

The top half of the cover features a photograph of a desert landscape. In the background, there are large, rugged mountains with flat tops under a clear sky. The middle ground shows a desert plain with several saguaro cacti and some low-lying shrubs. The foreground is partially obscured by a dark blue band containing the title.

SECOND EDITION

The bottom half of the cover features a close-up photograph of desert wildflowers. The foreground is filled with numerous blue lupine flowers and smaller orange-yellow flowers. Large, smooth, greyish-blue boulders are scattered among the plants.

A Natural History of the Mojave Desert Lawrence R. Walker, Frederick H. Landau, 2018-03-27 Invites readers to explore the smallest and most unique southwestern desert the beautiful Mojave Provided by publisher **Amphibians and Reptiles of the US-Mexico Border States/Anfibios y reptiles de los estados de la frontera México-Estados Unidos** Julio A. Lemos-Espinal, 2015-12-11 In the first bilingual work on the reptiles and amphibians of the US Mexico border top herpetologists come together to describe the herpetofauna of the states of this region which includes more than 600 species of toads frogs salamanders turtles sea turtles alligators lizards snakes and sea snakes that are found along the almost 2 000 mile border between the two countries Each chapter is devoted to one state four in the US California Arizona New Mexico and Texas and six in Mexico Baja California Sonora Chihuahua Coahuila Nuevo Le n and Tamaulipas with text in both English and Spanish The chapters contain an introduction to the area a review of the research a sketch of the state s physiography and a description of the species present as well as the pertinent conservation issues they face A color photo gallery includes images of nearly all species Almost 40 percent of the featured native species are shared between the US and Mexico reminding us that animals depend on the integrity of natural landscapes and proving the need for a comprehensive bilingual reference to help lead a shared effort in the management and conservation of the borderlands *Life beyond the Boundaries* Karen Harry, Sarah A. Herr, 2018-04-02 Life beyond the Boundaries explores identity formation on the edges of the ancient Southwest Focusing on some of the more poorly understood regions including the Jornada Mogollon the Gallina and the Pimer a Alta the authors use methods drawn from material culture science anthropology and history to investigate themes related to the construction of social identity along the perimeters of the American Southwest Through an archaeological lens the volume examines the social experiences of people who lived in edge regions Through mobility and the development of extensive social networks people living in these areas were introduced to the ideas and practices of other cultural groups As their spatial distances from core areas increased the degree to which they participated in the economic social political and ritual practices of ancestral core areas increasingly varied As a result the social identities of people living in edge zones were often though not always fluid and situational Drawing on an increase of available information and bringing new attention to understudied areas the book will be of interest to scholars of Southwestern archaeology and other researchers interested in the archaeology of low populated and decentralized regions and identity formation Life beyond the Boundaries considers the various roles that edge regions played in local and regional trajectories of the prehistoric and protohistoric Southwest and how place influenced the development of social identity Contributors Lewis Borck Dale S Brenneman Jeffery J Clark Severin Fowles Patricia A Gilman Lauren E Jelinek Myles R Miller Barbara J Mills Matthew A Peeples Kellam Throgmorton James T Watson Clairvoyance (For Those In The Desert) Joanna Frueh, 2008-03-13 Collection of performance pieces and writings by multimedia artist poet and performer Joanna Frueh that covers her career

from the late 1970s to the present **Landscape of the Spirits** Todd W. Bostwick, Peter Krocek, 2016-12-01 High above the noise and traffic of metropolitan Phoenix Native American rock art offers mute testimony that another civilization once thrived in the Arizona desert In the city's South Mountains prehispanic peoples pecked thousands of images into the mountains boulders and outcroppings images that today's hikers can encounter with every bend in the trail Todd Bostwick an archaeologist who has studied the Hohokam for more than twenty years and Peter Krocek a professional photographer with a passion for archaeology have combed the South Mountains to locate nearly all of the ancient petroglyphs found in the canyons and ridges Their years of learning the landscape and investigating the ancient designs have resulted in a book that explores this wealth of prehistoric rock art within its natural and cultural contexts revealing what these carvings might mean how they got there and when they were made *Landscape of the Spirits* is the first book to cover these ancient images and is one of the most comprehensive treatments of a rock art location ever published It conveys the range of different rock art elements and compositions found in the South Mountains animals humans and geometric shapes as well as celestial and calendrical markings at key sites through accurate descriptions drawings and photographs Interpretations of the petroglyphs are based on Native American ethnographic accounts and consider the most recent theories concerning shamanism and archaeoastronomy Written in a simple and accessible style *Landscape of the Spirits* is an indispensable volume for anyone exploring the South Mountains and for rock art enthusiasts everywhere who wish to broaden their understanding of the prehistoric world It is both an authoritative overview of these ancient wonders and an unprecedented benchmark in southwestern rock art research at a single geographic location Conservation Across Borders Charles C. Chester, 2012-02-13 Conservationists have long been aware that political boundaries rarely coincide with natural boundaries From the establishment of early peace parks to the designation of continental migratory pathways a wide range of transborder mechanisms to protect biodiversity have been established by conservationists in both the public and private sectors *Conservation Across Borders* presents a broad overview of the history of transboundary conservation efforts and an accessible introduction to current issues surrounding the subject Through detailed examinations of two initiatives the International Sonoran Desert Alliance ISDA and the Yellowstone to Yukon Initiative Y2Y the book helps readers understand the benefits and challenges of landscape scale protection In addition to discussing general concepts and the specific experience of ISDA and Y2Y the author considers the emerging concept of conservation effectiveness and offers a comparative analysis of the two projects The book ends with a discussion of the complex relationships among civil society governments and international borders By considering the history goals successes and failures of two divergent initiatives the book offers important insights into the field of transborder conservation along with valuable lessons for those studying or working in the field *Landscaping with Native Plants of the Southwest* George Oxford Miller, As the world heats up and we become more and more conscious of our place in the natural scheme the appeal of the native plants of the Southwest

becomes ever more compelling for gardeners In addition to providing year round beauty with relatively little maintenance landscaping with native plants contributes to the repair of the natural ecosystem and brings us closer to our environment and the array of native plant material available to the Southwestern gardener is diverse and spectacular providing seemingly endless opportunities for creative and attractive landscapes In *Landscaping with Native Plants of the Southwest* George Oxford Miller provides the definitive guide to choosing the best of the best among the native plants of Arizona and New Mexico Covering wildflowers shrubs trees vines groundcovers and cacti this comprehensive richly illustrated book selects the species whose ornamental qualities growth habit adaptability maintenance needs and beauty add up to the highest landscape value The illustrations maps and charts provide guidelines for species selection and planting ongoing maintenance landscape design and water and energy conservation In depth plant profiles describe the habitat requirements for more than 350 native plant species subspecies and varieties with lush photographs illustrating how each plant looks and responds to landscape conditions As the interest in native plant landscaping and xeriscaping continues to grow this book will find a place on the shelf of every gardener and landscaper in the region or of anybody interested in recreating the beauty of the Southwest in a hot dry corner of the yard
