Natural History Of Monitor Lizards:

Monitor Lizards Daniel Bennett, 1998 **Monitor Lizards** Bernd Eidenmüller, 2007 **The Natural History of Monitor Lizards** Harold F. De Lisle, 1996-01-01 Unique among lizards the monitors are in some ways more like birds and mammals than like their smaller and less active relatives Their size and behaviour have long made them objects of fascination and myth wherever they are found The Komodo Dragon the world's largest lizard is a central tourist attraction in Indonesia This text provides information on the anatomical and physiological traits that have made the varanids such successful and spectacular animals It deals with the lizard's ecology and behaviour and includes a description range map diet conservation status and life history notes for each species along with almost 200 references on varanid lizards General guidelines for captive care are included The book contains essential information for the professional herpetologist dedicated pet owner and reptile enthusiast **Living Dragons** Rodney Steel, 1996 An important illustrated book on the various species of monitor lizards a group of reptiles that can be legitimately described as living dragons This group of lizards includes the real monsters the famed carnivorous and even occasionally man eating Komodo dragons from Indonesia lizards that are true giants Add to these a further range of almost equally large monitors from Asia Australia and Africa some dwarfs Oodatria from Australia the rare and little known earless monitor *Lanthanotus* from Borneo their poisonous relatives gila monster and beaded lizards of North America and one has a fantastic study of an important family of creatures With 36 excellent color photos and other illustrations this book examines their evolution habitats lifestyles biology and the need for their conservation *Natural History of Monitor Lizards (family Varanidae) with Evidence from Phylogeny, Ecology, Life History and Morphology* David Jon Pepin, 2001 Monitors Dennis King, Brian Green, 1999 In an easy to read style this book covers the natural history of monitor lizards and includes a description of the world's largest lizard the Komodo Dragon The book is an update the 1993 edition Goanna and contains new information on taxonomy diet breeding behaviour and energetics Two additions are a chapter on parasites of varanids and a section on foraging strategy **Varanoid Lizards of the World** Erick Pianka, Dennis King, Ruth Allen King, 2004-09-21 Monitor lizards genus *Varanus* have attracted a great deal of interest these large and impressive lizards are often the centerpiece of reptile house exhibits Monitors tend to be fairly wary and difficult to observe therefore they are not particularly tractable research subjects but they have nevertheless received an extraordinary amount of attention from devoted students Varanoid Lizards of the World is a comprehensive account of virtually everything important that is known about monitor lizards beginning with detailed species accounts and proceeding to various modern comparative analyses Where possible people who have had detailed field experience with a particular species have assembled species accounts In the process of reporting what is known we also identify what remains to be learned about these lizards We hope to establish a prototype showing how such a diverse monophyletic group can be exploited both to identify and to understand the actual course of evolution As such this effort becomes a protocol for future

workers to follow for other groups of closely related species *The Bengal Monitor* Walter Auffenberg, 1994 The most thorough and exhaustive study of a single reptile species ever carried out It will become a classic Henry Fitch University of Kansas An unparalleled accomplishment in herpetology John L Behler Curator Department of Herpetology New York Zoological Society The Bengal Monitor the most comprehensive study ever done on a single reptile species anywhere in the world completes Walter Auffenberg's monumental trilogy on the behavioral ecology of monitor lizards Together the books provide baseline ecological principles and behavioral descriptions that scientists will use to frame all future theoretical models of the genus *Varanus* The group consists of about fifty species all found in the Old World many of which are considered endangered Unlike the lizard species emphasized in the first two books the Bengal monitor inhabits a huge range extending from Java to the Iran and Afghanistan borders including many different habitats To unravel the biological elements of this lizard's survival strategies Auffenberg concentrates on the diet and foraging behavior of the Bengal monitor studying its prey base mainly small insects in remarkable detail Because most monitors are mainly insectivorous this book reflects the more usual pattern in which these lizards compete with other predatory birds and mammals in the local environment The descriptions of complex ecological relationships assure the book's use by parasitologists entomologists mammalogists and ecologists generally To study the lizards which measure about five feet from nose to tail Auffenberg captured them with techniques that depended on his location and often on local good will licensed hide hunters shot specimens out of trees in Malaysia trained dogs trapped them in Myanmar in the marshy lakes of the Indus Valley he hired tribal Jogi snake charmers to flush them from cover and catch them by hand During a twenty year period his research for *The Bengal Monitor* took him to museums laboratories and field sites throughout southern Asia and then home to Florida where he observed a colony of monitors that he transplanted to greenhouses in his backyard Walter Auffenberg is Distinguished Research Curator Emeritus at the Florida Museum of Natural History Gainesville He chaired the Department of Natural Science from 1963 to 1973 and served as curator of herpetology from 1963 until he retired in 1991 He is the author of *Gray's Monitor Lizard* UPF 1988 and *The Behavioral Ecology of the Komodo Monitor* UPF 1981 for which he received the Wildlife Society's Best Wildlife Book Award He currently serves as technical advisor for an hour long television program on the Komodo monitor **Natural History in Zoological Gardens** Frank Evers Beddard, 1905 *Illustrated Natural History* John George Wood, 1893
