interpretations of scriptures have been defined several ways over the years, and this has caused confusion in many churches. We will read scriptures about the animal kingdom that many of you may not know are in the bible. We will read scriptures that are clearly stated to mean one thing and one thing only, and that is: Animals are to be in heaven. By the time you have finished this book, you will have a better understanding for the purpose of the animal kingdom. You may then decide if the scriptures do indeed tell us animals have a soul, do they have a spirit, did God create them with a purpose in this life, is he going to give them eternal life. With God's help, you will decide. For more information, please visit www.dutchman3d.com. **Where Animals Talk** Robert Hamill Nassau, 1912.
