Evaluations of Process Modeling Grammars Jan Recker, 2011-01-19 Jan Recker investigates the notion of quality of business process modeling grammars His evaluation is based on ontological analysis qualitative analysis and quantitative analysis which are applied to BPMN a widely used business process modeling grammar His results first show ontological shortcomings in BPMN second how these manifest in actual process modeling practice and third how they eventually influence the usage behavior of modeling practitioners Seen more general his book is a landmark for an empirical technology assessment that analyzes how design flaws in technology influence usage behavior

Models, Evaluations & Information Systems for Planners Jean Perraton, Richard Stephen Baxter, 1974 **Information Systems Engineering: From Data Analysis to Process Networks** Johannesson, Paul, Soderstrom, Eva, 2008-04-30 Information systems belong to the most complex artifacts built in today s society Developing maintaining and using an information system raises a large number of difficult problems ranging from purely technical to organizational and social Information Systems Engineering From Data Analysis to Process Networks presents the most current research on existing and emergent trends on conceptual modeling and information systems engineering bridging the gap between research and practice by providing a much needed reference point on the design of software systems that evolve seamlessly to adapt to rapidly changing business and organizational practices

The Model Cities Program; a Series of Analyses]. Marshall Kaplan, Gans, and Kahn, 1973 Strategic ICT

Planning in Pathology Markus Belkin, Brian Corbitt, Nilmini Wickramasinghe, 2012-08-24 There is little doubt that information technology is a major force in transforming healthcare systems physicians need to have considerable patient data at hand even if diagnosis and treatment are relatively straightforward But data are only as useful as ICT information communication technology systems make them Inefficient handling of data can quickly lead to chaos and possibly to fatalities Strategic ICT Planning in Pathology illuminates these problems as well as their potential solutions based on a unique body of research from Australia Focusing on core strategic factors such as laboratory information systems capability and effectiveness business IT alignment strategic spending research and education and end user involvement the book explains why pathology labs lag behind other hospital departments Survey and focus group findings pinpoint the importance of Strategic Information System Planning SISP and its relationship to quality service delivery and an improved bottom line ok Among the topics covered Approaches to SISP and IS effectiveness measurement The OpenLabs project and pathology practice Development of a framework for SISP Focus groups the view from the hospital laboratory the private pathology lab and the experts Key findings and their implications for strategy planning and business outcomes Future research directions including reverse SISP Strategic ICT Planning in Pathology is a go to resource for healthcare administrators and researchers in healthcare management health policy and health services research interested in troubleshooting systems conducting surveys on IS or better understanding how quality ICT works The Model Cities Program Marshall Kaplan, Gans, and Kahn, United States. Dept. of Housing and Urban Development, 1971 **Models for Planning Wildlife Conservation in Large Landscapes** Joshua Millspaugh, Frank R. Thompson, 2011-04-28 A single resource volume of information on the most current and effective techniques of wildlife modeling Models for Planning Wildlife Conservation in Large Landscapes is appropriate for students and researchers alike The unique blend of conceptual methodological and application chapters discusses research

applications and concepts of modeling and presents new ideas and strategies for wildlife habitat models used in conservation planning The book makes important contributions to wildlife conservation of animals in several ways 1 it highlights historical and contemporary advancements in the development of wildlife habitat models and their implementation in conservation planning 2 it provides practical advice for the ecologist conducting such studies and 3 it supplies directions for future research including new strategies for successful studies Intended to provide a recipe for successful development of wildlife habitat models and their implementation in conservation planning the book could be used in studying wildlife habitat models conservation planning and management techniques Additionally it may be a supplemental text in courses dealing with quantitative assessment of wildlife populations Additionally the length of the book would be ideal for graduate student seminar course Using wildlife habitat models in conservation planning is of considerable interest to wildlife biologists With ever tightening budgets for wildlife research and planning activities there is a growing need to use computer methods Use of simulation models represents the single best alternative However it is imperative that these techniques be described in a single source Moreover biologists should be made aware of alternative modeling techniques It is also important that practical guidance be provided to biologists along with a demonstration of utility of these procedures Currently there is little guidance in the wildlife or natural resource planning literature on how best to incorporate wildlife planning activities particularly community based approaches Now is the perfect time for a syntheistic publication that clearly outlines the concepts and available methods and illustrates them Only single resource book of information not only on various wildlife modeling techniques but also with practical guidance on the demonstrated utility of each based on real world conditions Provides concepts methods and applications for wildlife ecologists and others within a GIS context Written by a team of subject area experts
