White Drug Cultures and Regulation in London, 1916-1960 Christopher Hallam, 2018-08-09 This book traces the history of the London white drugs opiate and cocaine subculture from the First World War to the end of the classic British System of drug prescribing in the 1960s It also examines the regulatory forces that tried to suppress non medical drug use in both their medical and juridical forms Drugs subcultures were previously thought to have begun as part of the post war youth culture but in fact they existed from at least the 1930s In this book two networks of drug users are explored one emerging from the disaffected youth of the aristocracy the other from the night time economy of London's West End Their drug use was caught up in a kind of dance whose steps represented cultural conflicts over identity and the modernism and Victorianism that coexisted in interwar Britain

History of British Neurology Frank Clifford Rose, 2012 HISTORY OF BRITISH NEUROLOGY by F Clifford Rose Imperial College School of Medicine UK Diseases of the nervous system are a relatively small but vitally important part of medicine There was no scientific basis for diagnosis or treatment until the seventeenth century when Dr Thomas Willis 1621-1675 and his team tackled anatomy by dissection of the nervous system physiology by animal experiments and pathology by post mortem analysis It was Willis who first used the word neurology and his team who were among the founders of the Royal Society included Christopher Wren who besides being famous as an

architect of London's churches drew the first modern diagram of the human brain. Developments in our knowledge of the nervous system in the following centuries and the unique importance of clinical neurology became globally recognised through the work of Whytt, Heberden, Hughlings Jackson, Gowers and many others. The work and discoveries of these eminent specialists were extended with the introduction of such neurosciences as neurophysiology, neuropathology and neuro-radiology and this is the first comprehensive account of a battle with the unknown by determined practitioners.
