Natural Learning The Life History Of An Environmental Schoolyard Paperback:

Natural Learning Robin C. Moore, Herbert H. Wong, 1997 A guidebook for teachers administrators designers and parents on how to create redevelop and use naturalized schoolyards Emphasizing the value of play and play environments for child development the book describes the evolution of the Environmental Yard at Washington Elementary School in Berkeley California from an expanse of asphalt into an outdoor classroom community space and play area populated with hundreds of species of plants and animals

Children and their Urban Environment Claire Freeman, Paul Tranter, 2012-10-02 In our fast changing urban world the impacts of social and environmental change on children are often overlooked *Children and their Urban Environment* examines these impacts in detail looking at the key activities spaces and experiences children have and how these can be managed to ensure that children benefit from change The authors highlight the importance of planners architects and housing professionals in creating positive environments for children and involving them in the planning process They argue that children's lives are becoming simultaneously both richer and more deprived and that despite apparently increasing wealth disparities between children are increasing further Each chapter includes international examples of good practice and policy innovations for redressing the balance in favour of child supportive environments The book seeks to embrace childhood as a time of freedom social engagement and environmental adventure and to encourage creation of environments that better meet the needs of children The authors argue that in doing so we will build more sustainable neighbourhoods cities and societies for the future

Handbook on Green Infrastructure Danielle Sinnett, Nick Smith, Sarah Burgess, 2015-11-27 Green infrastructure encompasses many features in the built environment It is widely recognised as a valuable resource in our towns and cities and it is therefore crucial to understand create protect and manage this resource This Handbook sets the context for green infrastructure as a means to make urban environments more resilient sustainable liveable and equitable Including state of the art reviews that summarise the existing knowledge as well as research findings this Handbook provides current evidence for the beneficial impact of green infrastructure on health environmental quality and the economy It discusses the planning and design of green infrastructure as a strategic network down to the individual features in a neighbourhood and looks at the process of green infrastructure implementation emphasising the importance of collaboration across multiple professions and sectors This comprehensive volume operates at multiple spatial scales from strategic networks at the regional level to individual features in neighbourhoods with international case studies used throughout to illustrate key examples of good practice This collection of expert contributions will be invaluable to students and academics in the fields of planning urban studies and geography Practitioners and policy makers will also find the policy discussion and examples enlightening

Natural Environments and Human Health Alan W Ewert, Denise S Mitten, Jillisa R Overholt, 2014-04-25 The role natural environments play in human health and wellbeing is attracting increasing attention There is growing medical evidence that access to the natural environment can prevent disease

aid recovery tackle obesity and improve mental health This book examines the history of natural environments being used for stress reduction enjoyment aesthetics and catharsis and traces the development of the connection between humans and the environment and how they impact our personal and collective health **Nature Education with Young Children** Daniel R. Meier, Stephanie Sisk-Hilton, 2013-05-29 Nature Education with Young Children is a thoughtful sophisticated teacher resource that blends theory and practice on nature education children s inquiry based learning and reflective teaching The book s guiding conceptual framework is founded upon the integration of four key ideas for effective and transformative nature education The power and value of equity and access to nature education Effective teaching encompasses child development domains and integrates ECE curriculum Children learn best through inquiry based and child centered teaching Powerful teaching is founded upon teacher inquiry and reflection Implementing nature study is one critical way that educators can integrate more science learning across the ECE curriculum and do so in an active discovery based manner Nature Education with Young Children strives for an American version of what the Reggio Emilia educators do so well creating a seamless integration of science concepts into the daily intellectual investigations that occur in classrooms everywhere Nature Play at Home Nancy Striniste, 2019-04-02 A magnificent resource for transforming backyards into stimulating environments which enhance children s creativity learning and fun Richard Louv author of Last Child in the Woods The Nature Principle and Vitamin N Access to technology has created a generation of children who are more plugged in than ever before often with negative consequences Unrestricted outdoor play reduces stress improves health and enhances creativity learning and attention span In Nature Play at Home Nancy Striniste gives you the tools you need to make outdoor adventures possible in your yard school and neighborhood With hundreds of inspiring ideas and 12 illustrated step by step projects this hardworking book details how to create playspaces that use natural materials like logs boulders sand water and plants of all kinds Projects include hillside slides seating circles sand pits and more Big Science for Growing Minds Jacqueline Brooks, 2015-04-25 Strong evidence from recent brain research shows that the intentional teaching of science is crucial in early childhood Big Science for Growing Minds describes a groundbreaking curriculum that invites readers to rethink science education through a set of unifying concepts or big ideas Using an integrated learning approach the author shows teachers how to use readily available low cost items to create a safe classroom setting that fosters hands on learning and exploration of real life problems The text includes classroom activities that connect science learning to mathematics technology art and literacy Book Features Shows teachers how to address fundamental biology chemistry physics and Earth science concepts using easy to find objects Describes constructivist learning environments that are aligned with emerging data on brain development Includes guidance for adopting approaches and instructional strategies consistent with NSTA NSES and NAEYC guidelines We need to celebrate the birth of this book It is a vivid embodiment of how young children learn scientific ideas when their teachers create conditions that match the ways youngsters are able to integrate

meaning Constructivist practice comes to life in these pages At a time of narrow high stakes tests here is a model that preserves truly professional practice From the Foreword by Doris Pronin Fromberg Hofstra University Big Science for Growing Minds is a wonderful jam packed storehouse of research based ideas for the effective teaching of science The author is masterful in her ability to clearly explain current brain research and cognitive science studies and to exemplify the research through practical classroom applications Lawrence Lowery Professor emeritus Graduate School of Education and the Lawrence Hall of Science University of California at Berkeley
